(57) **CLAIM**

The ornamental design for a display screen or portion thereof with a graphical user interface for analytics, as shown and described.

**DESCRIPTION**

FIG. 1 is a first image in a sequence of a front view of a display screen or portion thereof with a graphical user interface for analytics.

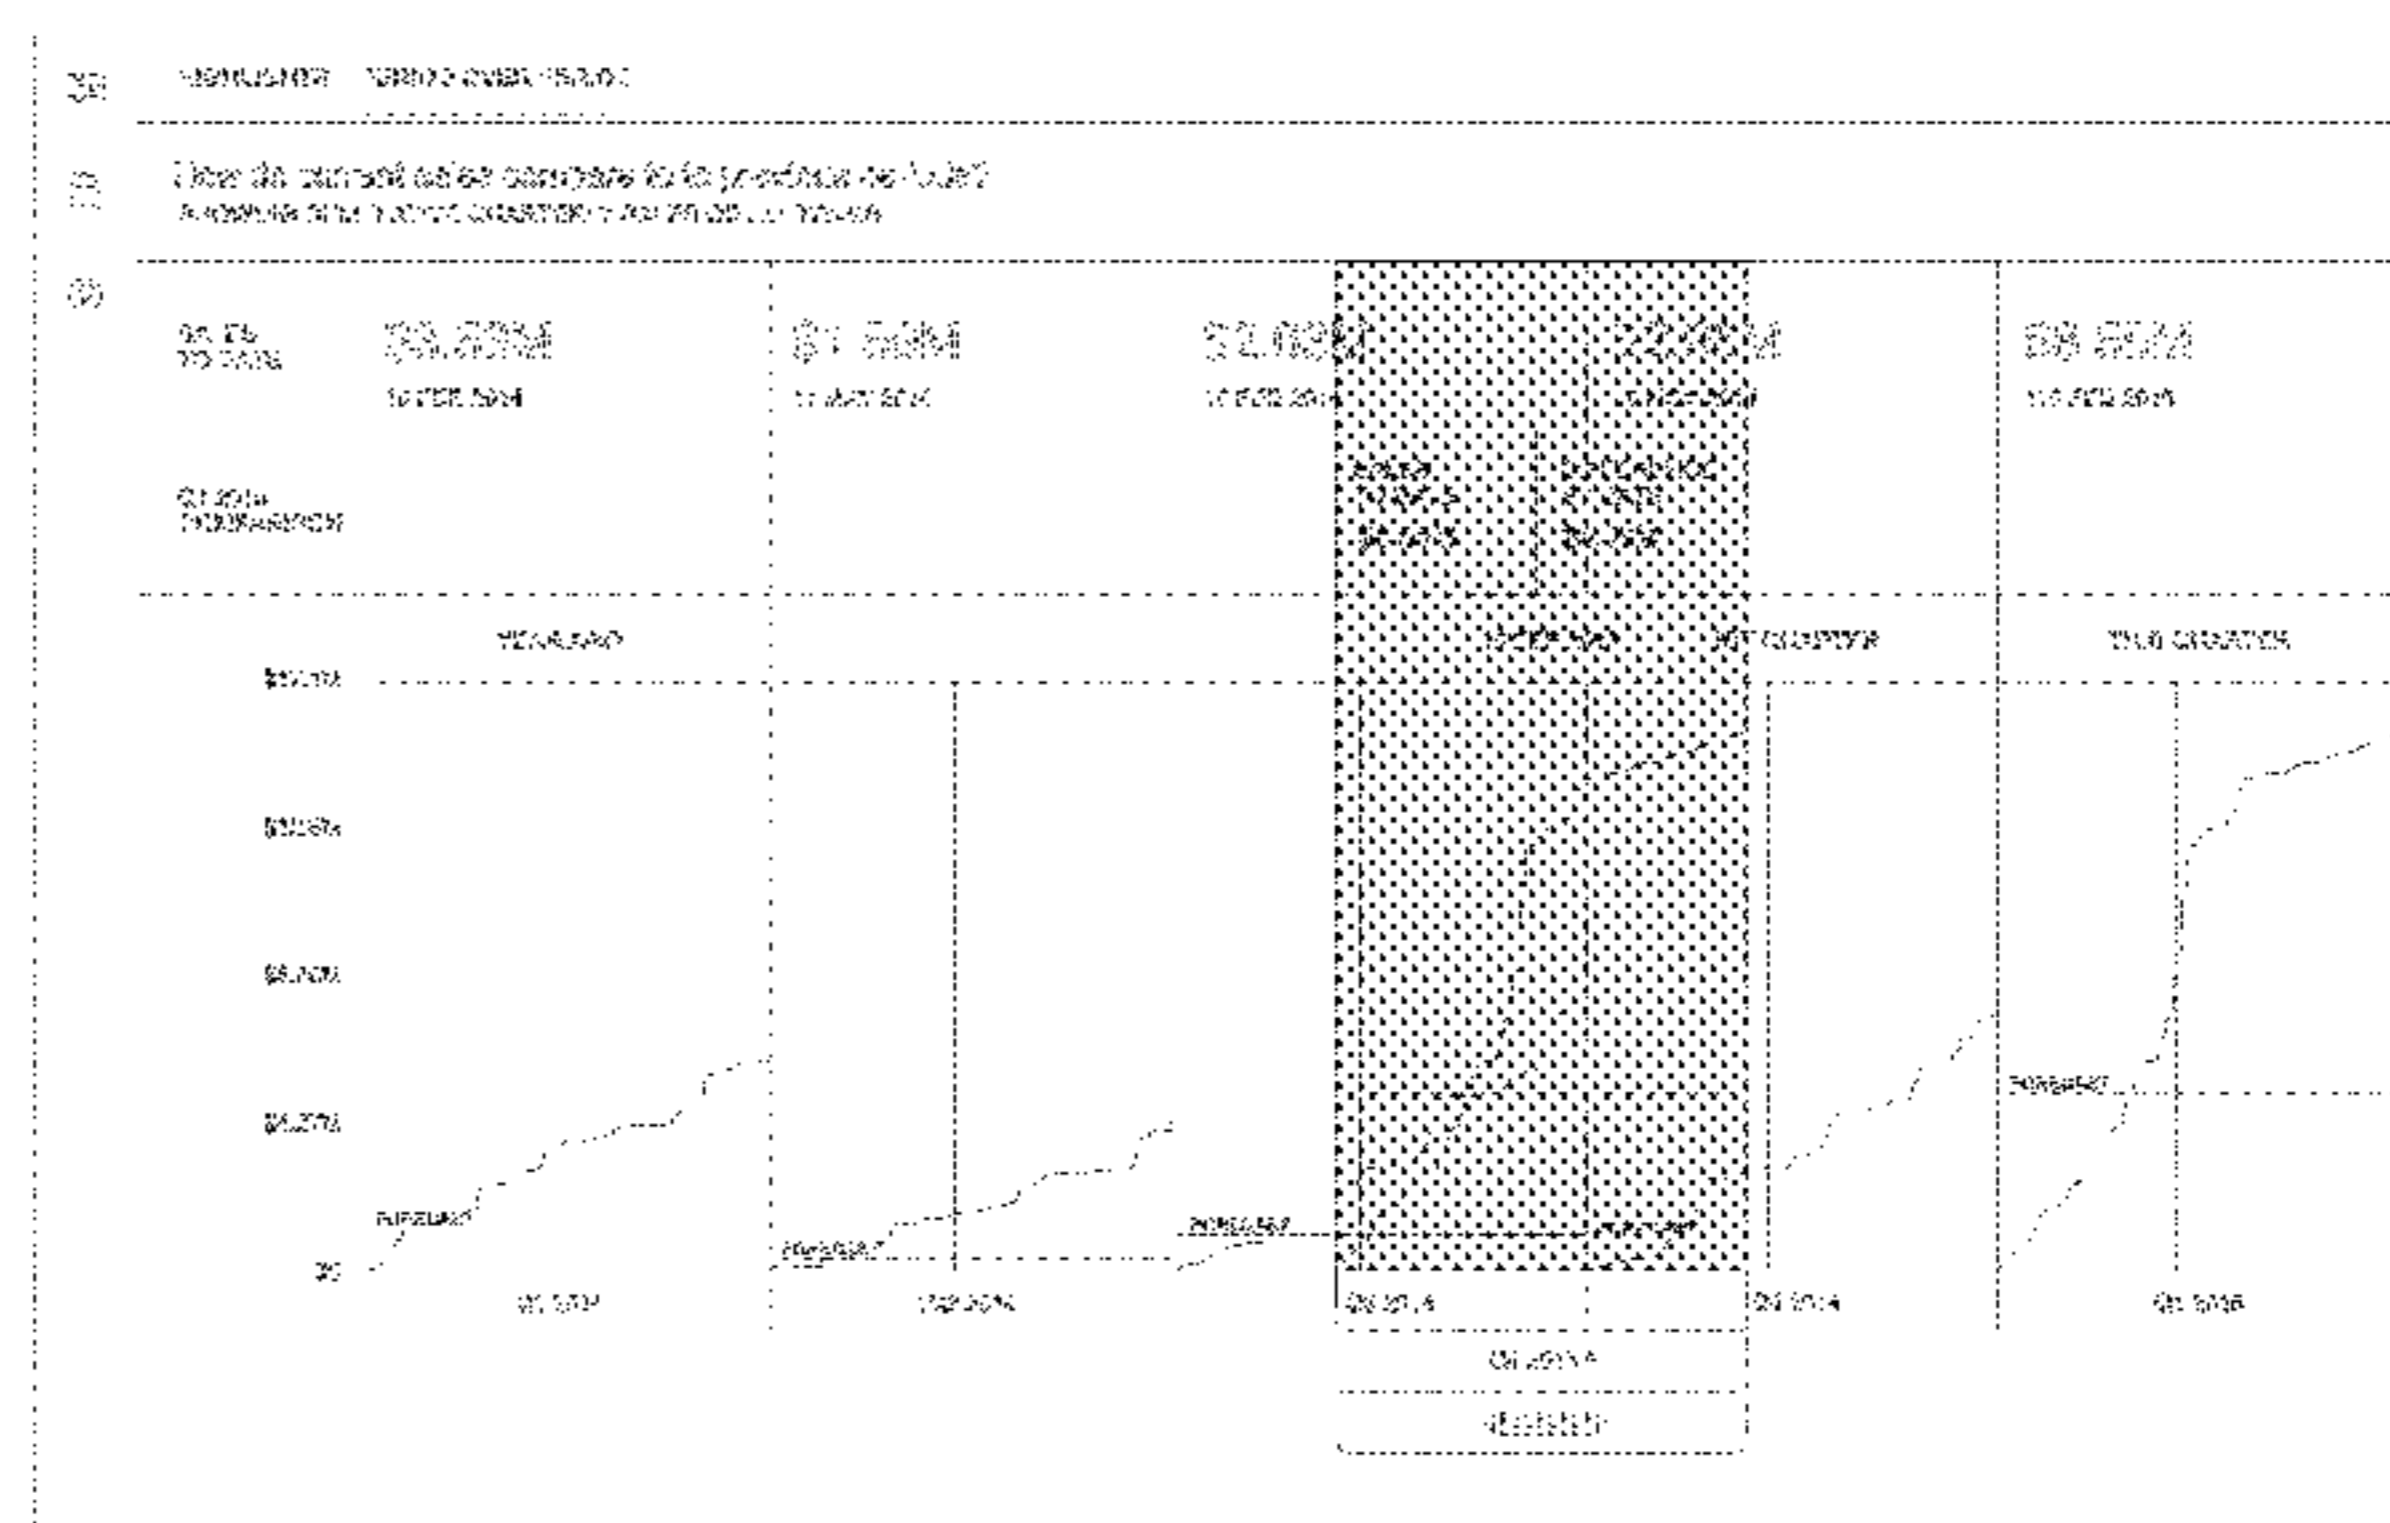

