(57) **CLAIM**

The ornamental design for a portable seating apparatus, as shown and described.

**DESCRIPTION**

FIG. 1 is a front side view of a portable seating apparatus showing the new design in a closed configuration;

FIG. 2 is a rear side view showing the new design in a closed configuration;

FIG. 3 is a left side view showing the new design in a closed configuration, the right side view being a mirror image;

FIG. 4 is a left side view showing the new design in a partially open deployed configuration, the partially open configuration of the right side view being a mirror image;

FIG. 5 is a top side view showing the new design in a closed configuration;

FIG. 6 is a bottom side view showing the new design in a closed configuration;

FIG. 7 is a front perspective view showing the new design in a closed configuration;

FIG. 8 is a rear perspective view showing the new design in a closed configuration;

FIG. 9 is a front side view showing the new design in an open deployed configuration;

FIG. 10 is a rear side view showing the new design in an open deployed configuration;

FIG. 11 is a top side view showing the new design in an open deployed configuration;

FIG. 12 is a bottom side view showing the new design in an open deployed configuration;

FIG. 13 is a left side view showing the new design in an open deployed configuration, the open deployed configuration of the right side view being a mirror image;

FIG. 14 is a front perspective view showing the new design in an open deployed configuration;

FIG. 15 is a rear perspective view showing the new design in an open deployed configuration; and,

FIG. 16 is a left side perspective view showing the new design in an open deployed configuration.

The broken lines shown in the drawings are for illustrative purposes only and form no part of the claimed design.
