(57) **CLAIM**

The ornamental design for a touch panel for scanner with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a touch panel for a scanner with a graphical user interface showing our new design;

FIG. 2 is a front view thereof;

FIG. 3 is a top plan view thereof;

FIG. 4 is an enlarged view of a first image of the graphical user interface;

FIG. 5 is a second image thereof;

FIG. 6 is a third image thereof; and,

FIG. 7 is a fourth image thereof.

The broken line showing of a scanner illustrates environment, and the broken lines forming the touch panel display, as well as portions of the graphical user interface illustrate portions of the article. No subject matter shown in broken lines form part of the claimed design. The appearance of the graphical user interface transitions sequentially between the images shown in FIGS. 4-7. The process or period in which on image transitions to another forms no part of the claimed design.

**1 Claim, 4 Drawing Sheets**
