The ornamental design for a display screen with graphical user interface or portion thereof, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface or portion thereof, according to a first embodiment; FIG. 2 is a front view of a display screen with graphical user interface or portion thereof, according to a second embodiment; FIG. 3 is a front view of a display screen with graphical user interface or portion thereof, according to a third embodiment; FIG. 4 is a front view of a display screen with graphical user interface or portion thereof, according to a fourth embodiment; FIG. 5 is a front view of a display screen with graphical user interface or portion thereof, according to a fifth embodiment; FIG. 6 is a front view of a display screen with graphical user interface or portion thereof, according to a sixth embodiment; FIG. 7 is a front view of a display screen with graphical user interface or portion thereof, according to a seventh embodiment; and, FIG. 8 is a front view of a display screen with graphical user interface or portion thereof, according to an eighth embodiment.

The broken line showing of text and other features is included for the purpose of illustrating environmental structure and forms no part of the claimed design. The text shown, and its specific placement, is merely illustrative and forms no part of the claimed design.

The perimeters of the portion of the underlying portion of a display screen and the graphical user interface are understood to be flush.
