(57) **CLAIM**

The ornamental design for a display screen with graphical user interface or portion thereof, as shown and described.

DESCRIPTION

FIG. **1** is a front view of a display screen with graphical user interface or portion thereof, according to a first embodiment; and,

FIG. **2** is a front view of a display screen with graphical user interface or portion thereof, according to a second embodiment.

The broken line showing of text is included for the purpose of illustrating environmental structure and forms no part of the claimed design. White areas represent negative space and form no part of the claimed design.

The perimeters of the portion of the underlying portion of a display screen and the graphical user interface are understood to be flush.
