(Continued)

FIG. 1 is a front perspective view of an upper body garment with infant pouch being worn by a woman, in accordance with our invention.

FIG. 2 is another front perspective view of the upper body garment of FIG. 1.

FIG. 3 is a rear view perspective view of the upper body garment of FIG. 1.

FIG. 4 is a front perspective view of the upper body garment of FIG. 1, shown being worn by a woman and with the pouch extended.

FIG. 5 is a front perspective view of the upper body garment of FIG. 1, shown being worn by a woman and with an infant in the pouch.

FIG. 6 is a front perspective view of the upper body garment of FIG. 1, shown being worn by a woman and with an upper edge of the pouch being pulled up over the shoulders of an infant in the pouch; and,

FIG. 7 is a front perspective view of the upper body garment of FIG. 1, shown being worn by a woman and with a head support extended over the head of an infant in the pouch.

The broken lines illustrate a woman or a man wearing the upper body garment, an infant within the pouch, and in one embodiment the lower seam of the infant pouch, and which man or woman, infant, and lower seam form no part of the claimed design.
