FIG. 1 is a perspective view of a window component extrusion according to the present invention.  
FIG. 2 is a right side view of the window component extrusion of FIG. 1.  
FIG. 3 is a left side view of the window component extrusion of FIG. 1.  
FIG. 4 is a front view of the window component extrusion of FIG. 1.  
FIG. 5 is a rear view of the window component extrusion of FIG. 1.  
FIG. 6 is a top view of the window component extrusion of FIG. 1; and,  
FIG. 7 is a bottom view of the window component extrusion of FIG. 1.

The window component extrusion is shown with two parallel dash-dot lines and a bracket to represent indeterminate length. The appearance of any portion of the article between the break lines forms no part of the claimed design.
