(Continued)

FIG. 14 is a front view of a sixth image of the second embodiment.

FIG. 15 is a front view of a seventh image of the second embodiment; and,

FIG. 16 is a front view of an eighth image of the second embodiment.

In embodiments of the design, the images shown in FIGS. 1-16 include images of a graphical user interface object for a display screen or a portion thereof. The appearance of the image transitions sequentially between the images shown in each respective embodiment. In the first embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-8. In the second embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 9-16. The process or period in which an image transitions to another forms no part of the claimed design.

The outermost solid line in the figures represents the display screen, which forms part of the claimed design. The text shown in broken lines and all other broken lines showing portions of the graphical user interface are environmental and form no part of the claimed design.
