(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the first image of a display screen with transitional graphical user interface showing a first embodiment of my new design;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

FIG. 4 is a front view of a fourth image thereof;

FIG. 5 is a front view of a fifth image thereof;

FIG. 6 is a front view of an image of a display screen with transitional graphical user interface showing a second embodiment of my new design; and,

FIG. 7 is a front view of an image of a display screen with transitional graphical user interface showing a third embodiment of my new design.

The long-dashed broken lines show the display screen and forms no part of the claimed design. The smaller dash-dash broken lines show a portion of the transitional graphical user interface and forms no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-5. The process or period in which one image transitions to another image forms no part of the claimed design.
