(57) **CLAIM**

The ornamental design for a surgical tool, as shown and described.

**DESCRIPTION**

FIG. 1 is an overhead perspective view of a surgical tool. FIG. 2 is an underside perspective view of the surgical tool. FIG. 3 is an underside perspective view of an alternative position of the surgical tool. FIG. 4 is a top plan view of the surgical tool. FIG. 5 is a bottom plan view of the surgical tool. FIG. 6 is a right side elevational view of the surgical tool, the left side elevational view being a mirror image of the right side elevational view. FIG. 7 is a front elevational view of the surgical tool; and, FIG. 8 is a rear elevational view of the surgical tool. The broken lines shown in FIGS. 1-8 illustrate portions of the surgical tool and form no part of the claimed design.
