(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen or portion thereof with animated graphical user interface showing a first image of our new design;

FIG. 2 is a second image thereof;

FIG. 3 is a front view of a second embodiment of a display screen or portion thereof with animated graphical user interface showing a first image of our new design; and, FIG. 4 is a second image thereof.

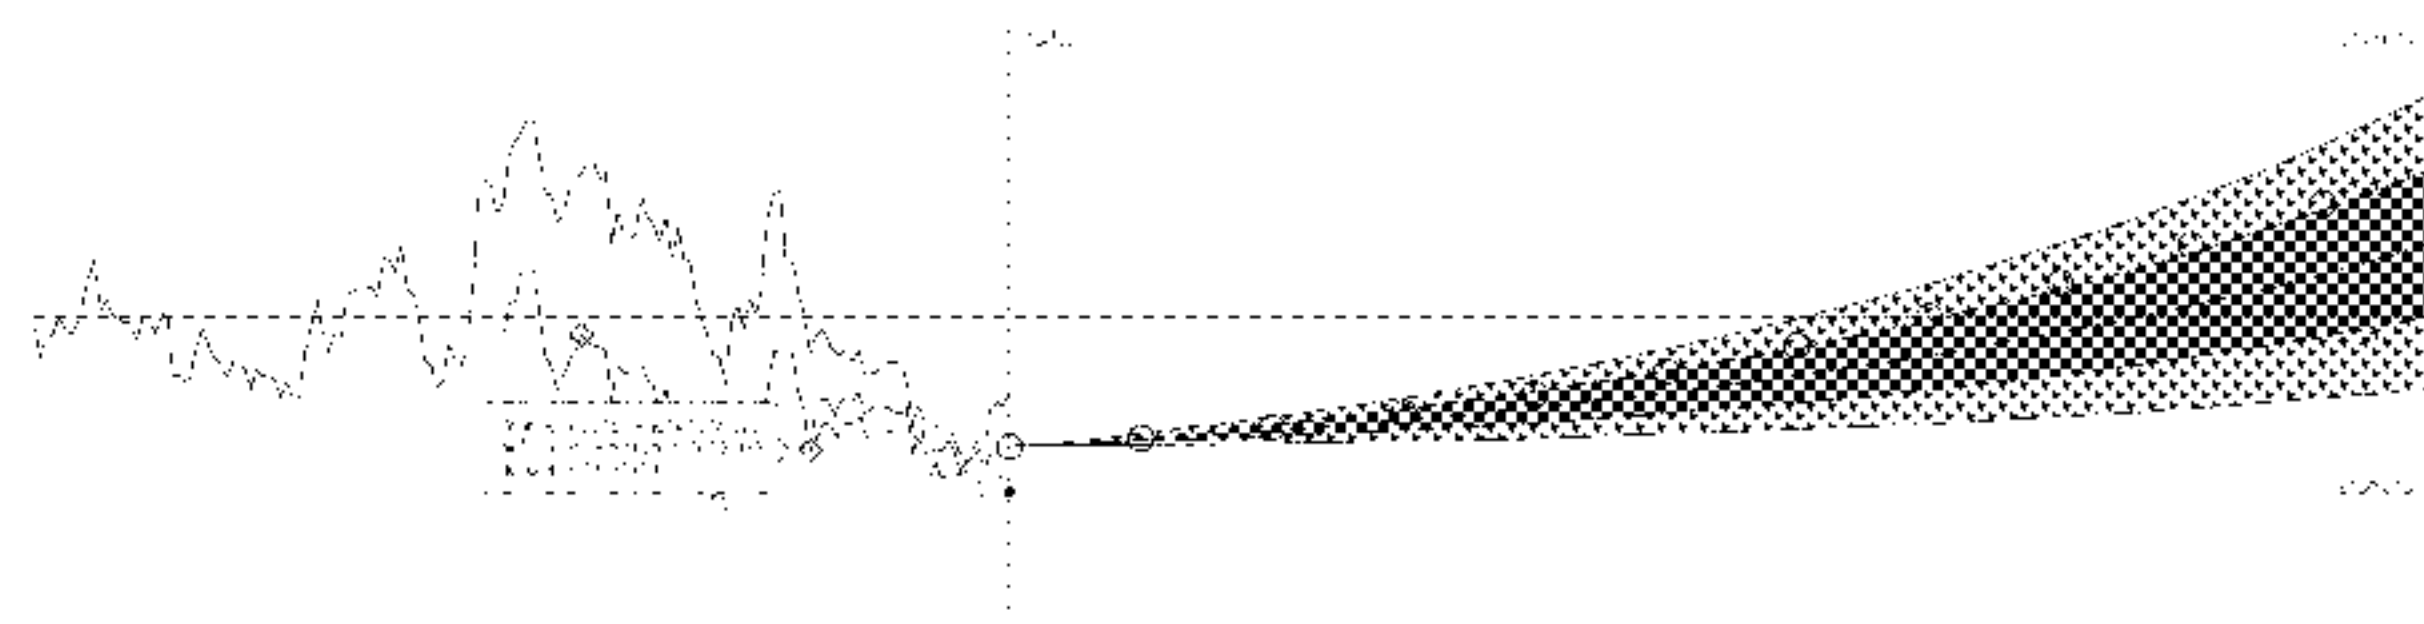

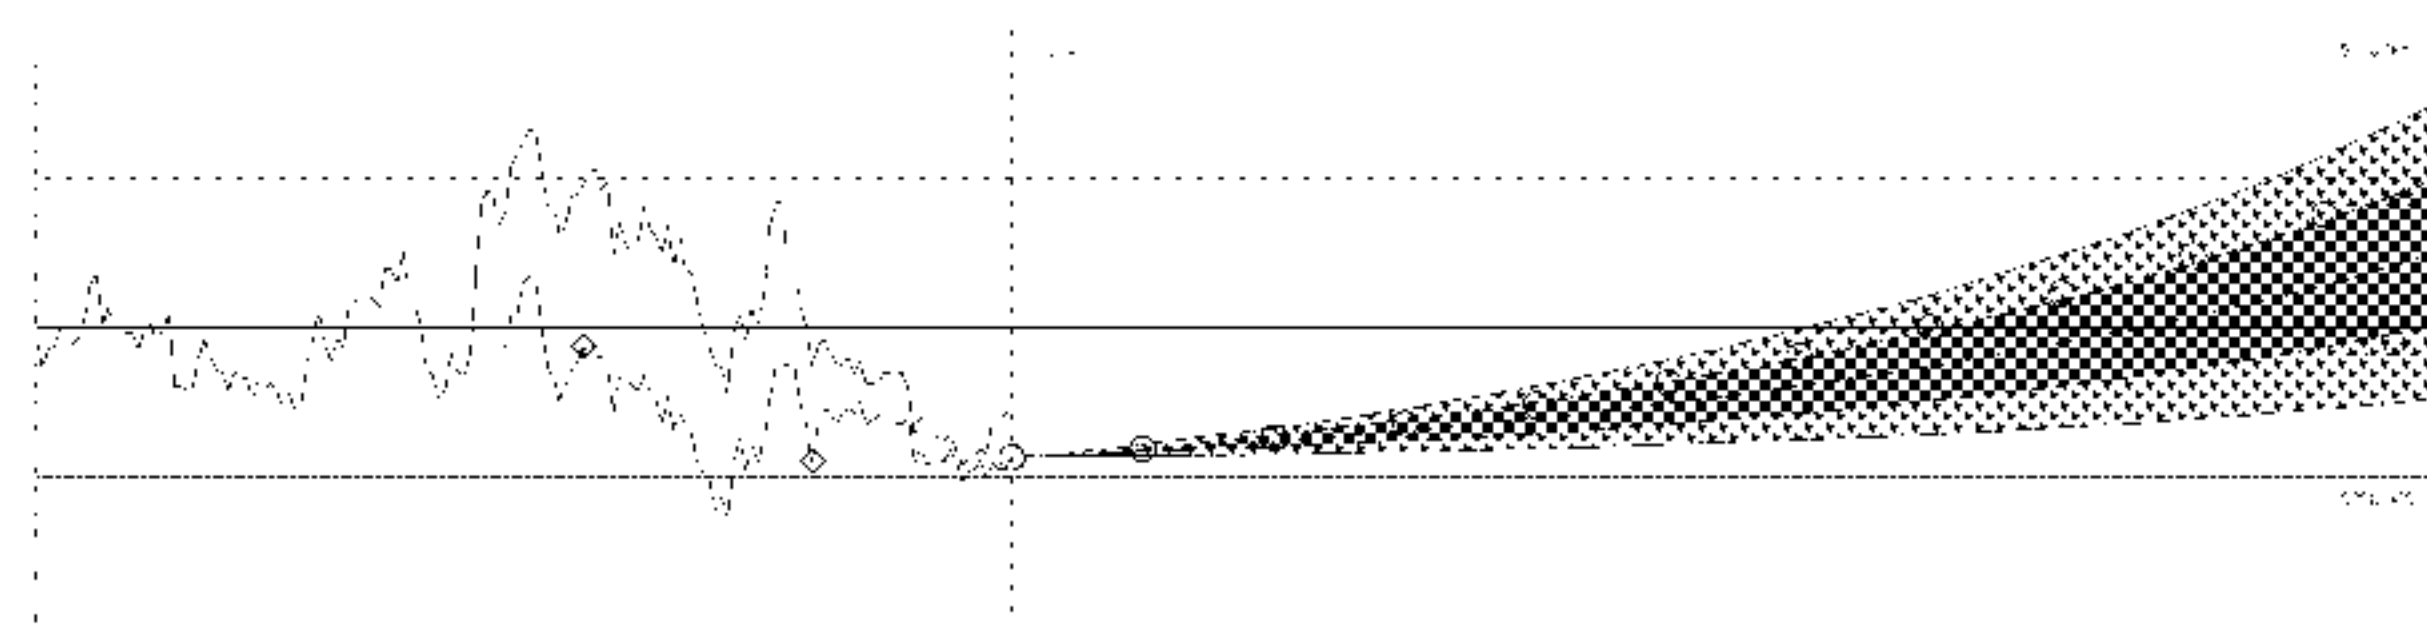

The outermost dot-dash broken lines in the figures show a display screen or portion thereof, and form no part of the claimed design. The other dot-dash broken lines in the figures show portions of the animated graphical user interface that form no part of the claimed design.

The broken-line text in the figures forms no part of the claimed design.

The appearance of the animated images transitions between the images shown in FIGS. 1-2 and FIGS. 3-4. The process or period in which one image transitions to another forms no part of the claimed design.

The figures are illustrated to show a contrasting appearance. The lighter contrast areas illustrate an appearance. The darker contrast area illustrates a different appearance.
