(57) **CLAIM**

The ornamental design for a portion of a display screen with graphical user interface, as shown and described.

DESCRIPTION

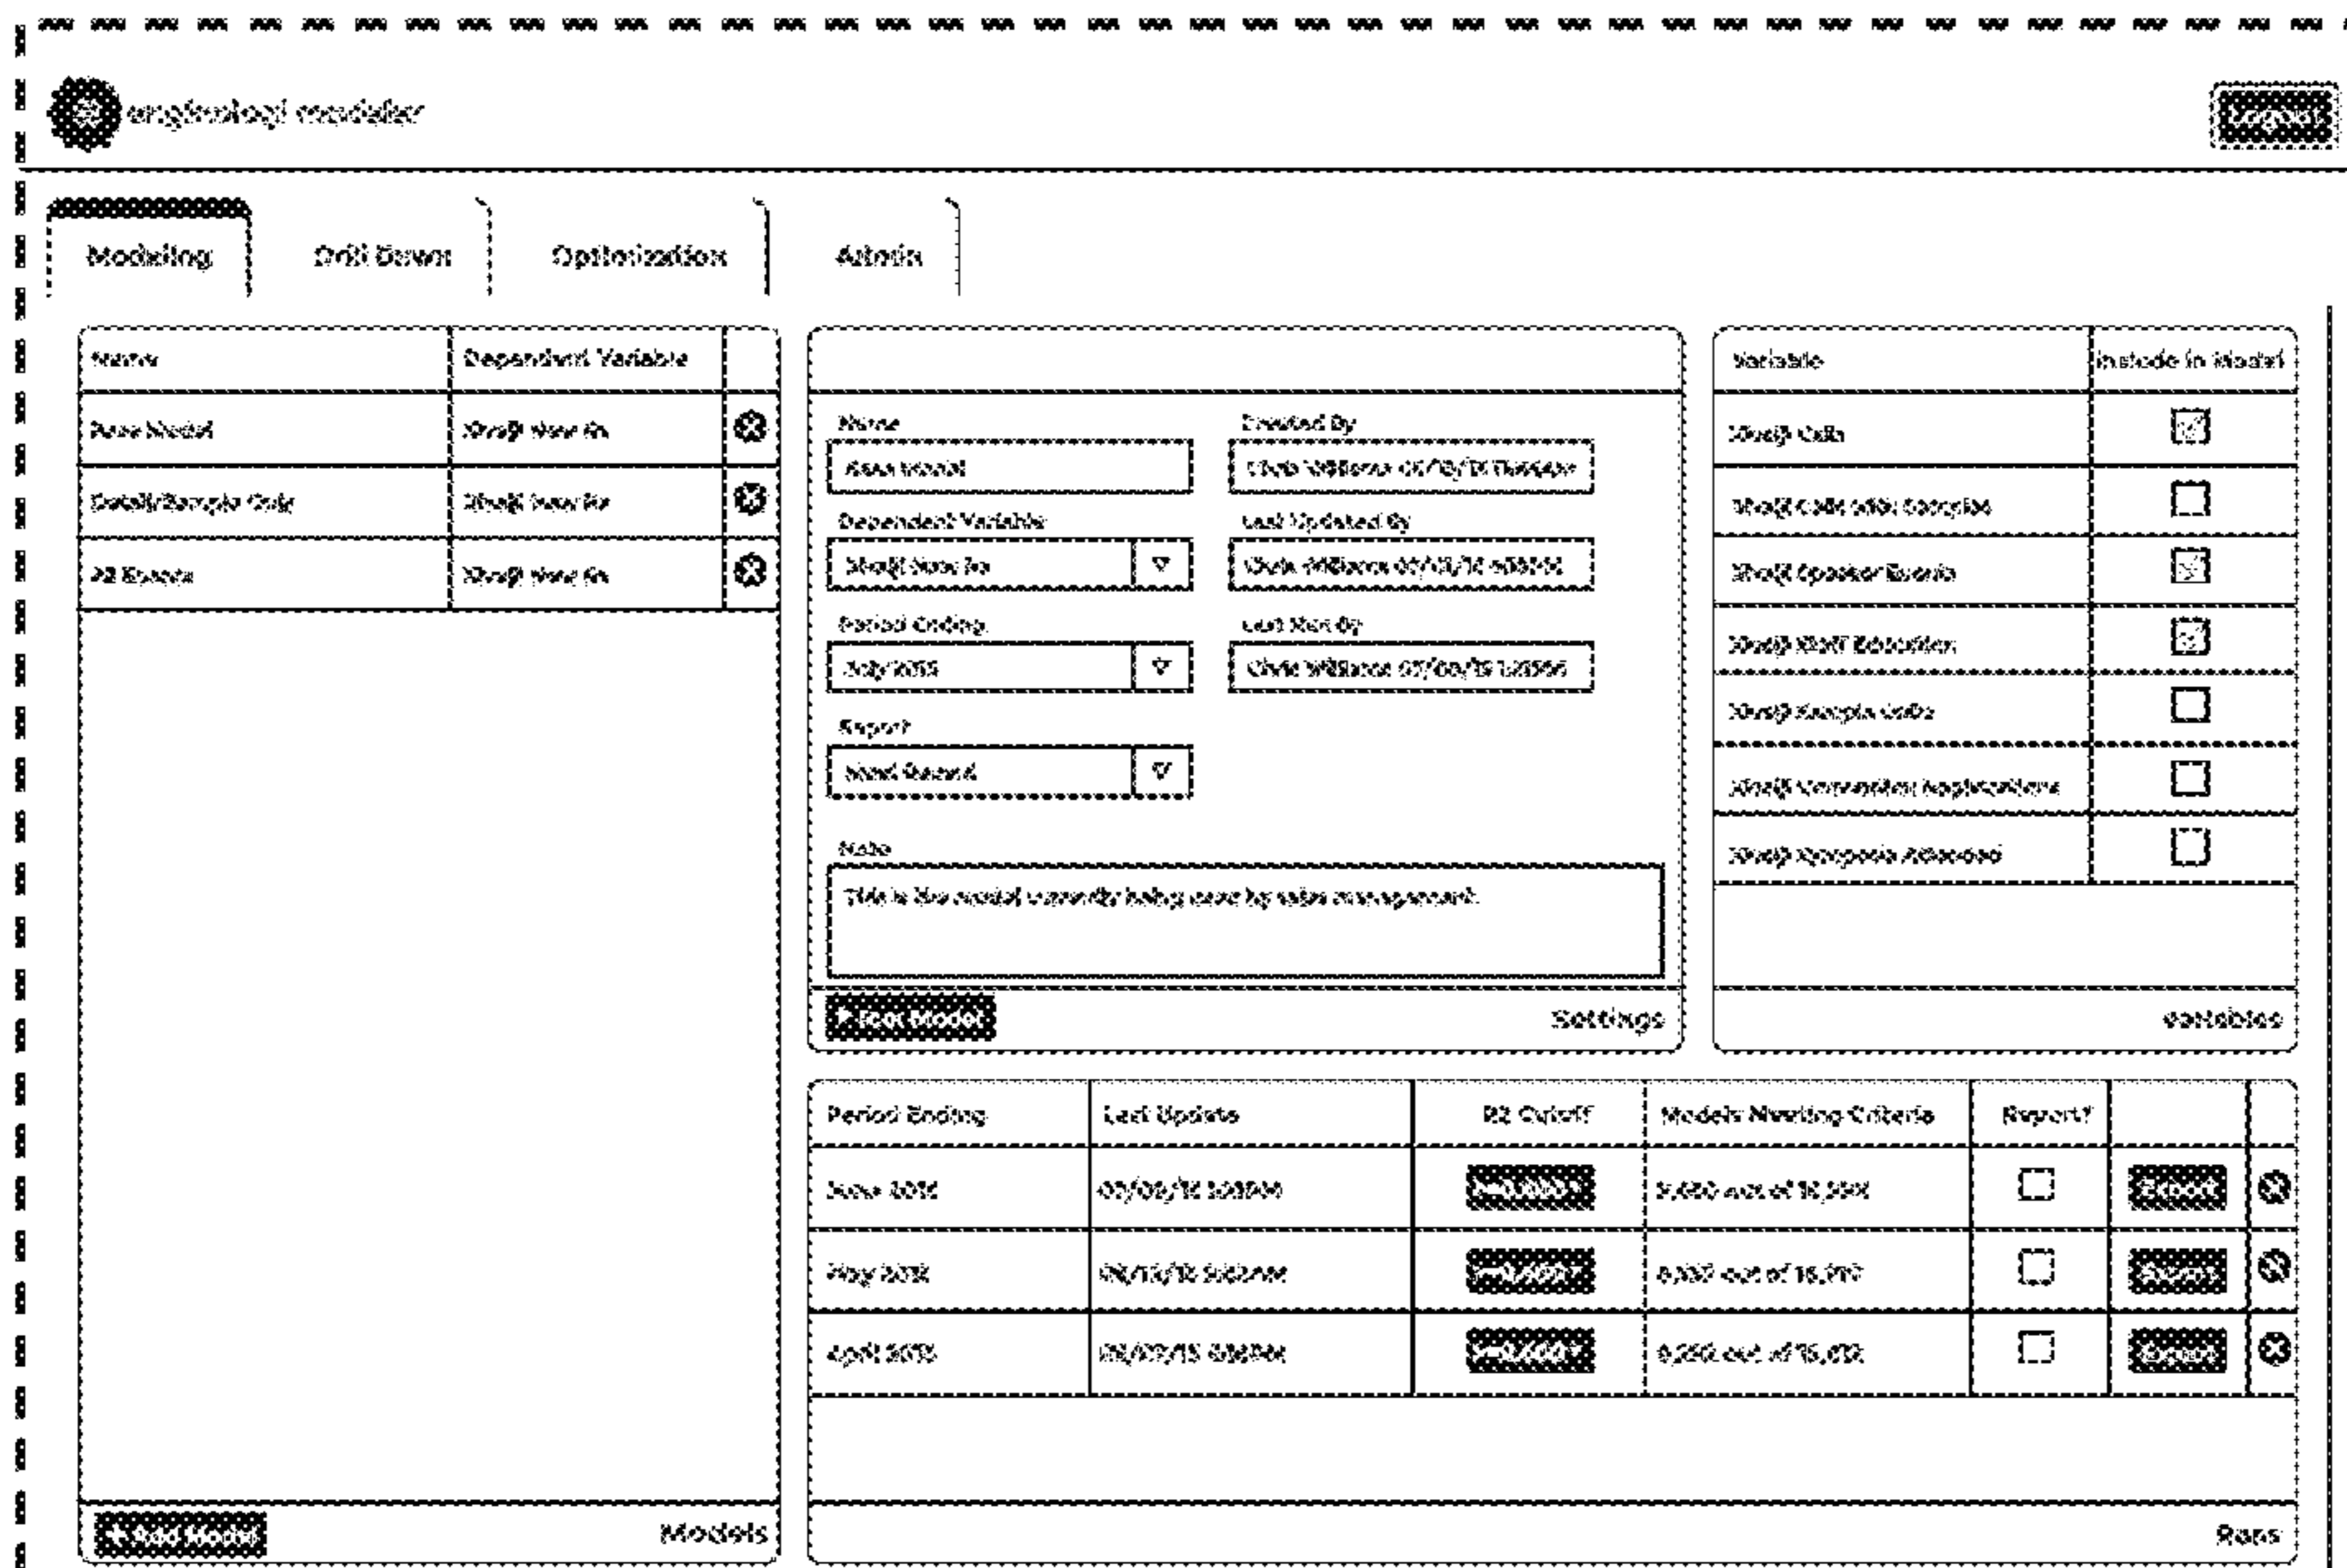

The FIGURE is front view of a portion of a display screen with graphical user interface showing our new design. The outer border of the screen shown in broken line forms no part of the claimed design. The remaining broken lines shown within the graphical user interface, including heavy, medium and lightweight broken lines, black broken lines and white broken lines, and text written in broken lines, illustrate portions of the graphical user interface and form no part of the claimed design.