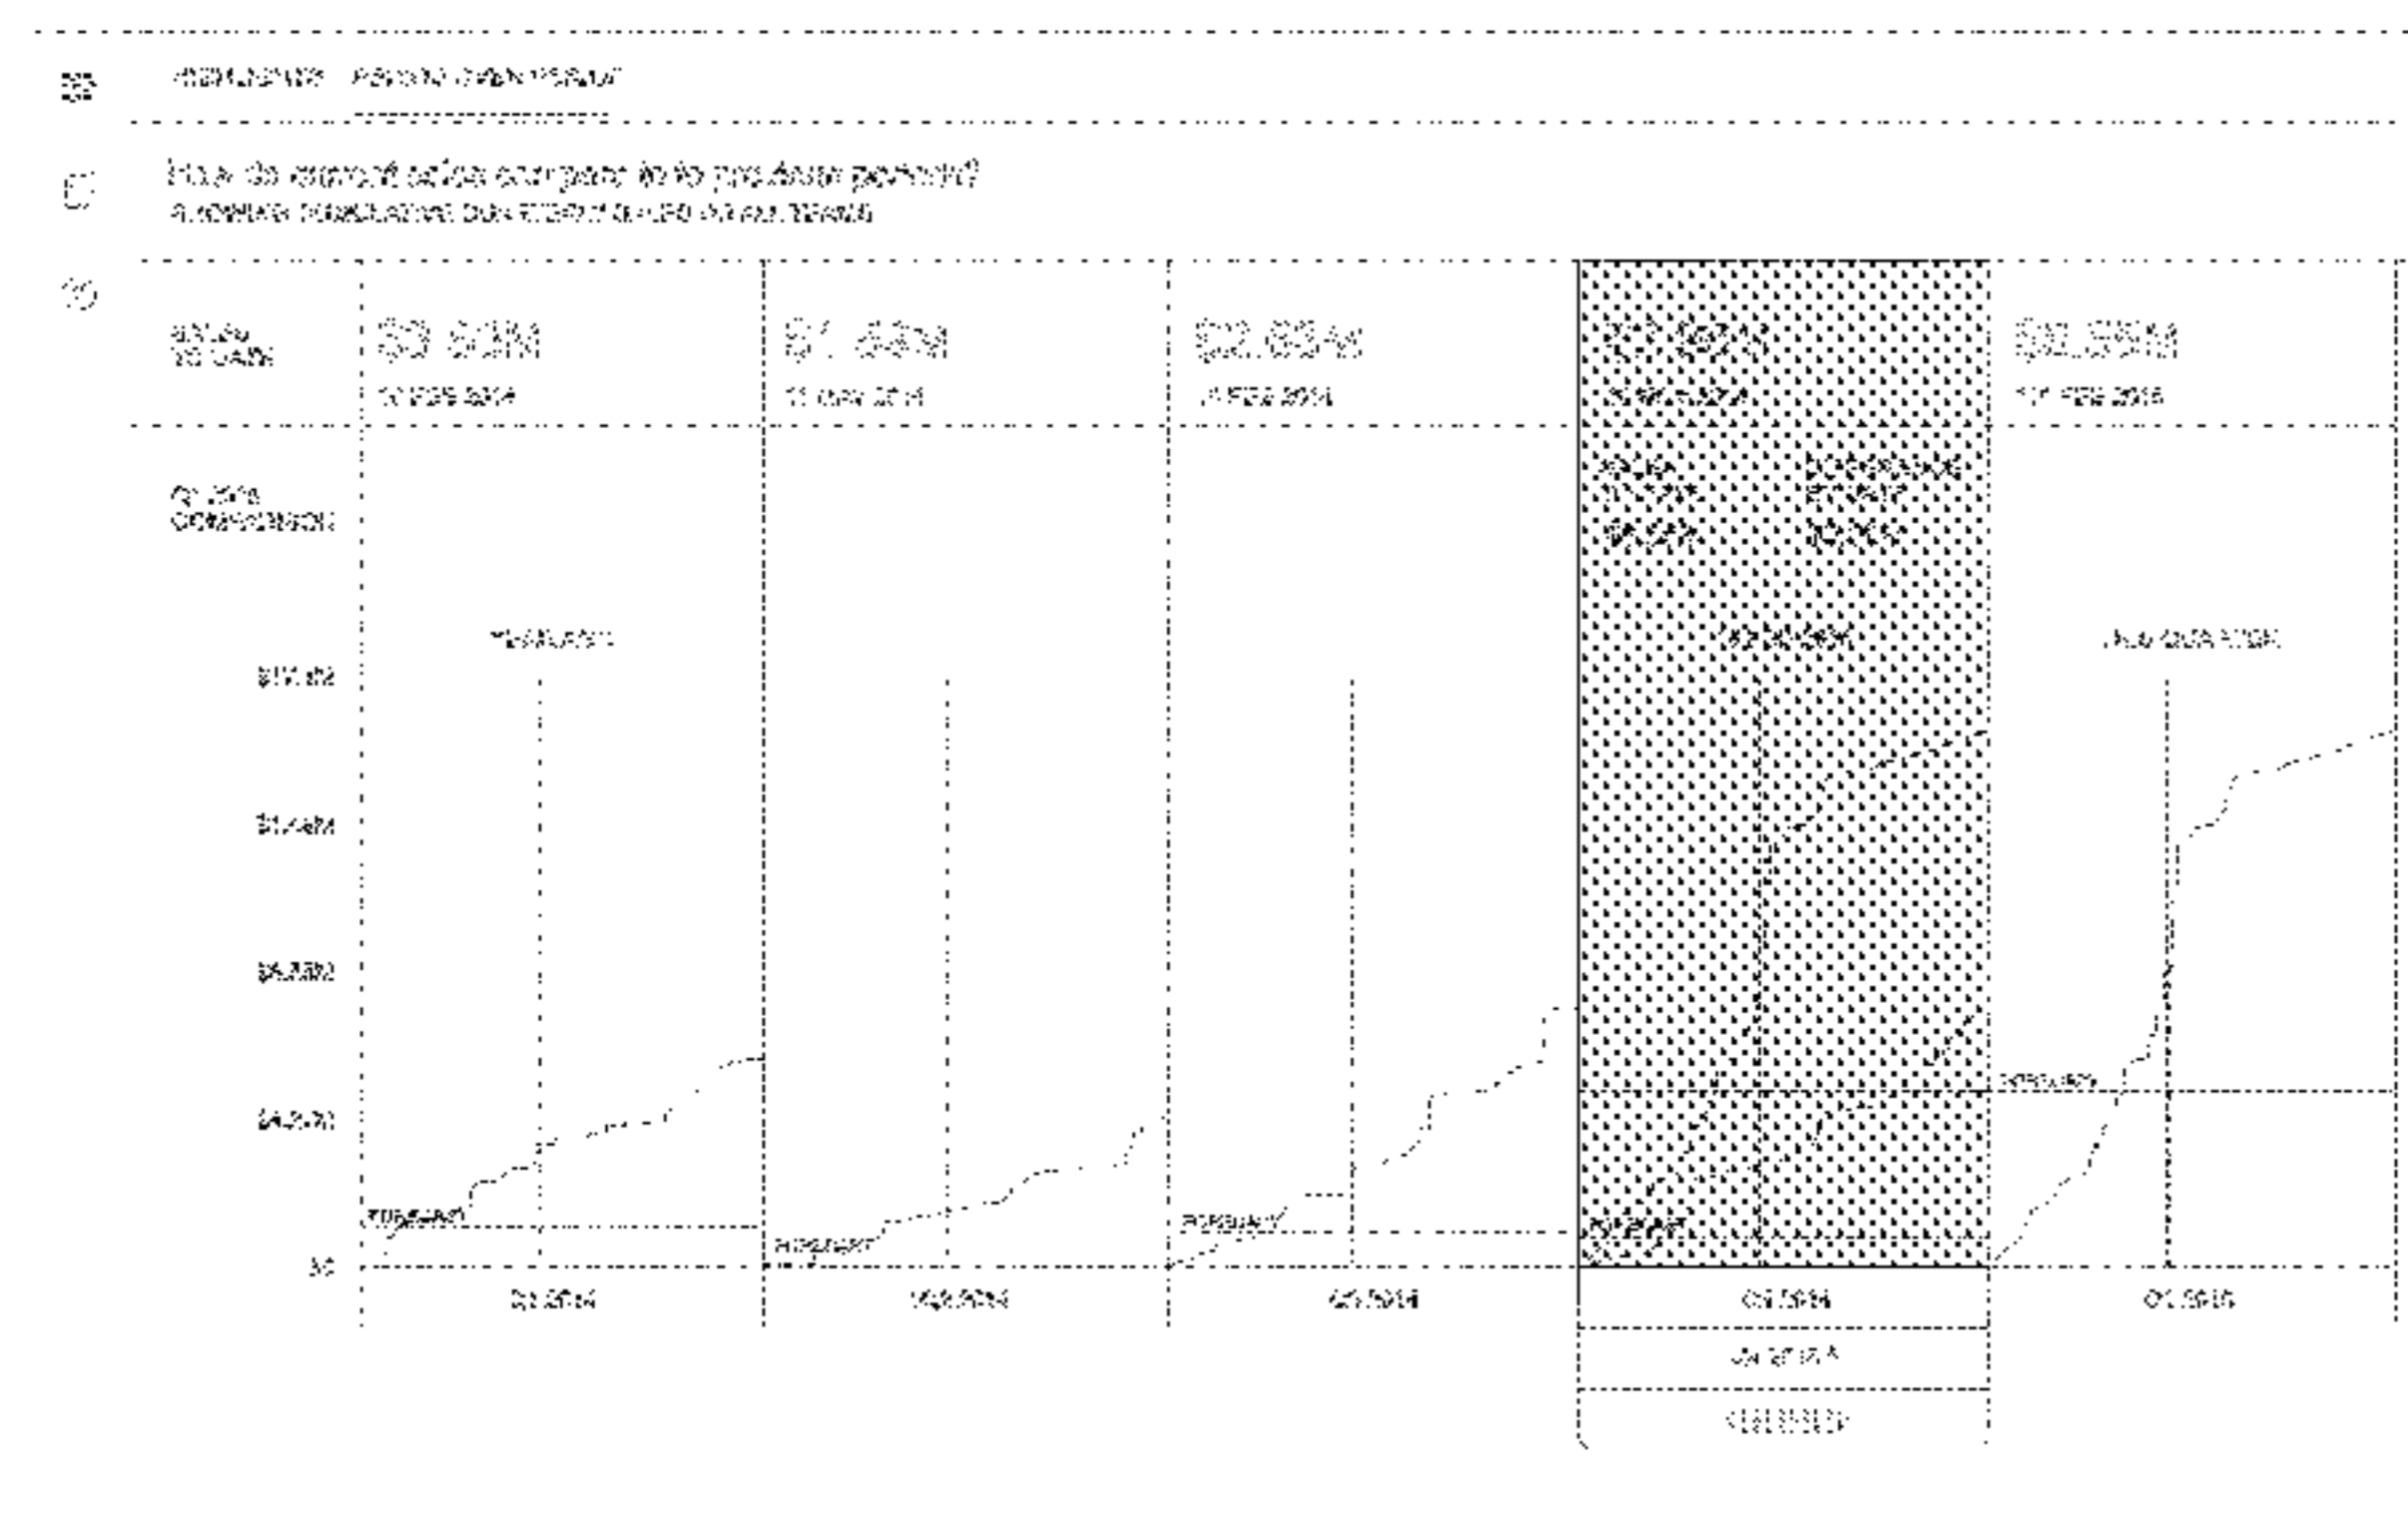

FIG. 2 is a second image in a sequence of a front view of a display screen or portion thereof with a graphical user interface for analytics; and,

FIG. 3 is a third image in a sequence of a front view of a display screen or portion thereof with a graphical user interface for analytics.

Within the drawings, the broken lines show the display screen or portion thereof and the portions of the graphical user interface which are excluded from the claim and form no part of the claimed design.

The new design transitions as depicted in the views shown in FIG. 1, FIG. 2, and FIG. 3, however the process of transitioning among the views in the figures is not included in the claimed design.
