(57) **CLAIM**

The ornamental design for a display screen with navigation bar for browser-based graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a display screen with navigation bar for browser-based graphical user interface showing a first image in a first sequence showing our new design; FIG. 2 is a second image in the first sequence; FIG. 3 is a third image in the first sequence; FIG. 4 is a fourth image in the first sequence; FIG. 5 is a fifth image in the first sequence; FIG. 6 is a front view of a second embodiment of a display screen with navigation bar for browser-based graphical user interface showing a first image in a second sequence; FIG. 7 is a second image in the second sequence; FIG. 8 is a third image in the second sequence; FIG. 9 is a fourth image in the second sequence; and, FIG. 10 is a fifth image in the second sequence. In the first embodiment, the appearance of the images sequentially transitions between the images shown in FIGS. 1-5. In the second embodiment, the appearance of the images sequentially transitions between the images shown in FIGS. 6-10. The process or period in which one image transitions to another forms no part of the claimed design. The broken lines showing a portion of a display screen, text, and other elements in the FIGURES are included for the purpose of illustrating portions of the article and form no part of the claimed design.
