(57) **CLAIM**

The ornamental design for a display of mobile information terminal with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display of a mobile information terminal with transitional graphical user interface;

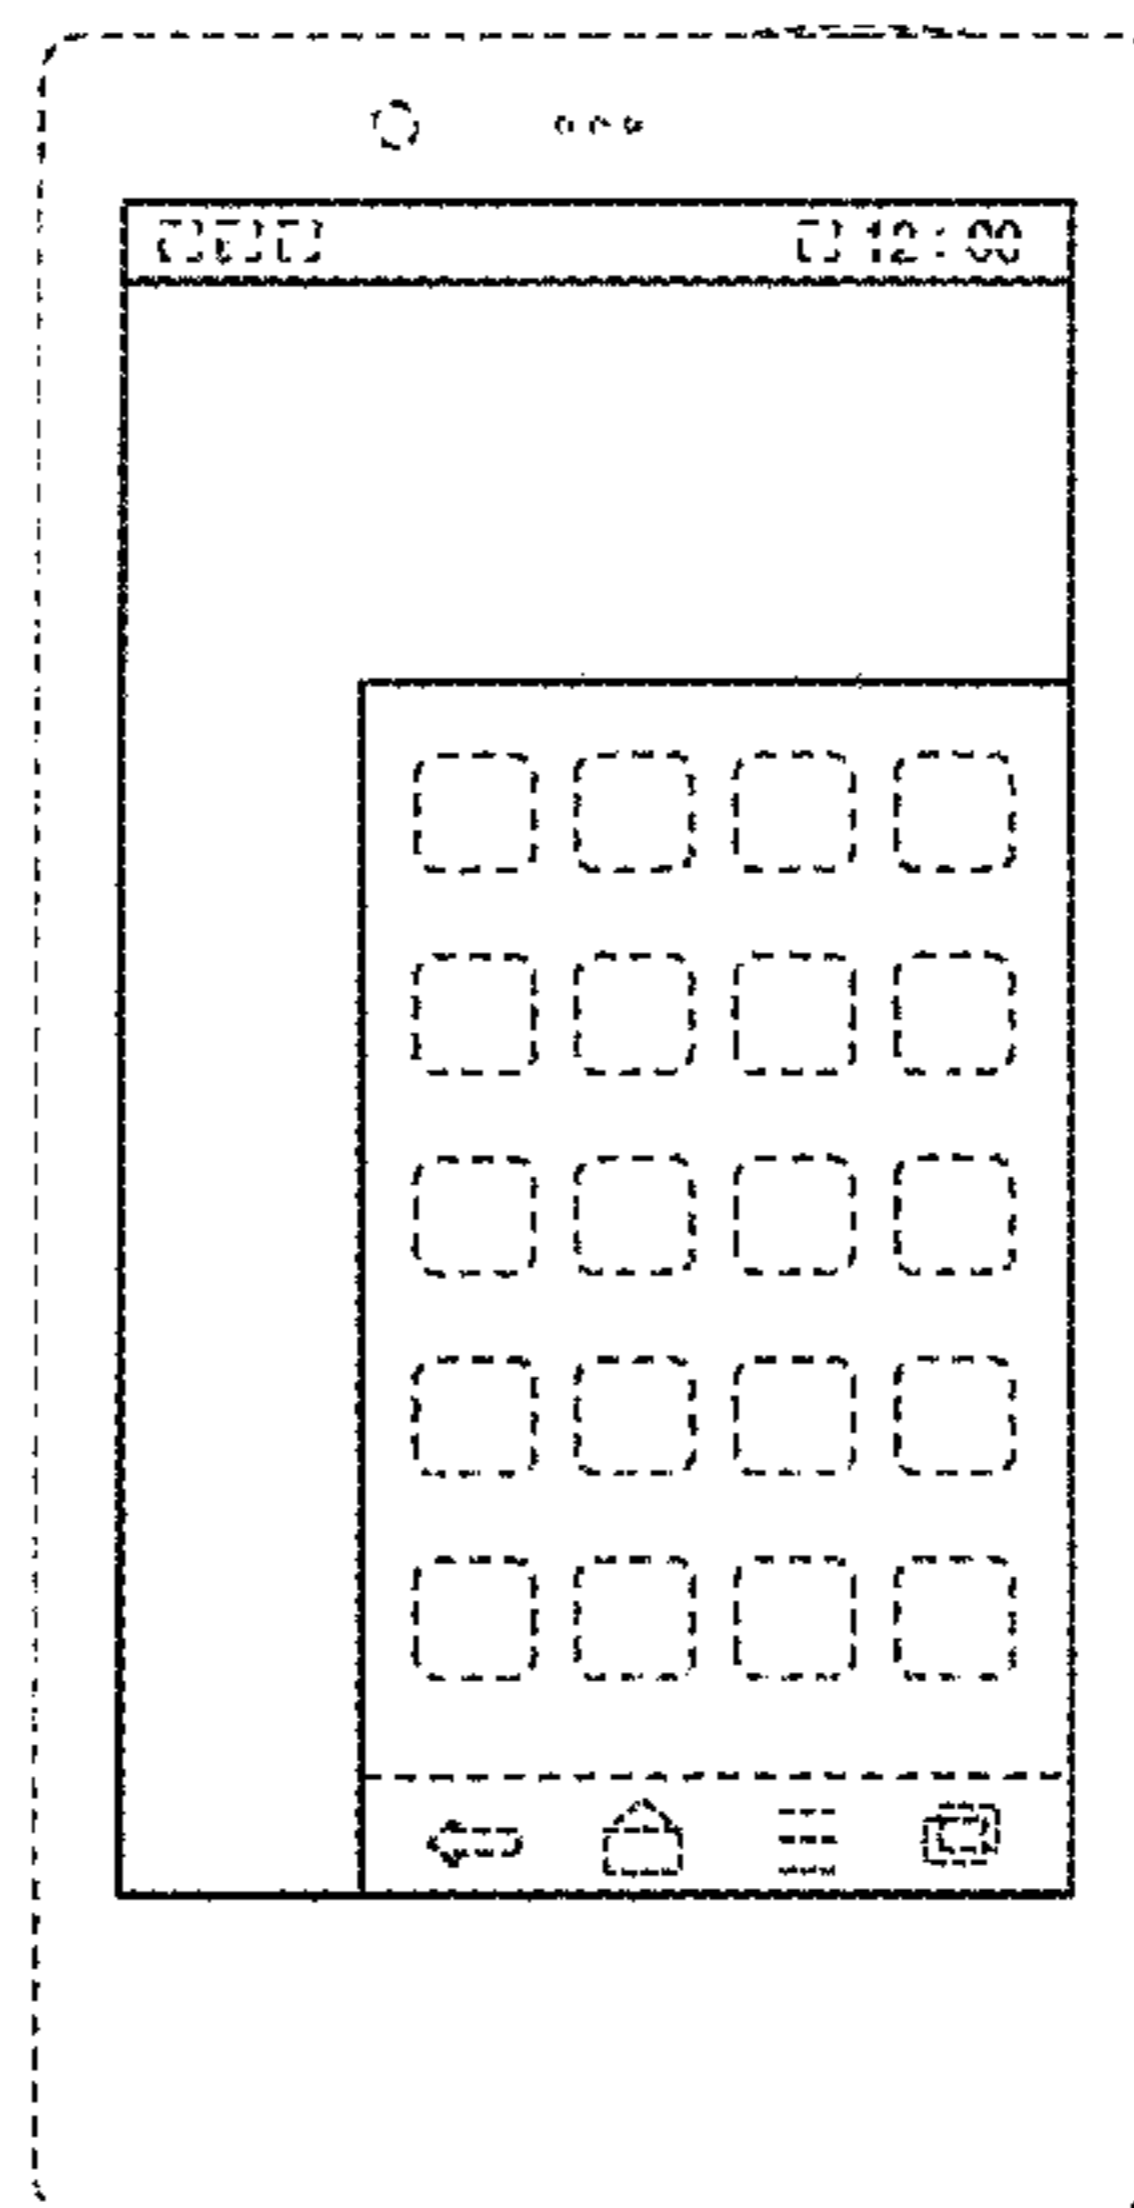

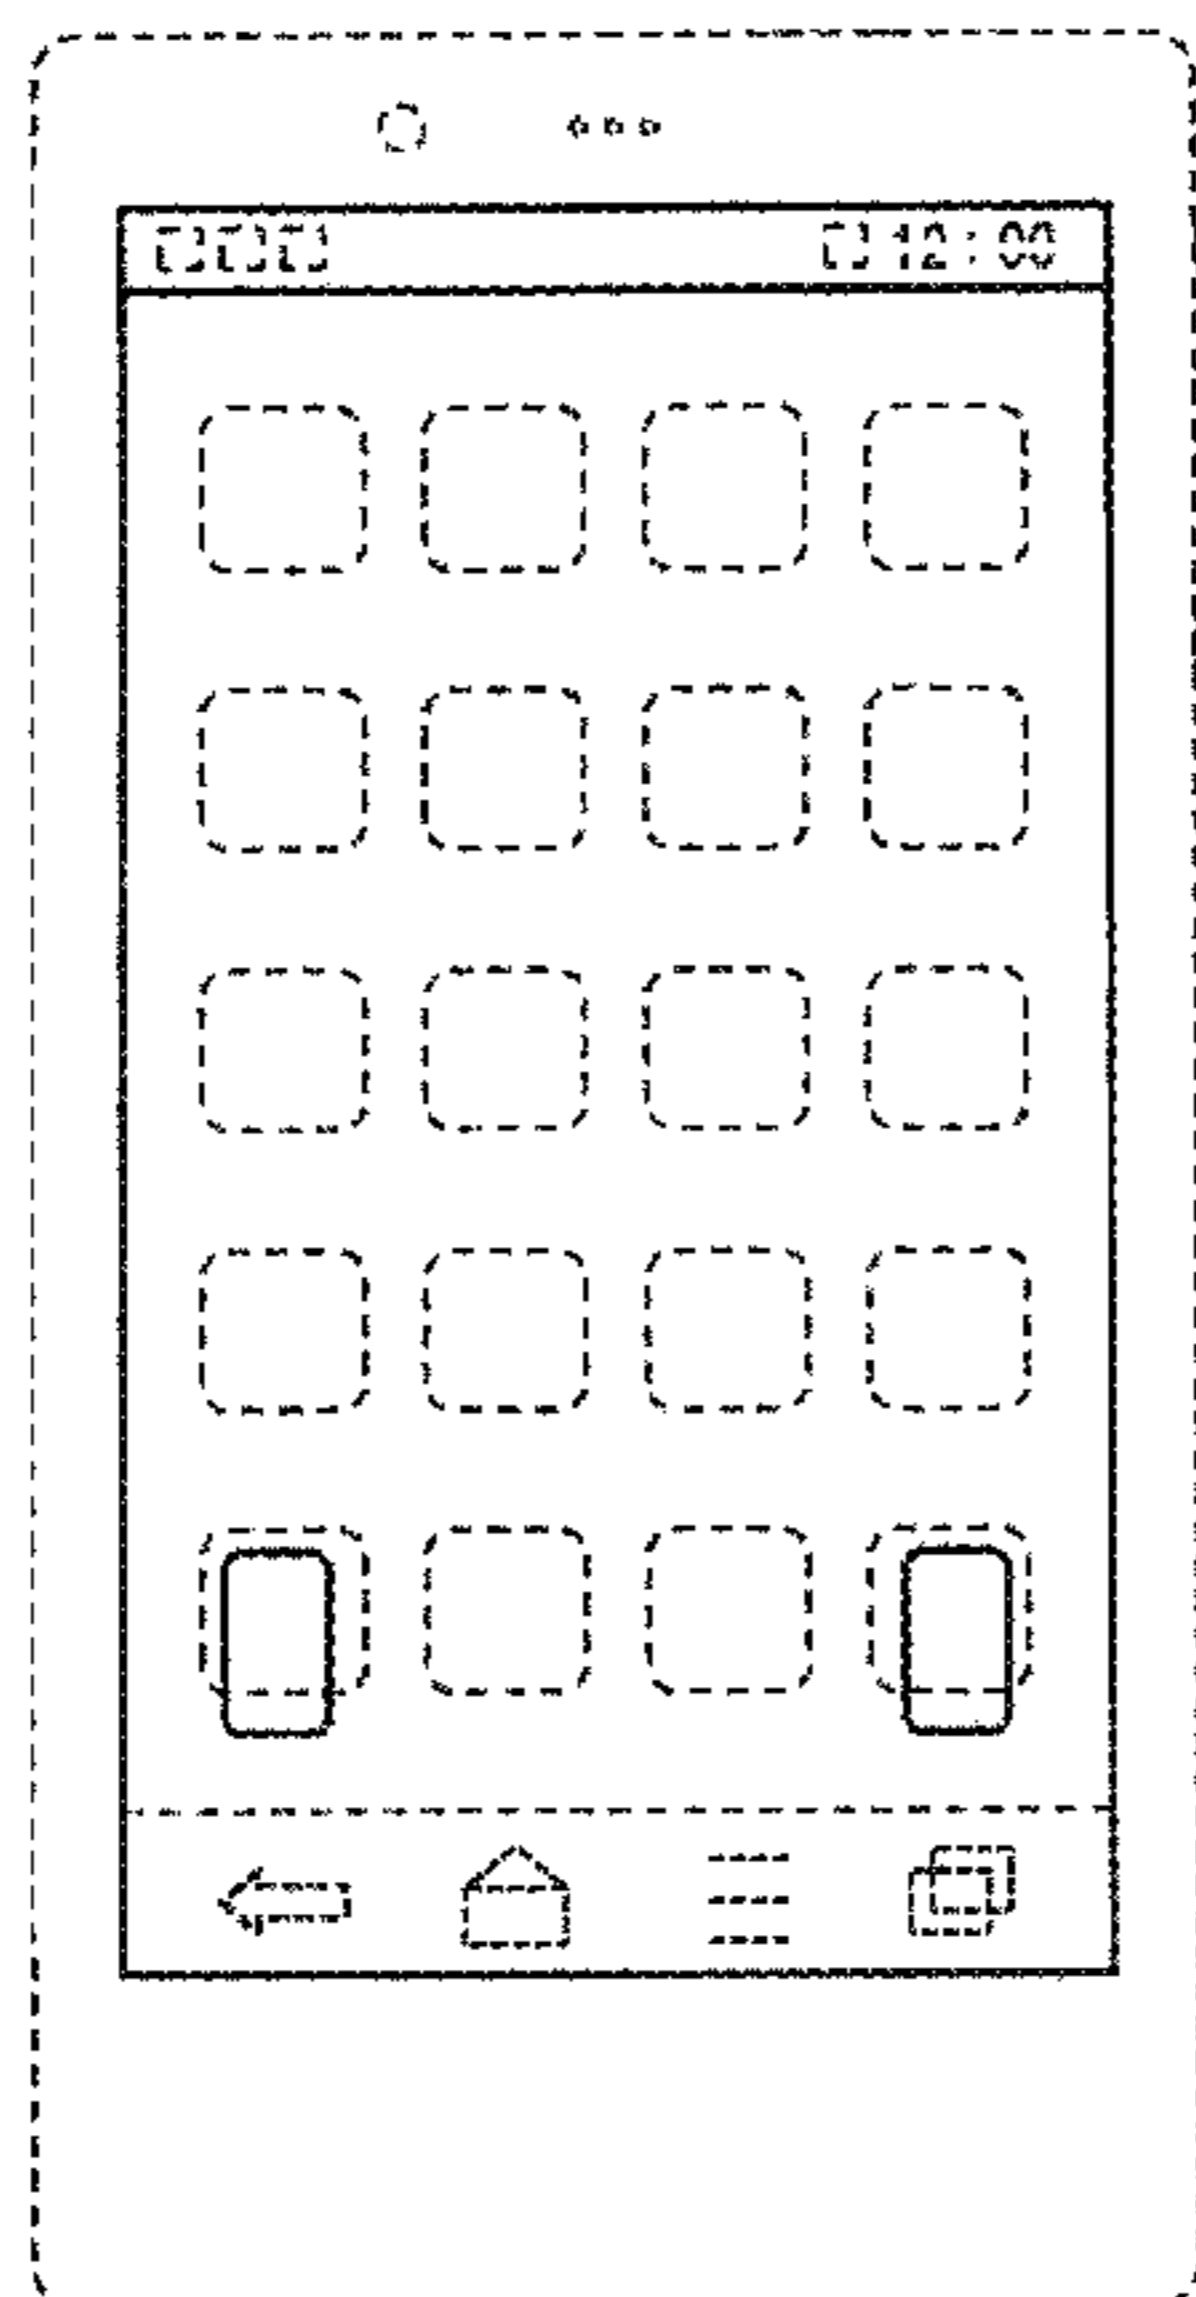

FIG. 2 is a front view of a second image thereof; and,

FIG. 3 is a front view of a third image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken line showings of the display, mobile information terminal and portions of the graphical user interface are included for the purpose of illustrating environmental structure and form no part of the claimed design.
