(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface for converting machine, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface for converting machine according to the first embodiment showing our new design; and, FIG. 2 is a front view of a display screen with graphical user interface for converting machine according to the second embodiment showing our new design. The outermost broken lines illustrate a display screen and form no part of the claimed design. The remaining broken lines illustrate portions of a graphical user interface and form no part of the claimed design.

1 Claim, 2 Drawing Sheets
