(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a display screen with animated graphical user interface showing my new design;

FIG. 2 is the second image thereof;

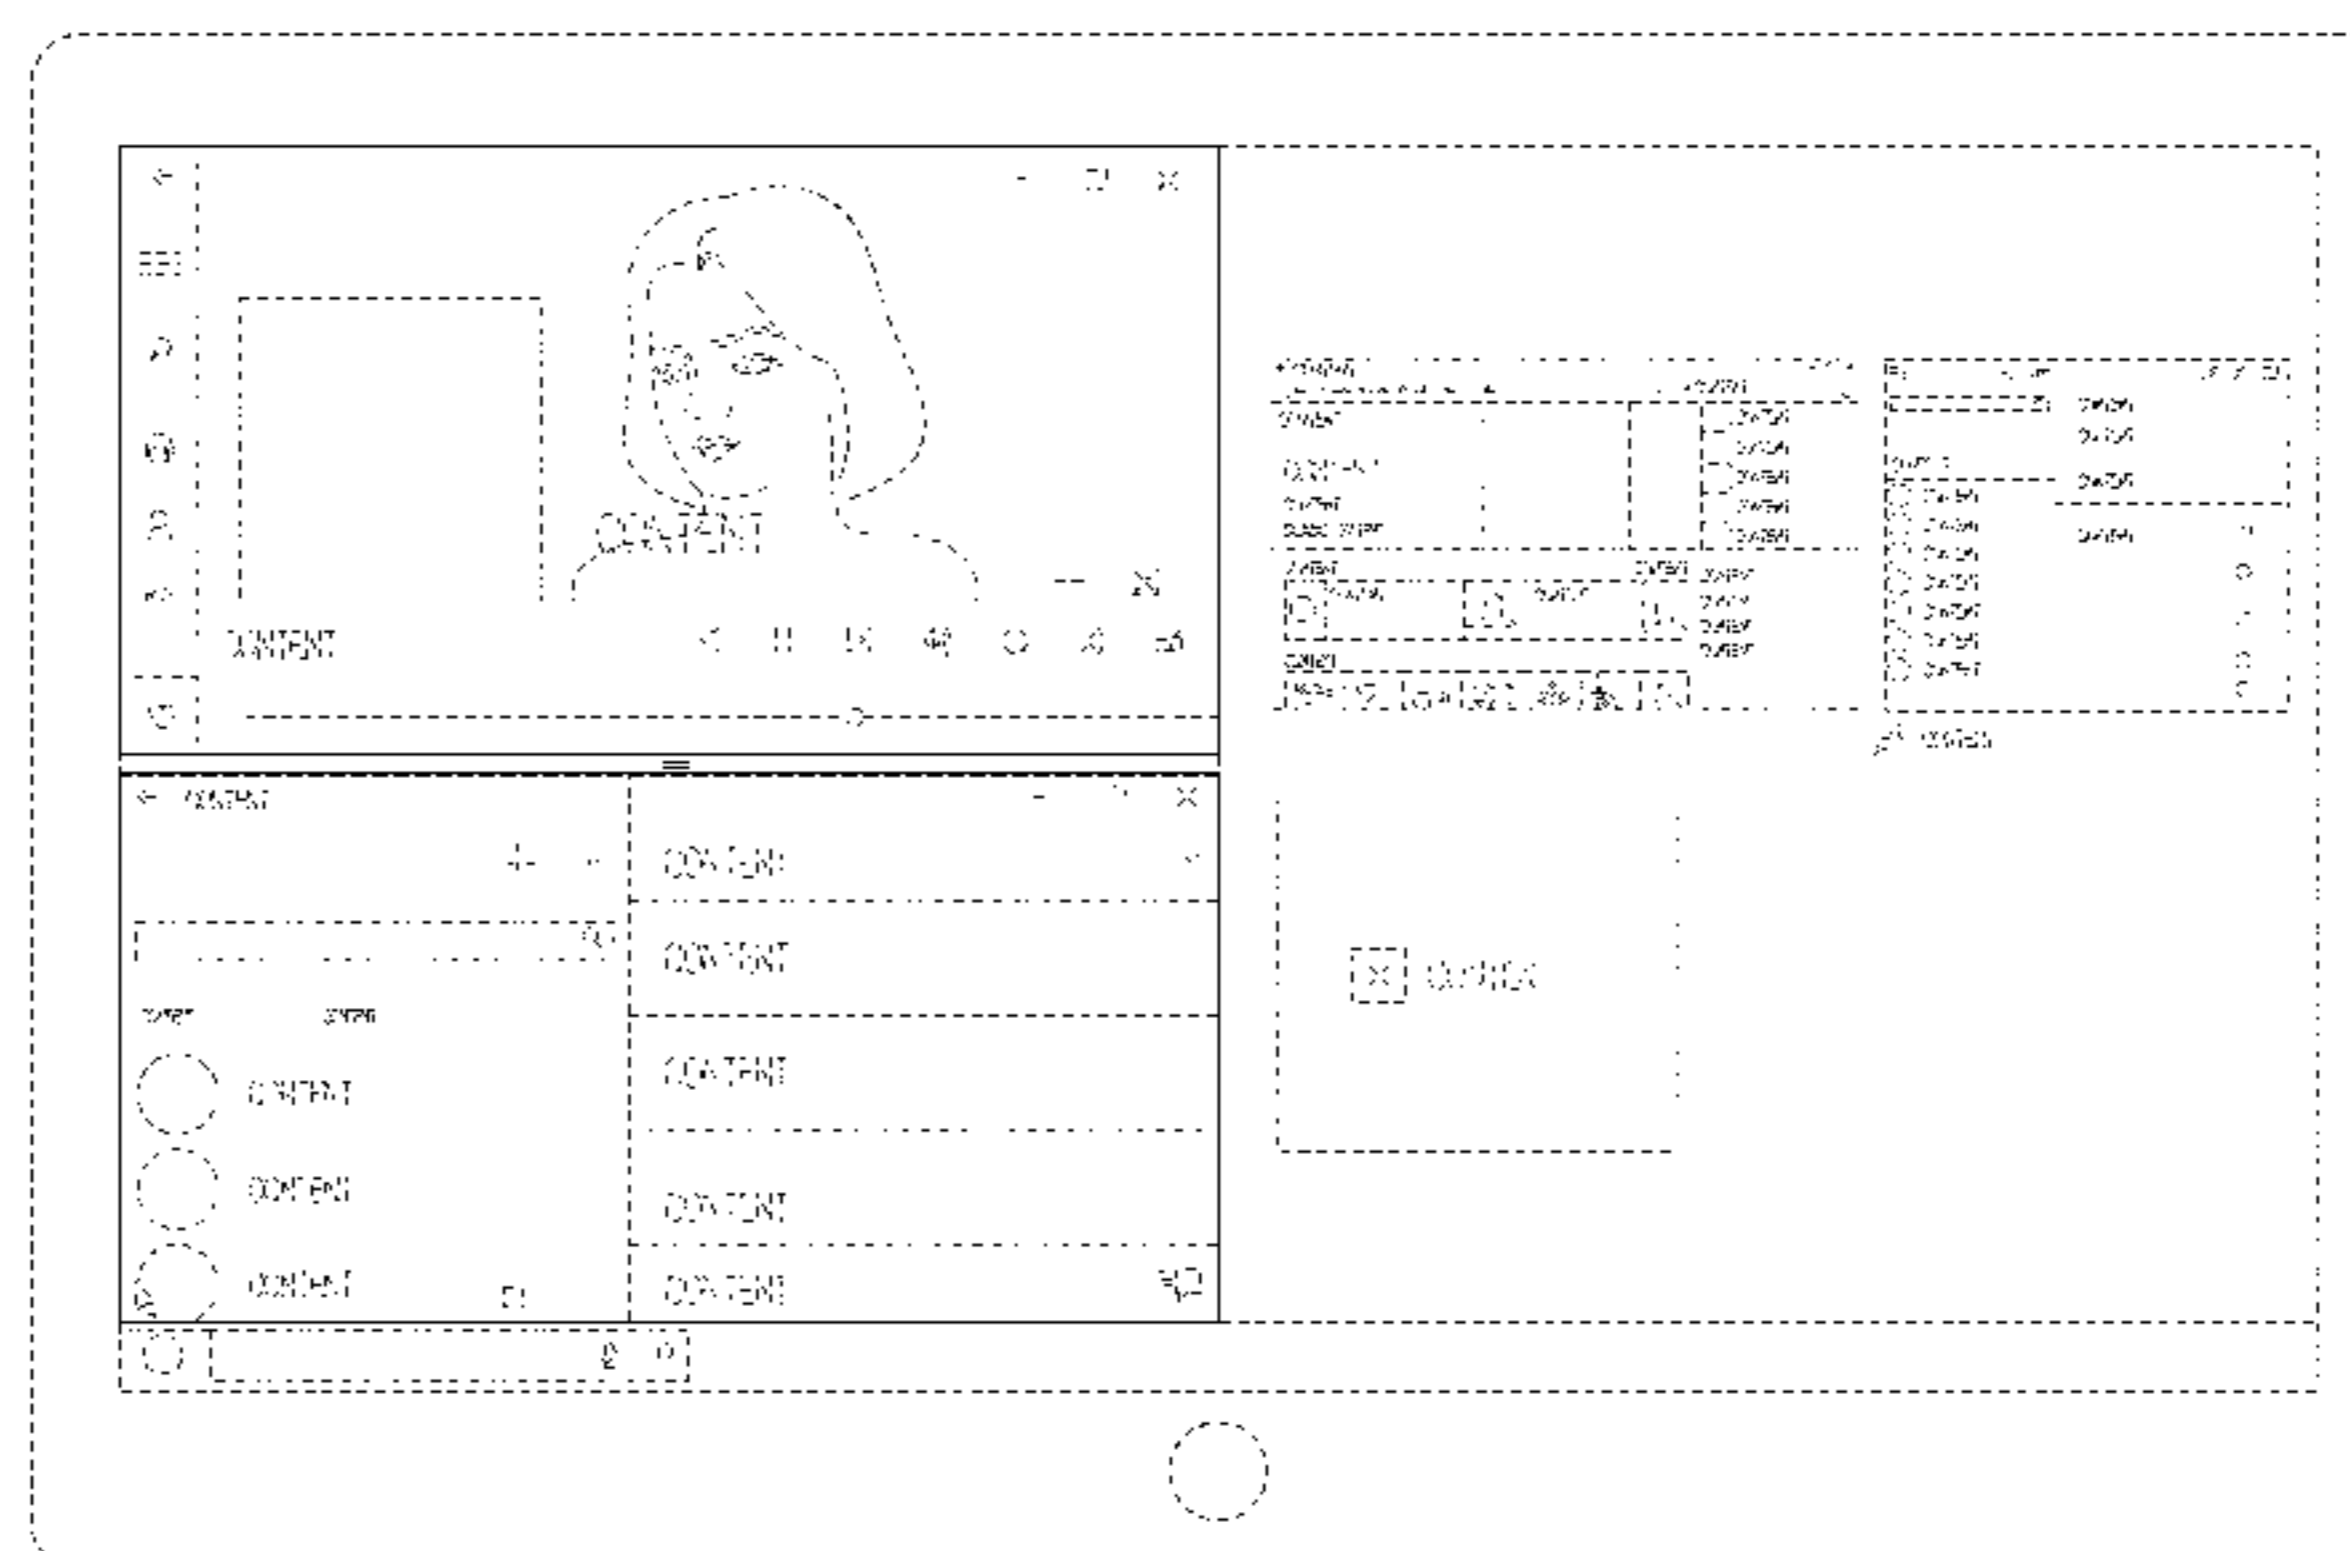

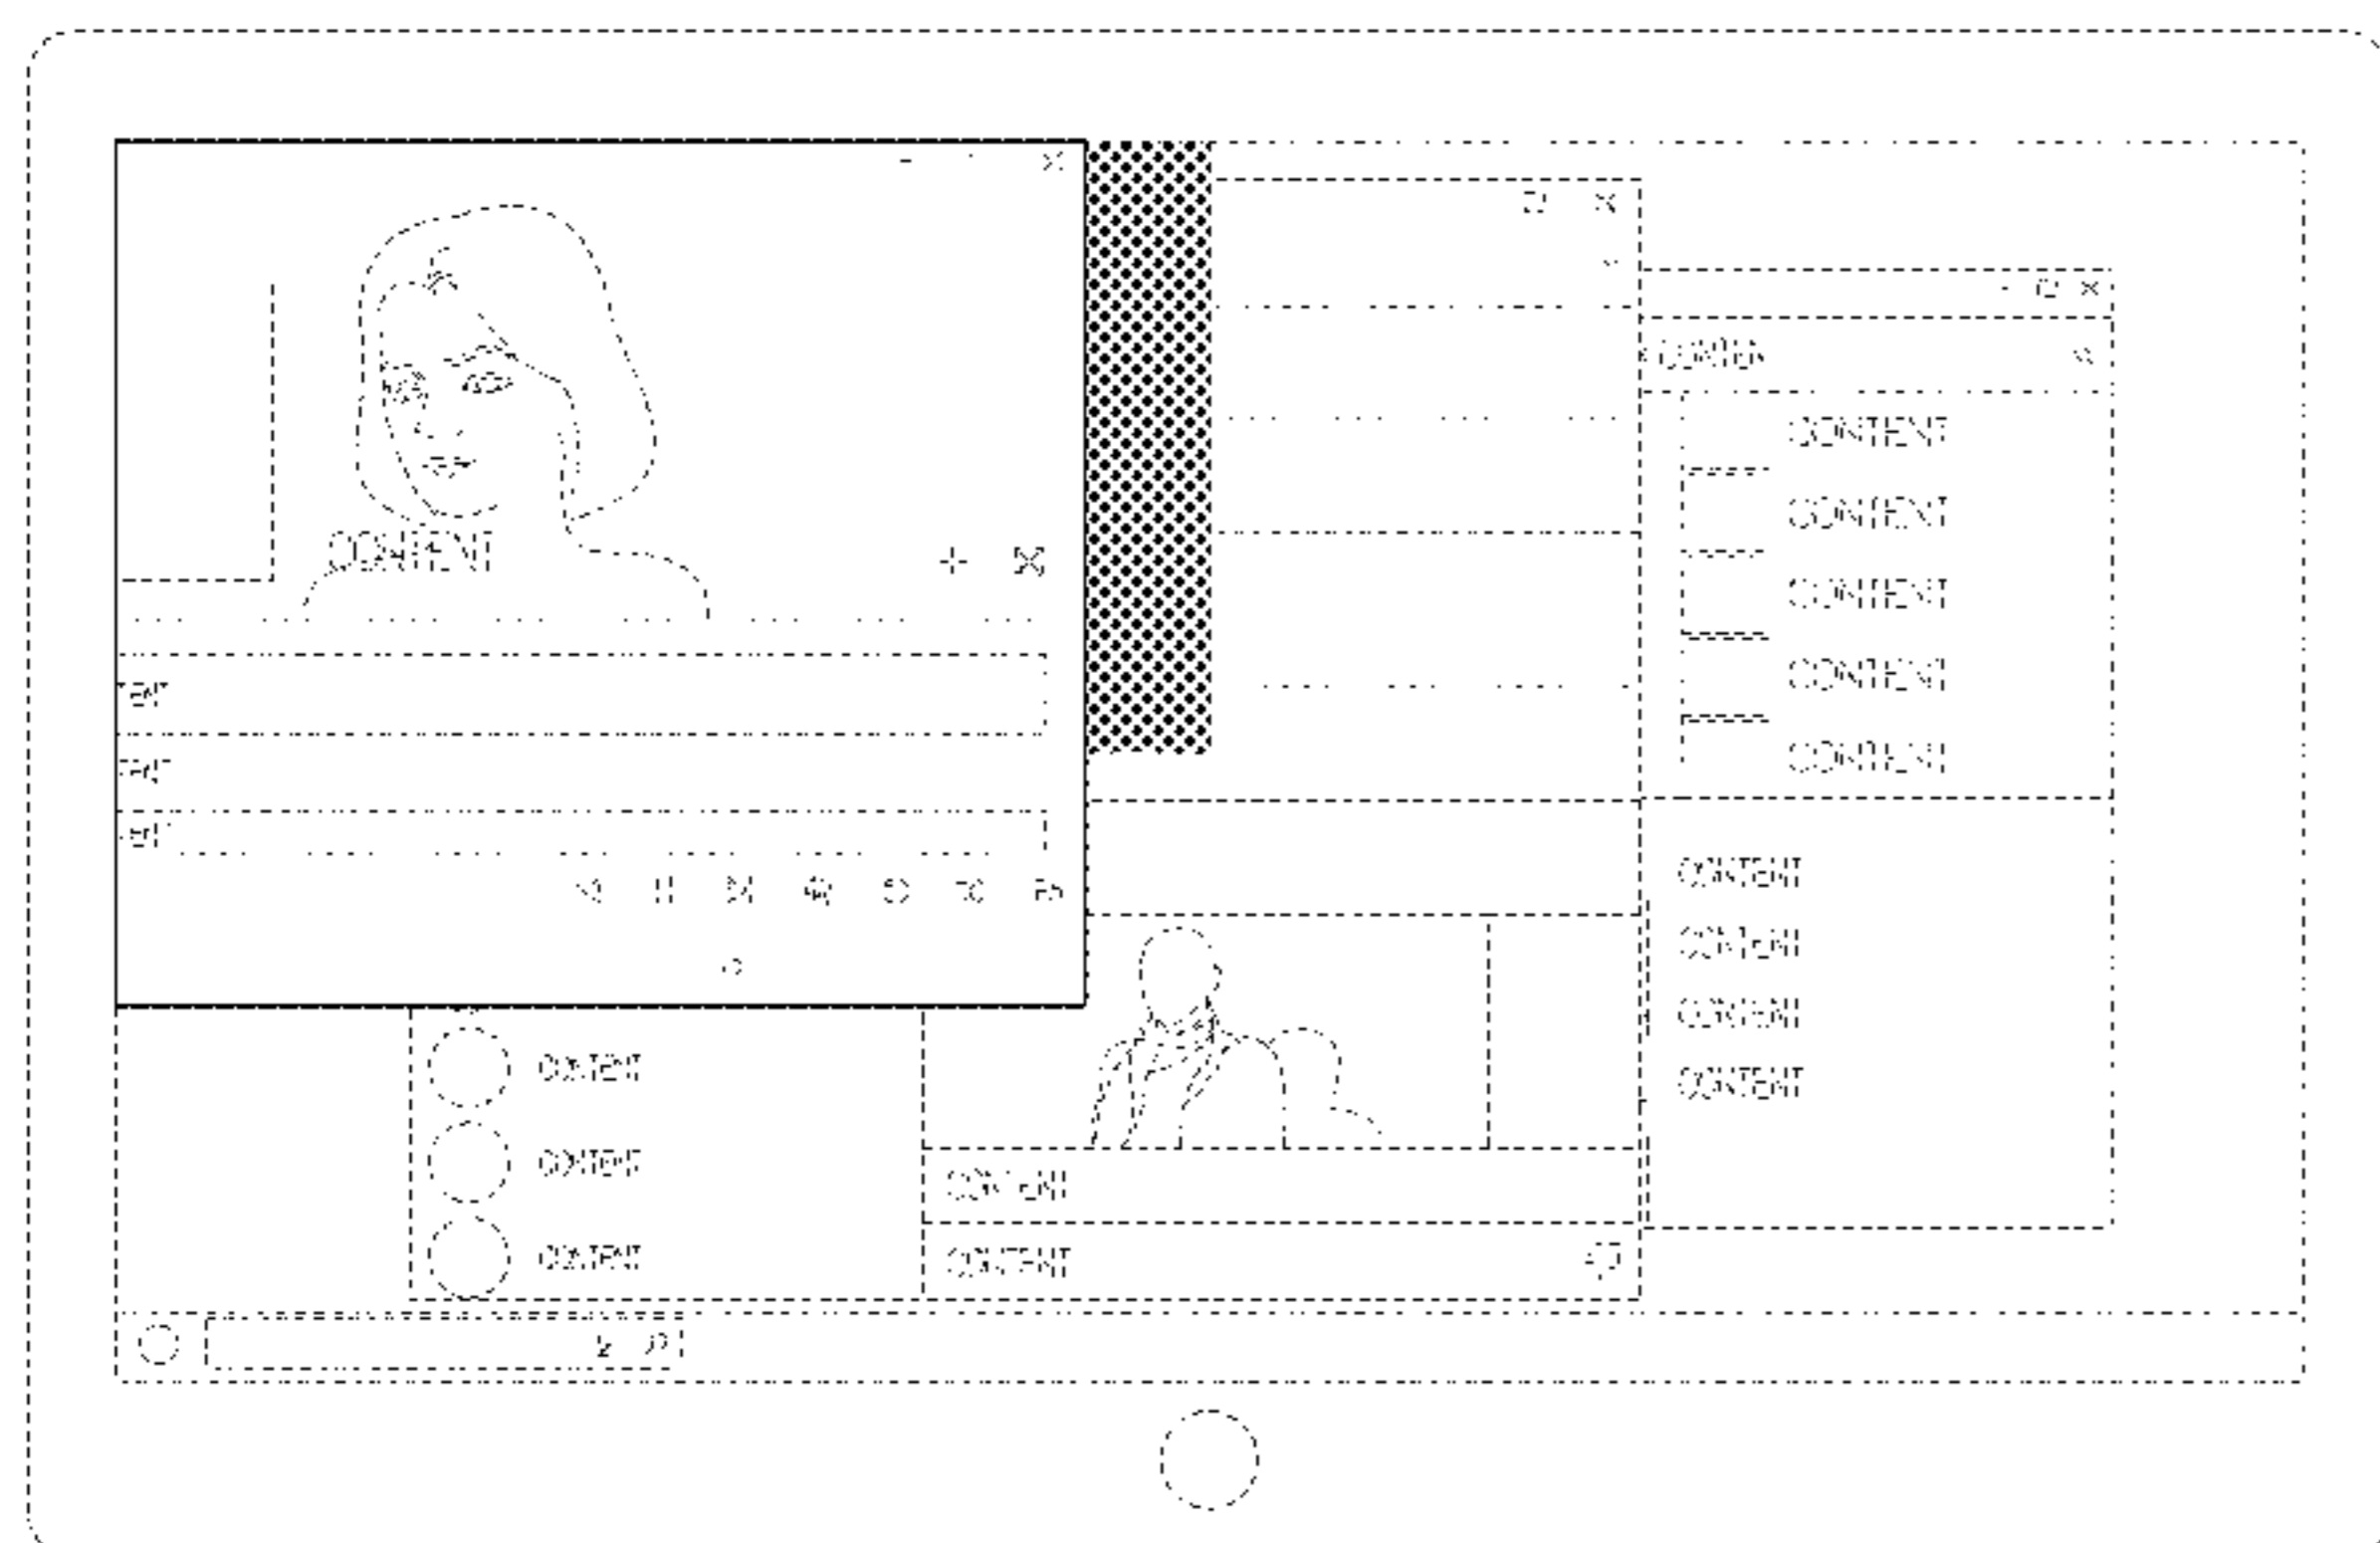

FIG. 3 is the third image thereof;

FIG. 4 is the fourth image thereof; and,

FIG. 5 is the fifth image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-5. The process or period in which one image transitions to another forms no part of the claimed design. The even-length broken line showing of all text, all icons, the remainder of the animated graphical user interface, and the remainder of the display screen illustrate portions of the display screen with animated graphical user interface, and form no part of the claimed design. The even-length broken line showing of an electronic device illustrates environmental structure, and forms no part of the claimed design. The uneven-length broken line illustrates the periphery of the display screen, and forms no part of the claimed design.
