(57) **CLAIM**

The ornamental design for a notebook computer housing, as shown and described.

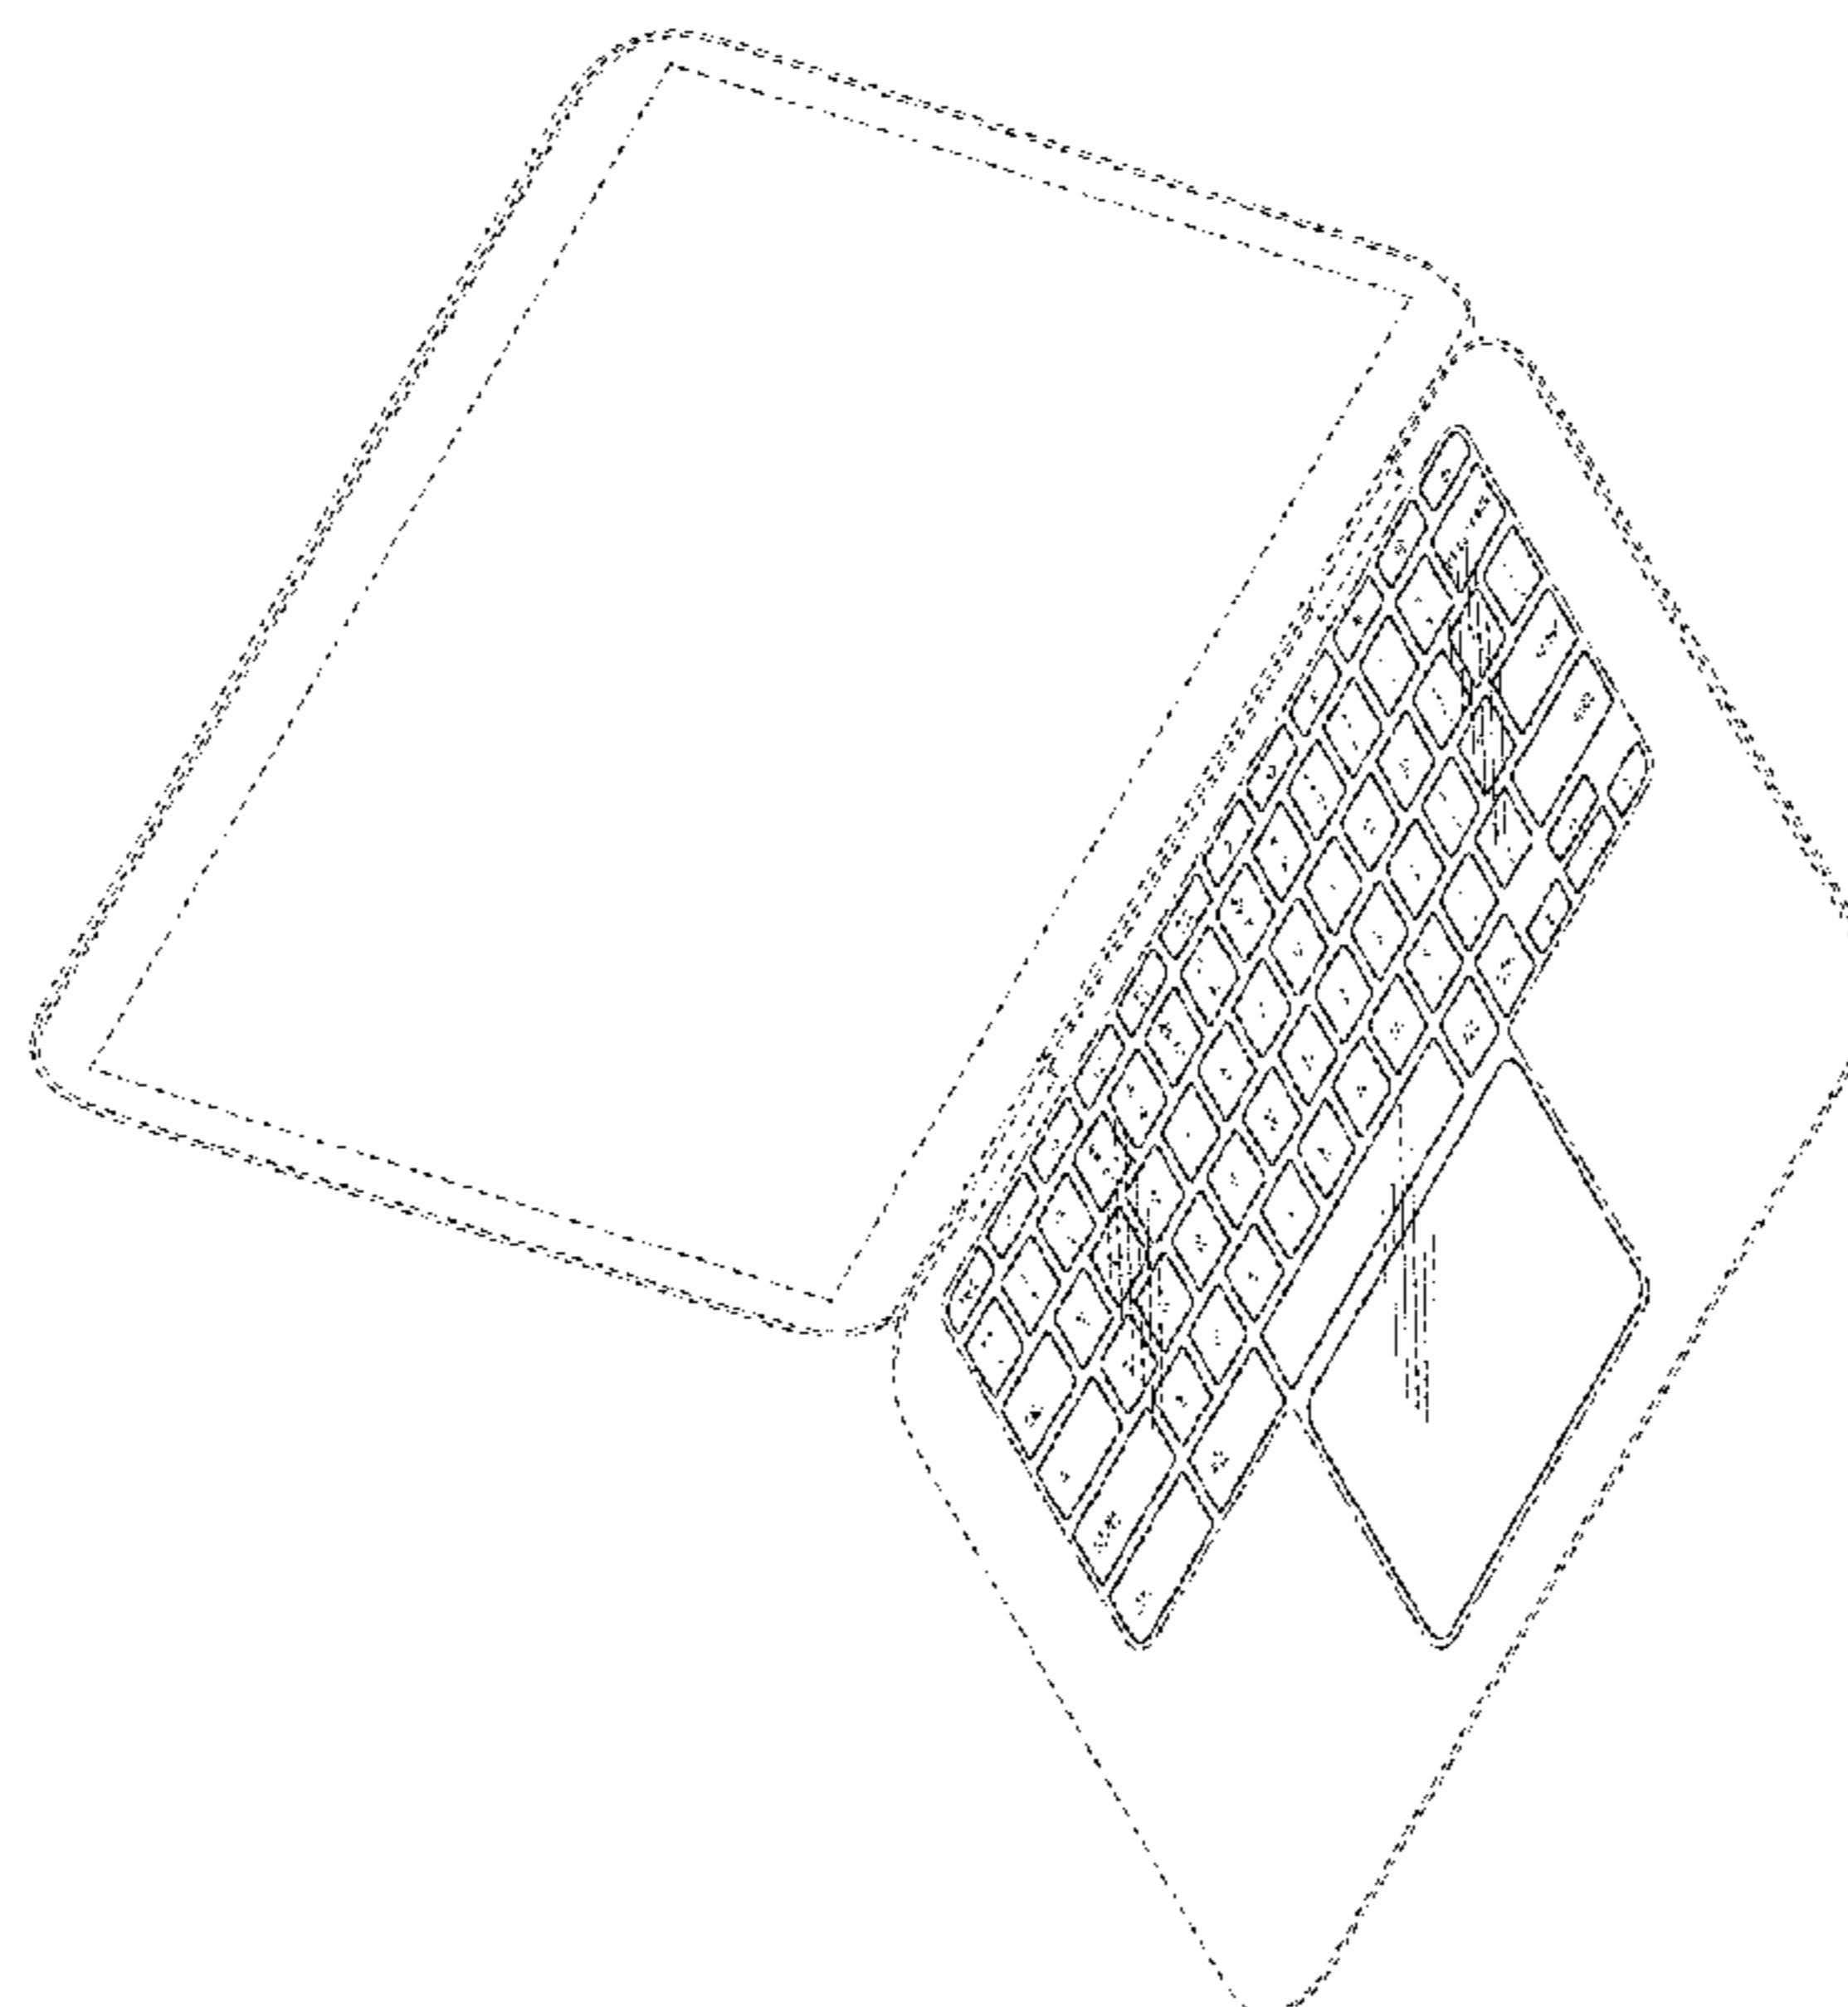

DESCRIPTION

FIG. 1 is a front perspective view of the notebook computer housing according to my design; and, FIG. 2 is a top view thereof.

