(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The single FIGURE is a front view of a display screen with graphical user interface.
The outermost broken lines and the broken line showing of the lower rounded feature illustrate an electronic device. The dual set of broken lines at the periphery of the FIGURE illustrate the display screen. The remainder of the broken lines illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
