The ornamental design for a display screen with animated graphical user interface, as shown and described.

**DESCRIPTION**

See application file for complete search history.

FIG. 1 is a first image in a sequence of a display screen with animated graphical user interface, showing my new design; FIG. 2 is a second image thereof; FIG. 3 is a third image thereof; and, FIG. 4 is a fourth image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIG. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design.

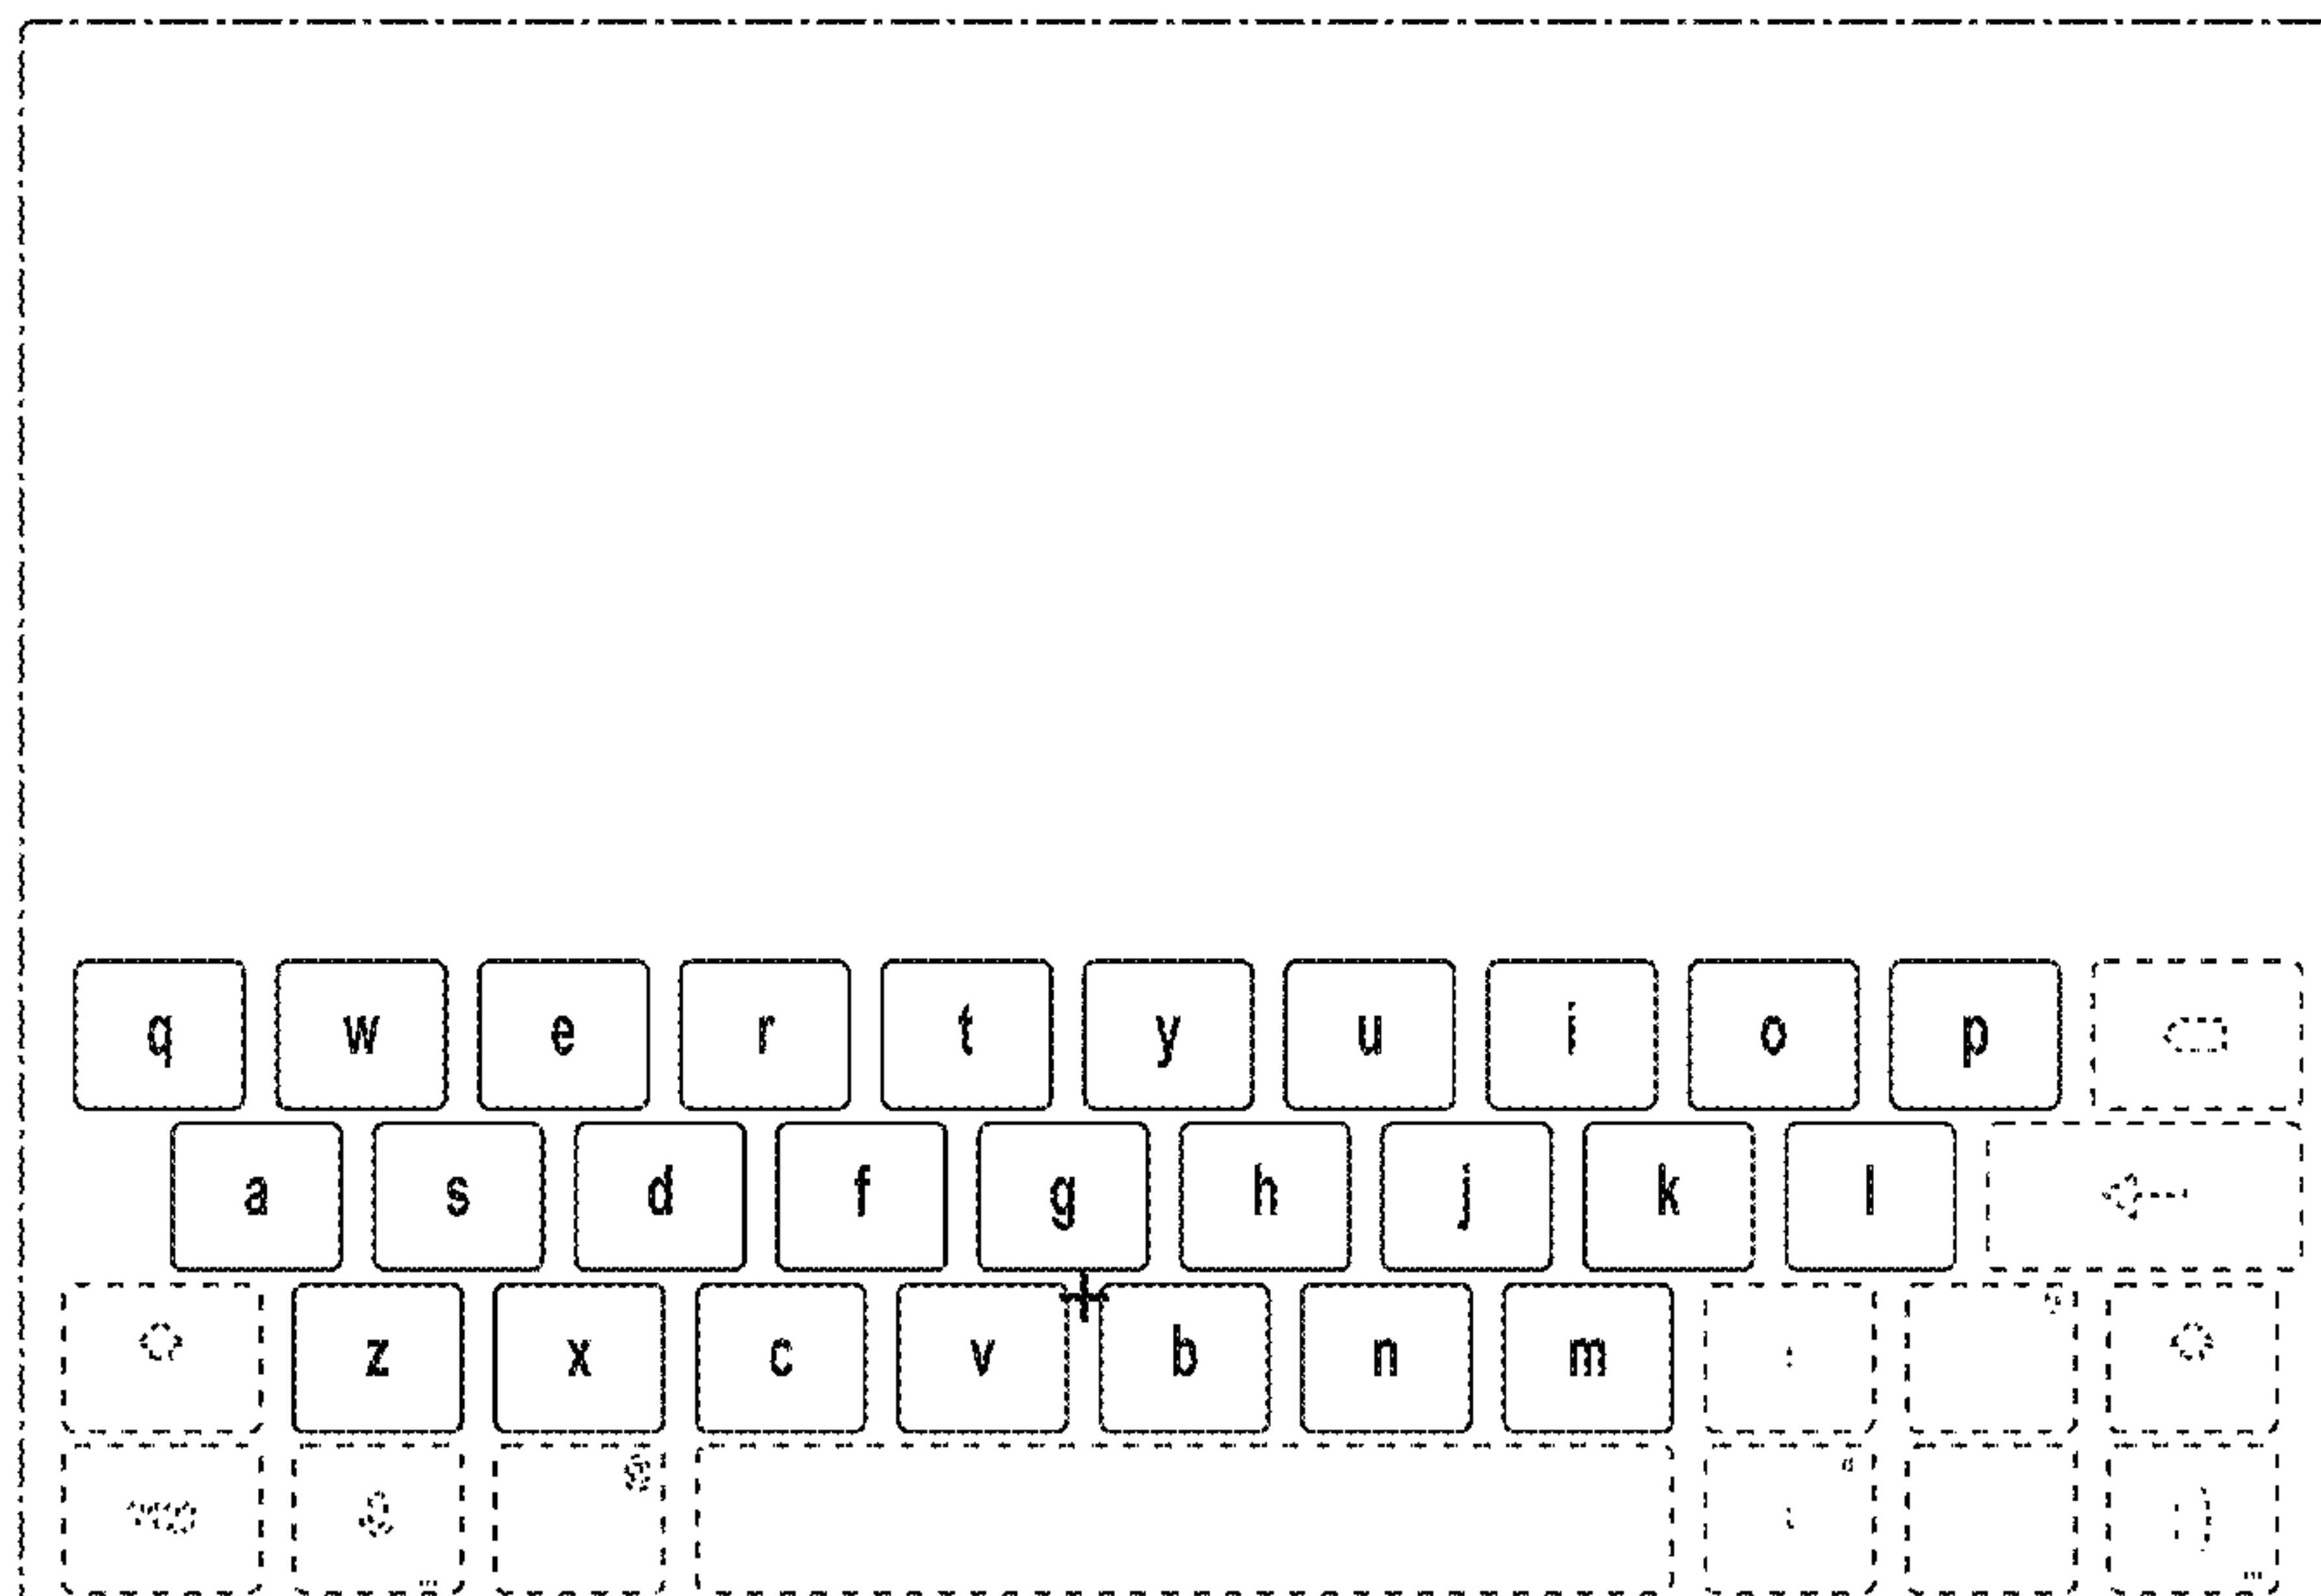

The portions depicted in broken lines of uneven length illustrate the display screen and the boundary of the claimed design, and form no part of the claim. The portions depicted in broken lines of even length illustrate portions of the display screen with animated graphical user interface that form no part of the claimed design.
