(57) **CLAIM**

The ornamental design for an information display for an automotive vehicle with a computer generated icon, as shown and described.

**DESCRIPTION**

FIG. 1 is a front, top and right side perspective view of an information display for an automotive vehicle with a computer generated icon, showing our new design;

FIG. 2 is a front elevational view thereof, a rear elevational view is a mirror image thereof;

FIG. 3 is a right side elevational view thereof, a left side elevational view is a mirror image thereof;

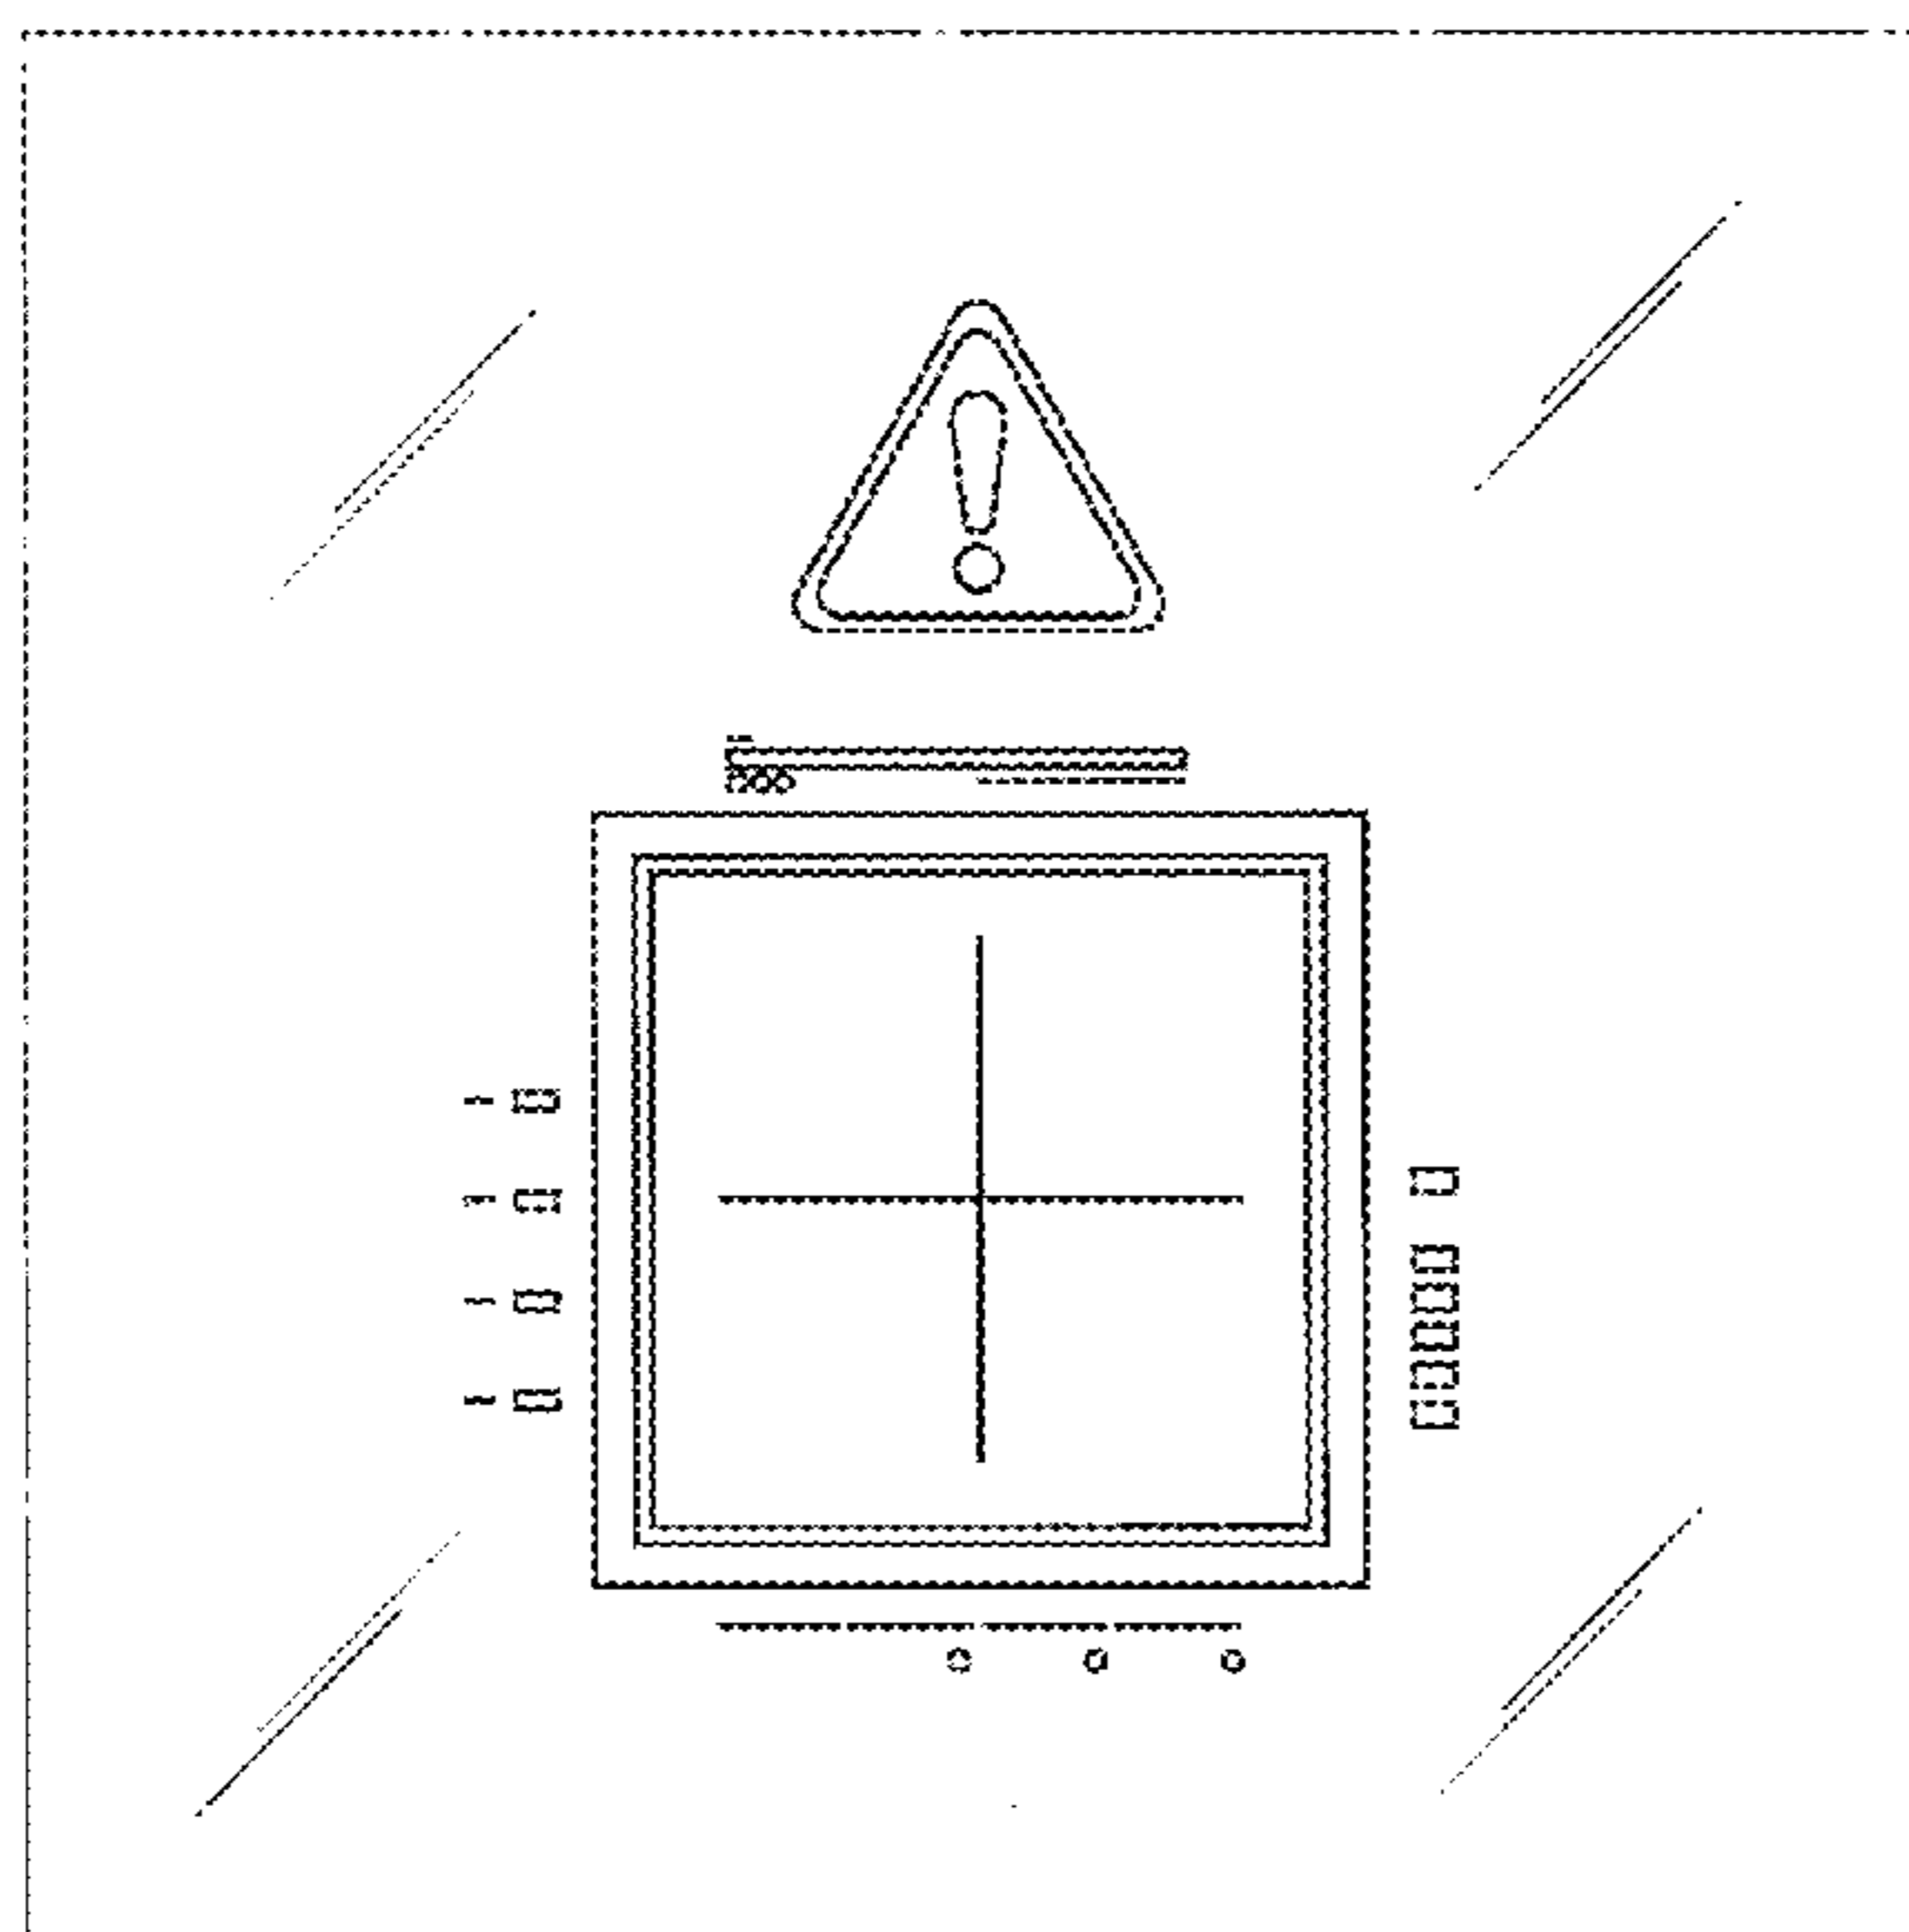

FIG. 4 is a top plan view thereof, a bottom plan view is omitted as that which is shown forms no part of the claimed design; and,

FIG. 5 is an enlarged view of the information display for an automotive vehicle with a computer generated icon illustrated in FIG. 2.

The alternate long and short dash lines in all views are shown to indicate the boundary of the claimed design and form not part of the claimed design.

The broken lines in all views outside the alternate long and short dashed lines are shown for the purpose of illustrating the environment in which the claimed design is used and form no part of the claimed design.
