(57) **CLAIM**

The ornamental design for a hose clamp for a urine catheter, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a hose clamp for a urine catheter in an operative, closed position clamping the hose. FIG. 2 is a perspective view of the hose clamp for a urine catheter in a closed position without the hose. FIG. 3 is a front elevational view of FIG. 2. FIG. 4 is a rear elevational view thereof. FIG. 5 is a bottom view thereof. FIG. 6 is a top view thereof. FIG. 7 is a left side elevational view thereof; and, FIG. 8 is a right side elevational view thereof. The broken lines in FIG. 1 showing the hose are included for the purpose of illustrating environment and form no part of the claimed design. The broken lines in FIG. 1 and in FIG. 6 showing the words "SLIP FLOW" form no part of the claimed design.

The claimed hose clamp for a urine catheter is a clamp for the hose on a urine catheter and is used to prevent urine from flowing at certain times, such as when the bag is being changed.
