(57) **CLAIM**

The ornamental design for a lanyard, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a lanyard showing my new design; and,

FIG. 2 is a rear perspective view thereof.

In FIGS. 1 and 2, the parallel, diagonal, broken lines shown along the outer and inner surfaces of the lanyard represent an ornamental surface pattern and form part of the claimed design. The central, longitudinal, broken lines on FIG. 1, shown along the full length of the lanyard, represent stitches and form part of the claimed design. The horizontal, dotted lines on FIGS. 1 and 2, shown near the attachment hoop element, merely represent stitching and form part of the claimed design. The central, longitudinal stripe on FIG. 1 that runs along the full length of the lanyard represents a contrasting surface stitched onto the front of the lanyard.

The cross-hatching shading in the figures is fragmentally shown in the figures for convenience of illustration, it being understood that the cross-hatching shading is uniformly continued over the surface on which it appears to represent fabric material.
