(57) **CLAIM**

The ornamental design for a western blot processing device housing, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of our new western blot processing device housing.

FIG. 2 is a front view of a first embodiment of our new western blot processing device housing.

FIG. 3 is a rear view of a first embodiment of our new western blot processing device housing.

FIG. 4 is a right side view of a first embodiment of our new western blot processing device housing.

FIG. 5 is a left side view of a first embodiment of our new western blot processing device housing.

FIG. 6 is a top view of a first embodiment of our new western blot processing device housing.

FIG. 7 is a bottom view of a first embodiment of our new western blot processing device housing.

FIG. 8 is an open back lid perspective view of a first embodiment of our new western blot processing device housing.

FIG. 9 is an open back lid perspective view of a second embodiment of our new western blot processing device housing.

FIG. 10 is an open lid perspective view of a first embodiment of our new western blot processing device housing.

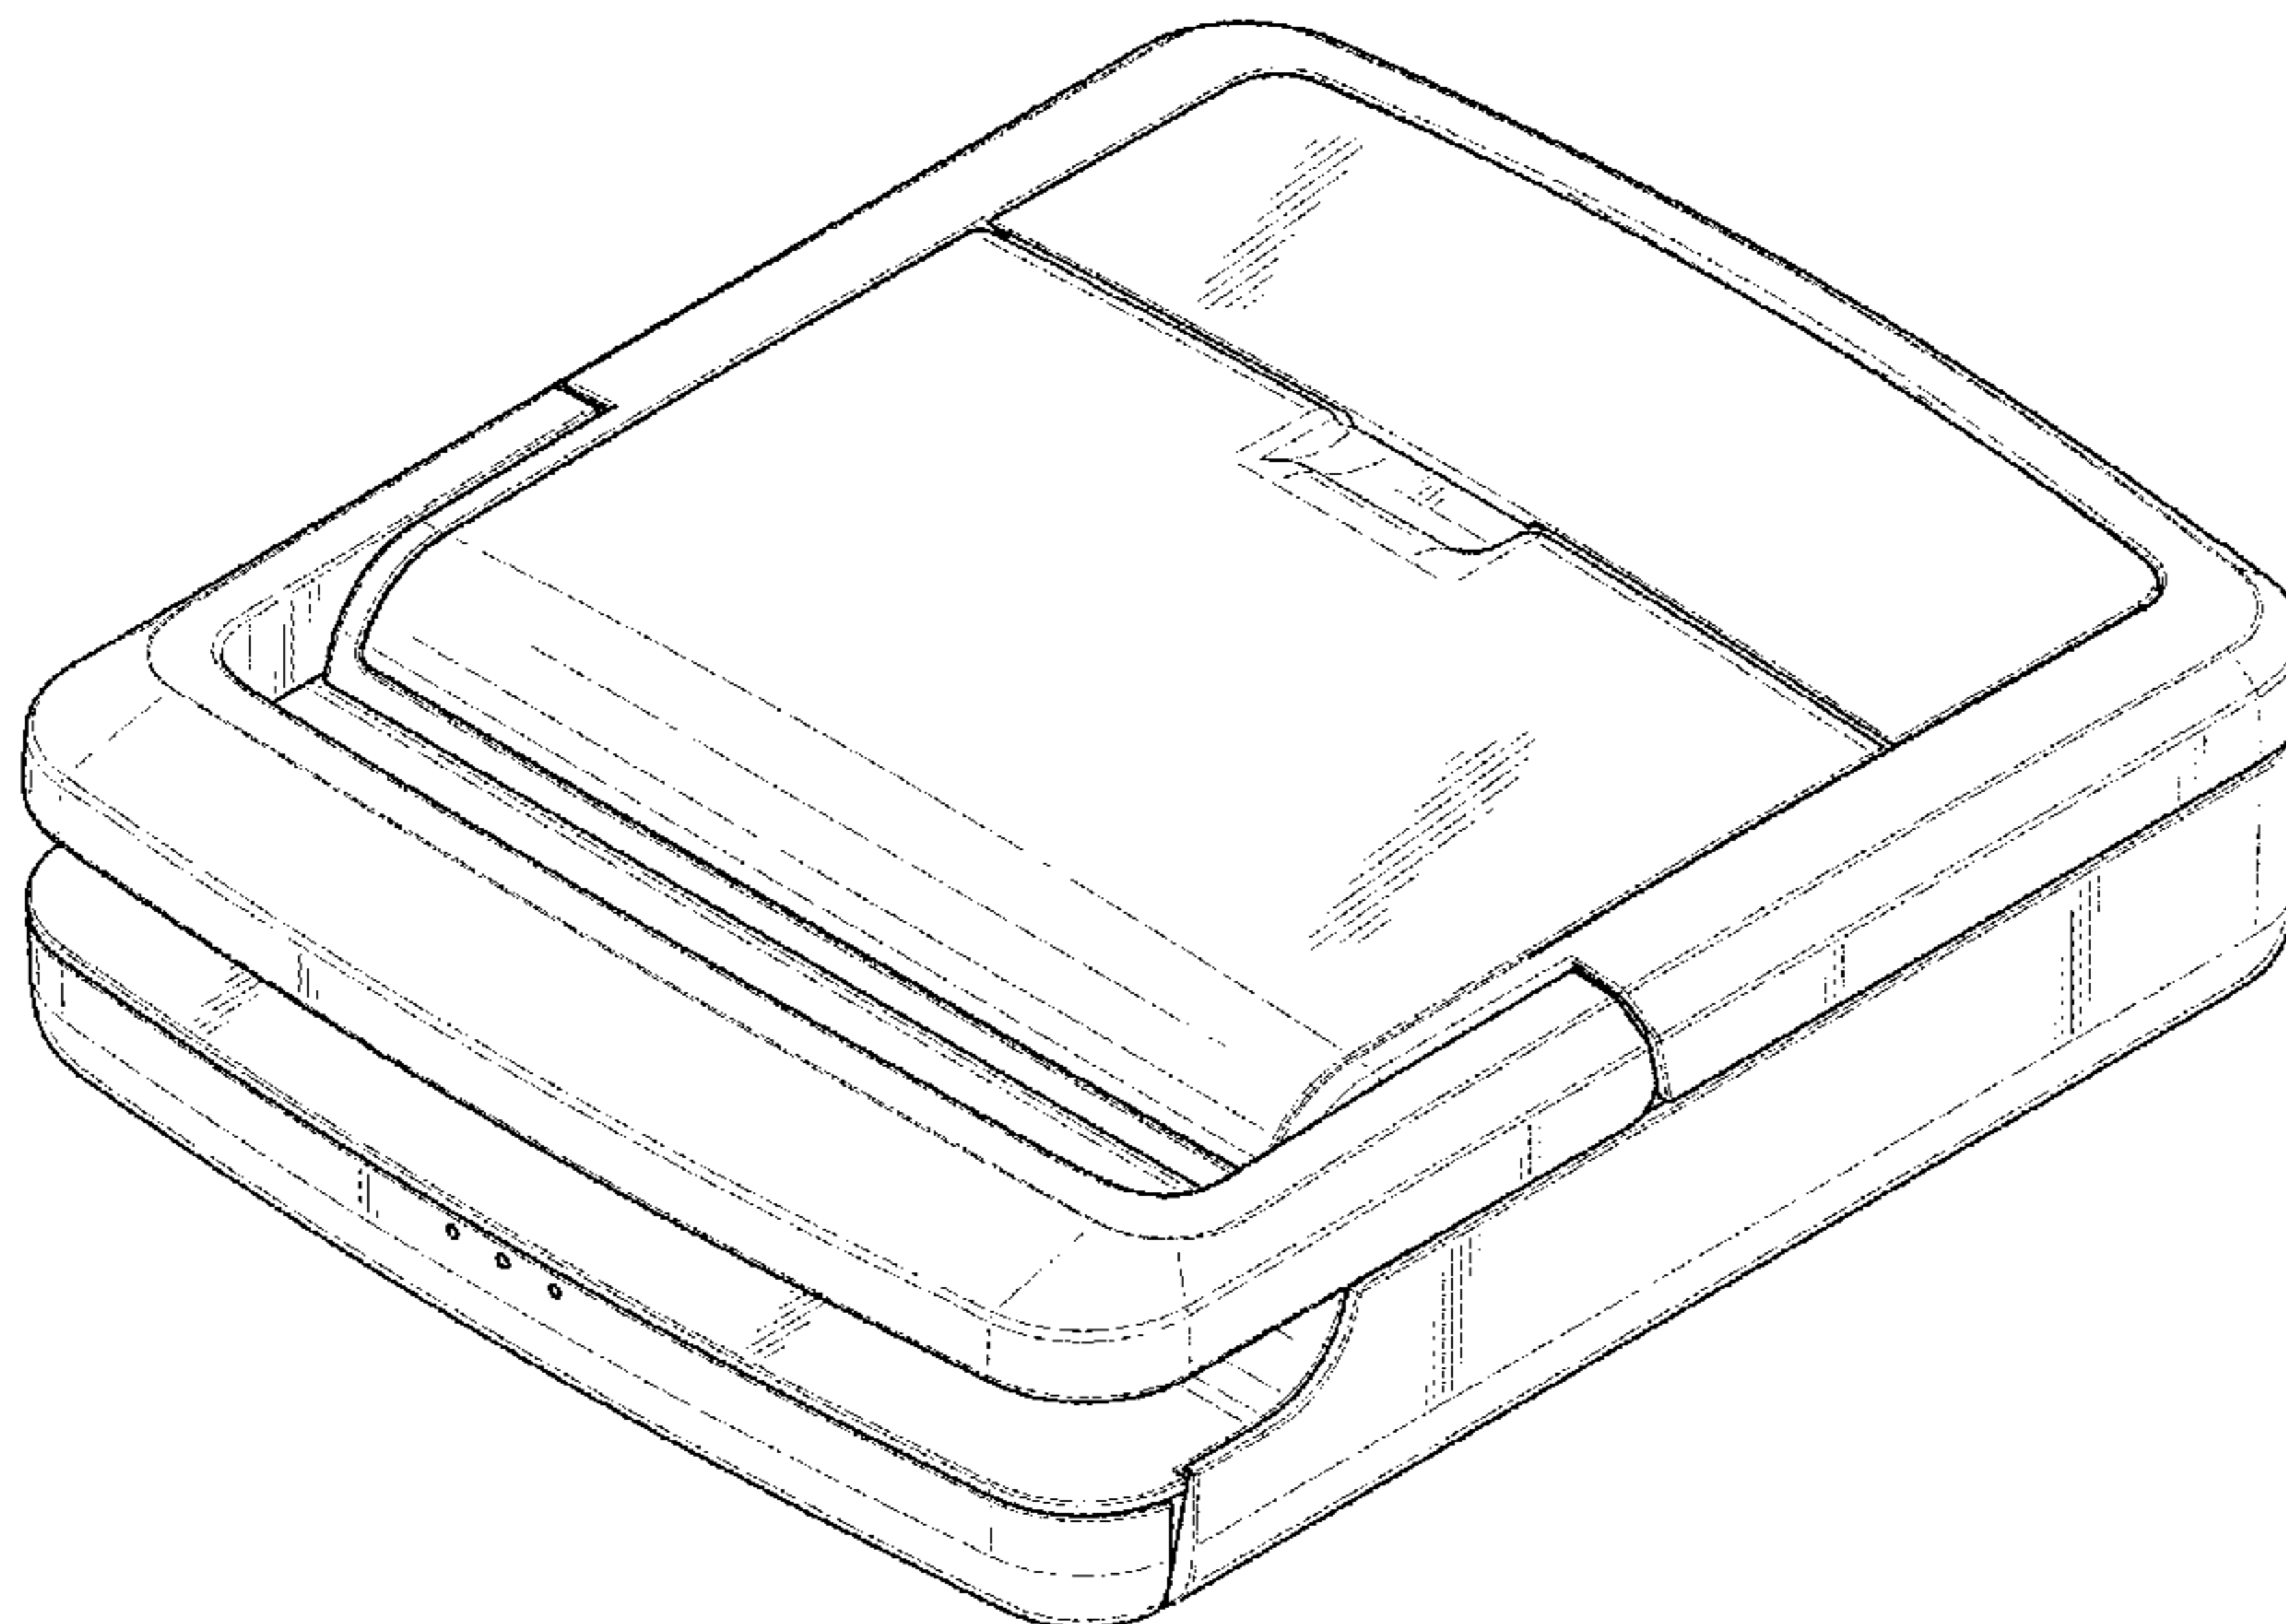

FIG. 11 is an open lid perspective view of a second embodiment of our new western blot processing device housing.

FIG. 12 is an open drawer perspective view of a first embodiment of our new western blot processing device housing; and,

FIG. 13 is an open drawer perspective view of a second embodiment of our new western blot processing device housing.

The broken lines immediately adjacent the shaded areas represent the bounds of the claim, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the claimed design.