Broken lines are environmental only and form no part of the claimed design. Dash-dot lines adjacent un-shaded areas represent bounds of the claimed design and form no part of the claimed design themselves.

Diagonal shading is used to indicate that a particular feature is at least partially transparent, and any features shown within such areas are at least partially visible through such an at least partially transparent feature.

1 Claim, 2 Drawing Sheets

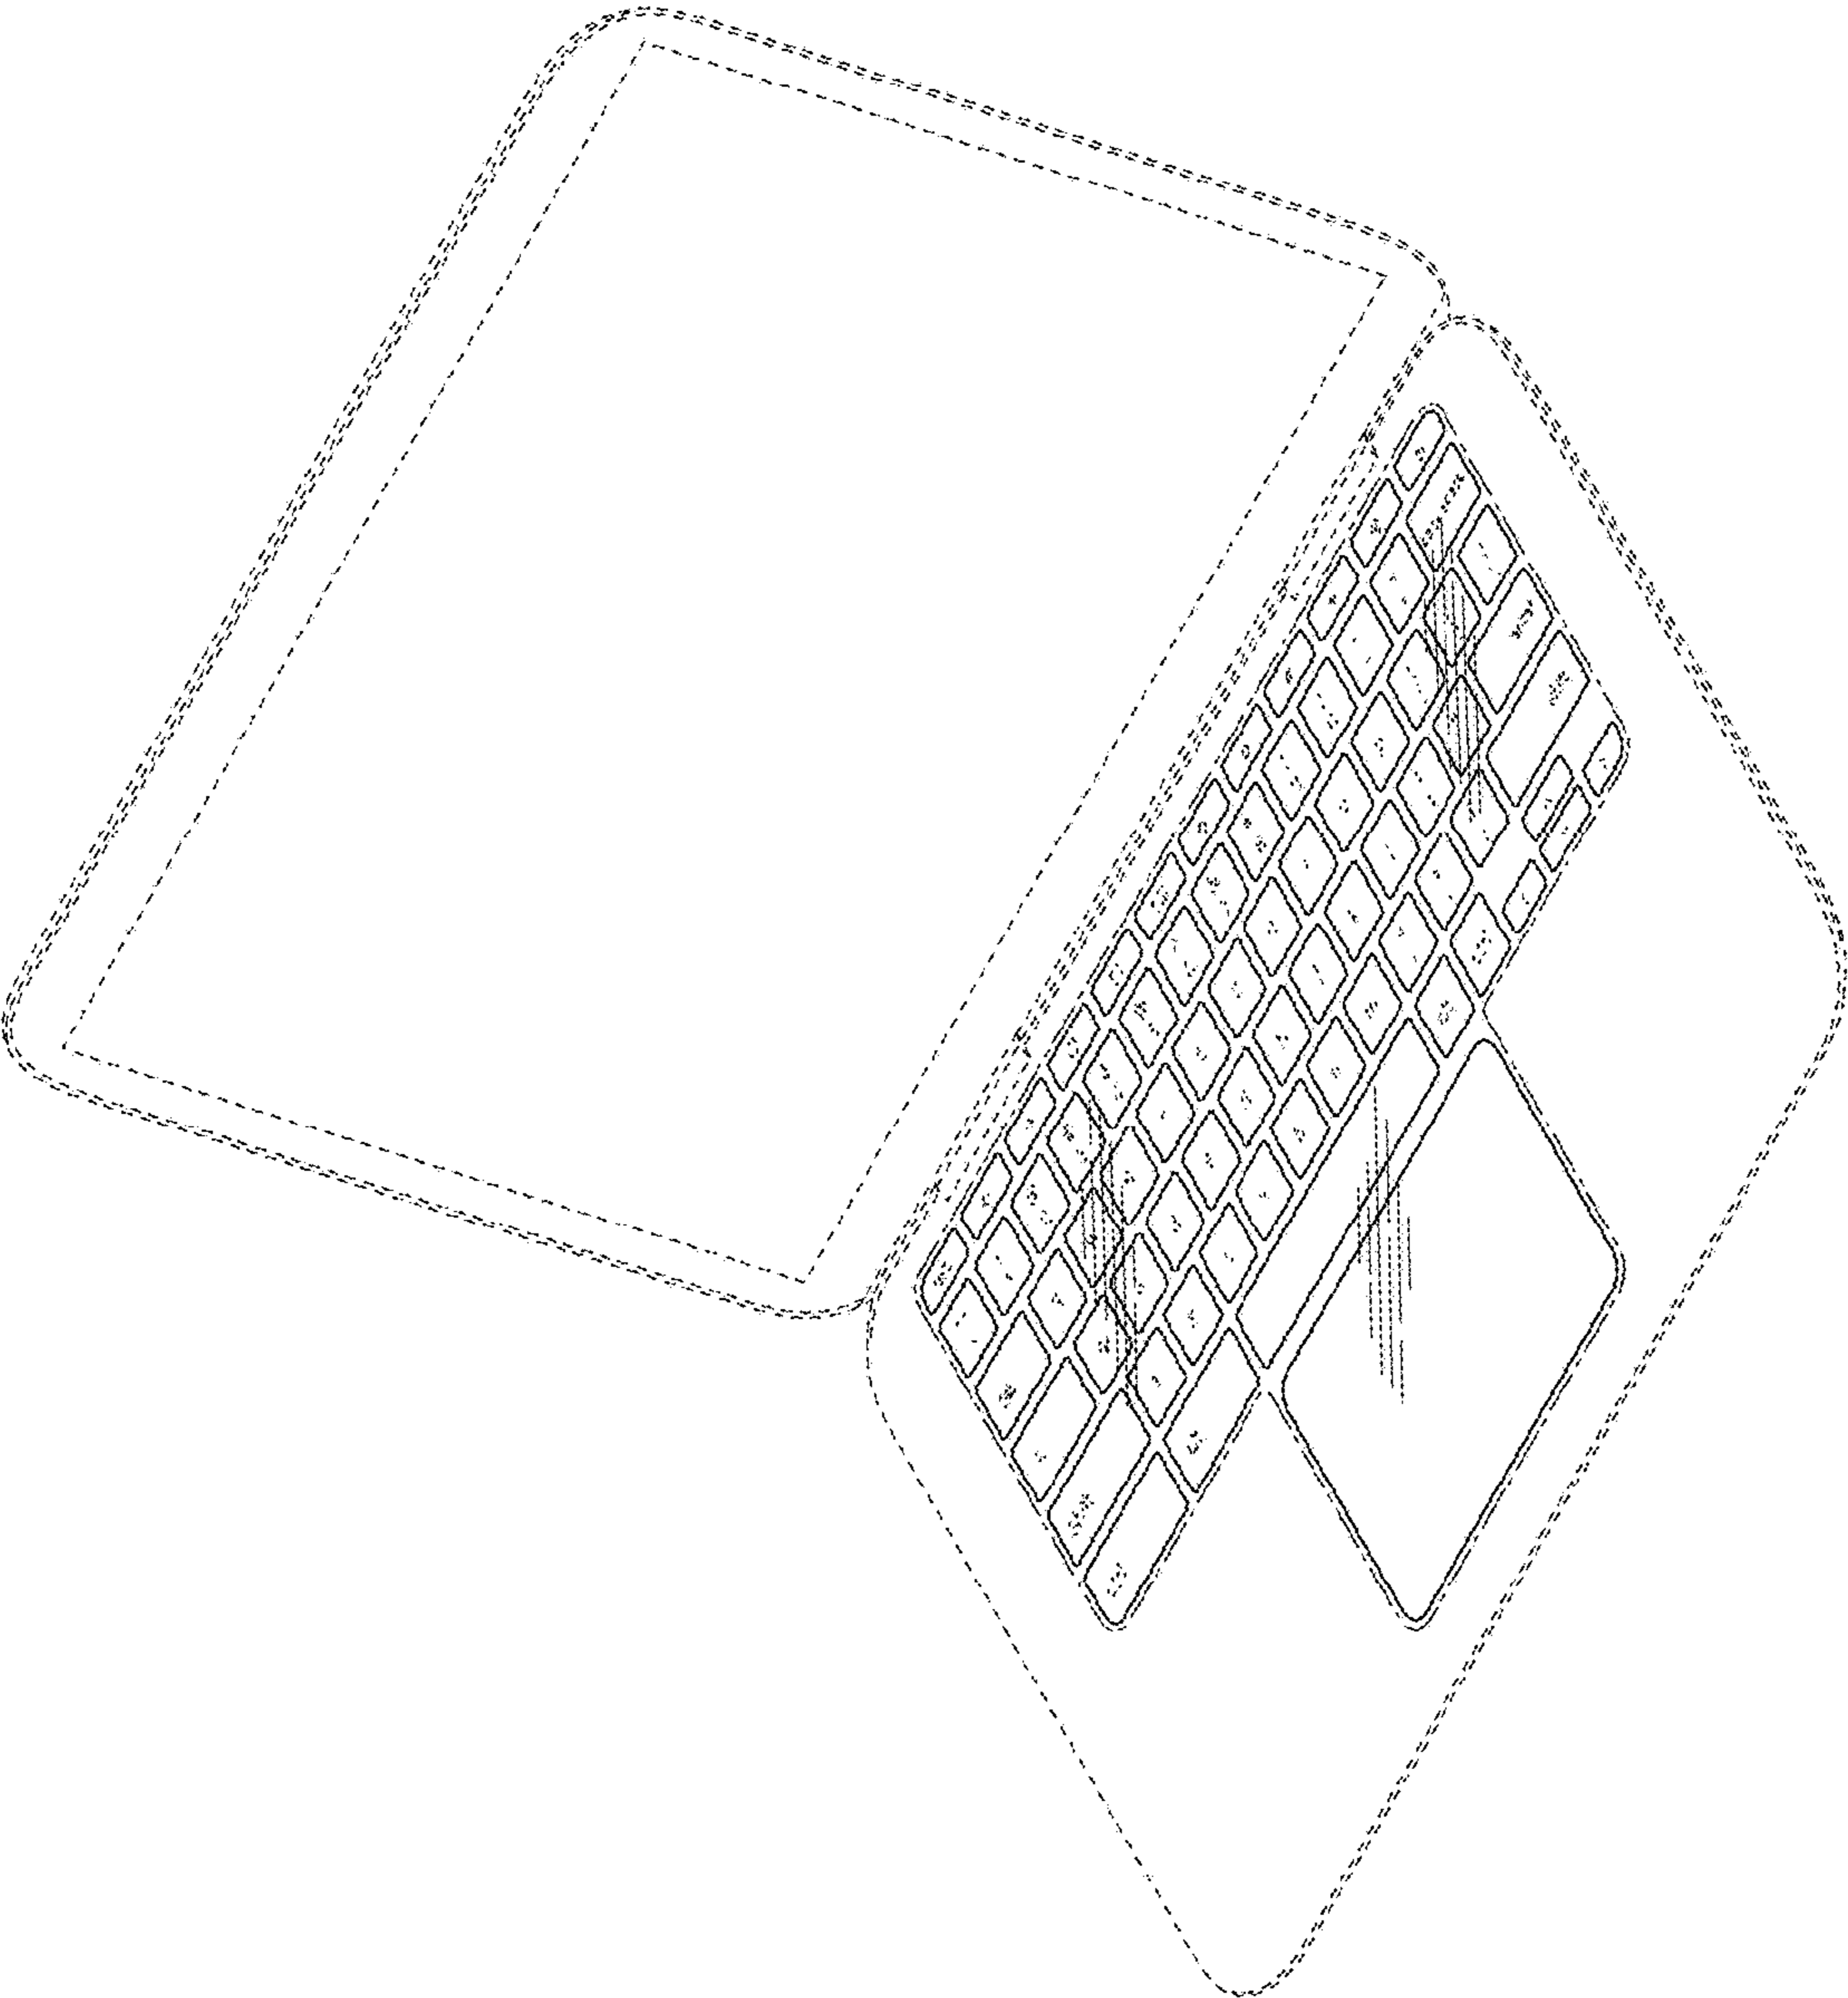

FIG. 1
