(57) **CLAIM**

The ornamental design for the universal device-holding mechanism for a mobile communications device, as shown and described.

**DESCRIPTION**

FIG. 1 is an anterior plan view of the universal device-holding mechanism for a mobile communications device. FIG. 2 is a posterior plan view of the universal device-holding mechanism for a mobile communications device. FIG. 3 is a top edge view of the universal device-holding mechanism for a mobile communications device. FIG. 4 is a bottom edge view of the universal device-holding mechanism for a mobile communications device. FIG. 5 is a first lateral edge view of the universal device-holding mechanism for a mobile communications device. FIG. 6 is a second lateral edge view of the universal device-holding mechanism for a mobile communications device. FIG. 7 is an anterior perspective view of the universal device-holding mechanism for a mobile communications device. FIG. 8 is a posterior perspective view of the universal device-holding mechanism for a mobile communications device; and, FIG. 9 is an anterior perspective view of the universal device-holding mechanism for a mobile communications device shown in a condition of use. The broken lines in FIGS. 1 and 7 form no part of the claimed design. The broken lines in FIG. 9 are included for the purpose of depicting a generic mobile communications device held by the universal device-holding mechanism and form no part of the claimed design.
