DESCRIPTION

FIG. 1 is a front perspective view of portions of an eyeglass showing another embodiment of our new design in which the different shading techniques including the line shading in some areas and the stippling in other areas of the eyeglass does not represent a contrast in appearance and does not represent any specific color, texture and/or material. In other embodiments, the different shading techniques including the line shading in some areas and the stippling in other areas of portions of the eyeglass does represent a contrast in appearance, but is not intended to represent any specific color, texture and/or material;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a left side elevational view thereof, the right side elevational view being a mirror image thereof;

FIG. 5 is a top plan view thereof; and,

FIG. 6 is a bottom plan view thereof.

The dot-dash-dot broken lines in the Figures along the front of the portion of the eyeglass denote unclaimed boundaries of the claimed design, and the dash-dash broken lines in the Figures show portions of the eyeglass which form no part of the claimed design.
