(57) **CLAIM**

We claim the ornamental design for a patterned windshield, as shown and described.

DESCRIPTION

The sole FIGURE is a top front view of a patterned windshield showing our new design.

The ornamental design which is claimed is shown in solid lines in the drawings. Only the front surface of the windshield is claimed. The broken lines in the drawings form no part of the claimed design. Broken lines formed by equal length dashes show unclaimed subject matter. Broken lines formed by unequal length dashes (i.e., dash-dot) define bounds of the claimed design.
