(57) **CLAIM**

The ornamental design for a housing for electric and electronic components, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

Cross reference is made to copending U.S. design patent application Ser. No. 29/540,635 entitled “housing for electric and electronic components” by Visel et al., filed on even date herewith; U.S. design patent application Ser. No. 29/540,639 entitled “housing for electric and electronic components” by Visel et al., filed on even date herewith; and U.S. design patent application Ser. No. 29/540,647 entitled “housing for electric and electronic components” by Visel et al., filed on even date herewith.

FIG. 1 is a perspective view of a first embodiment of a housing for electric and electronic components showing our new design;

FIG. 2 is a front elevational view showing the design for the housing for electric and electronic components of FIG. 1; FIG. 3 is a rear elevational view showing the design for the housing for electric and electronic components of FIG. 1; FIG. 4 is a right side elevational view showing the design for the housing for electric and electronic components of FIG. 1;

FIG. 5 is a left side elevational view showing the design for the housing for electric and electronic components of FIG. 1;

FIG. 6 is a top plan view showing the design for the housing for electric and electronic components of FIG. 1; and FIG. 7 is a bottom plan view showing the design for the housing for electric and electronic components of FIG. 1.

FIG. 8 is a perspective view of a second embodiment of a housing for electric and electronic components showing our new design;

FIG. 9 is a front elevational view showing the design for the housing for electric and electronic components of FIG. 8;

(Continued)

FIG. 10 is a rear elevational view showing the design for the housing for electric and electronic components of FIG. 8; FIG. 11 is a right side elevational view showing the design for the housing for electric and electronic components of FIG. 8; FIG. 12 is a left side elevational view showing the design for the housing for electric and electronic components of FIG. 8; FIG. 13 is a top plan view showing the design for the housing for electric and electronic components of FIG. 8; and, FIG. 14 is a bottom plan view showing the design for the housing for electric and electronic components of FIG. 8. The broken lines shown in the figures illustrate portions of the housing for electric and electronic components that form no part of the claimed design.
