(57) **CLAIM**

The ornamental design for fishing reel portion, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a fishing reel portion in accordance with my new design;

FIG. 2 is a first side elevational view of the fishing reel portion illustrated in FIG. 1;

FIG. 3 is a second side (opposite the first side) elevational view of the fishing reel portion illustrated in FIG. 1;

FIG. 4 is a top plan view of the fishing reel portion illustrated in FIG. 1;

FIG. 5 is a bottom plan view of the fishing reel portion illustrated in FIG. 1;

FIG. 6 is a first end elevational view of the fishing reel portion illustrated in FIG. 1;

FIG. 7 is a second end elevational view of the fishing reel portion illustrated in FIG. 1;

FIG. 8 is a first side elevational view, similar to FIG. 2, of an alternate fishing reel portion, which is identical to the fishing reel portion illustrated in FIGS. 1 to 7, except that a boundary of the alternate fishing reel portion is shown in broken lines; and,

FIG. 9 is a top plan view, similar to FIG. 4, of the alternate fishing reel portion illustrated in FIG. 8.

In the alternate fishing reel portion illustrated in FIGS. 8 and 9, the boundary does not form part of the claimed design. In other words, with respect to the alternate design of the fishing reel portion illustrated in FIGS. 8 and 9, it should be understood that the claimed design extends to the boundary but does not include the boundary shown in broken lines.

In the drawings, the broken line illustration of the environmental structure (the remaining structure of the fishing reel) in the drawings is not part of the claimed design. The broken line portion of the fishing reel spool does not form part of the claimed design.

1 Claim, 5 Drawing Sheets
