(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface showing our new design. The broken line showing of the two outermost rectangles and the two concentric circles in the lower center illustrates an electronic device which represents environment. The remainder of the broken lines illustrate portions of the graphical user interface. The broken lines form no part of the claimed design.
