(57) **CLAIM**

The ornamental design for a digital camera with display screens having graphical user interfaces, as shown and described.

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a top, rear and left side perspective view of a digital camera with display screens having graphical user interfaces showing my new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a right side elevational view thereof;

FIG. 8 is an annotated, enlarged detail view of the camera body display screen thereof, shown separately for clarity of illustration;

FIG. 9 is an enlarged detail view of the area defined by lines IX-IX of FIG. 8;

FIG. 10 is a rear elevational view of a second embodiment of the digital camera with display screens having graphical user interfaces, in which the graphical user interface described in FIG. 8 is displayed on the camera body display screen and on the viewfinder display screen;

FIG. 11 is a top, rear and left side perspective view of a third embodiment of the digital camera with display screens having graphical user interfaces;

FIG. 12 is a rear elevational view of FIG. 11;

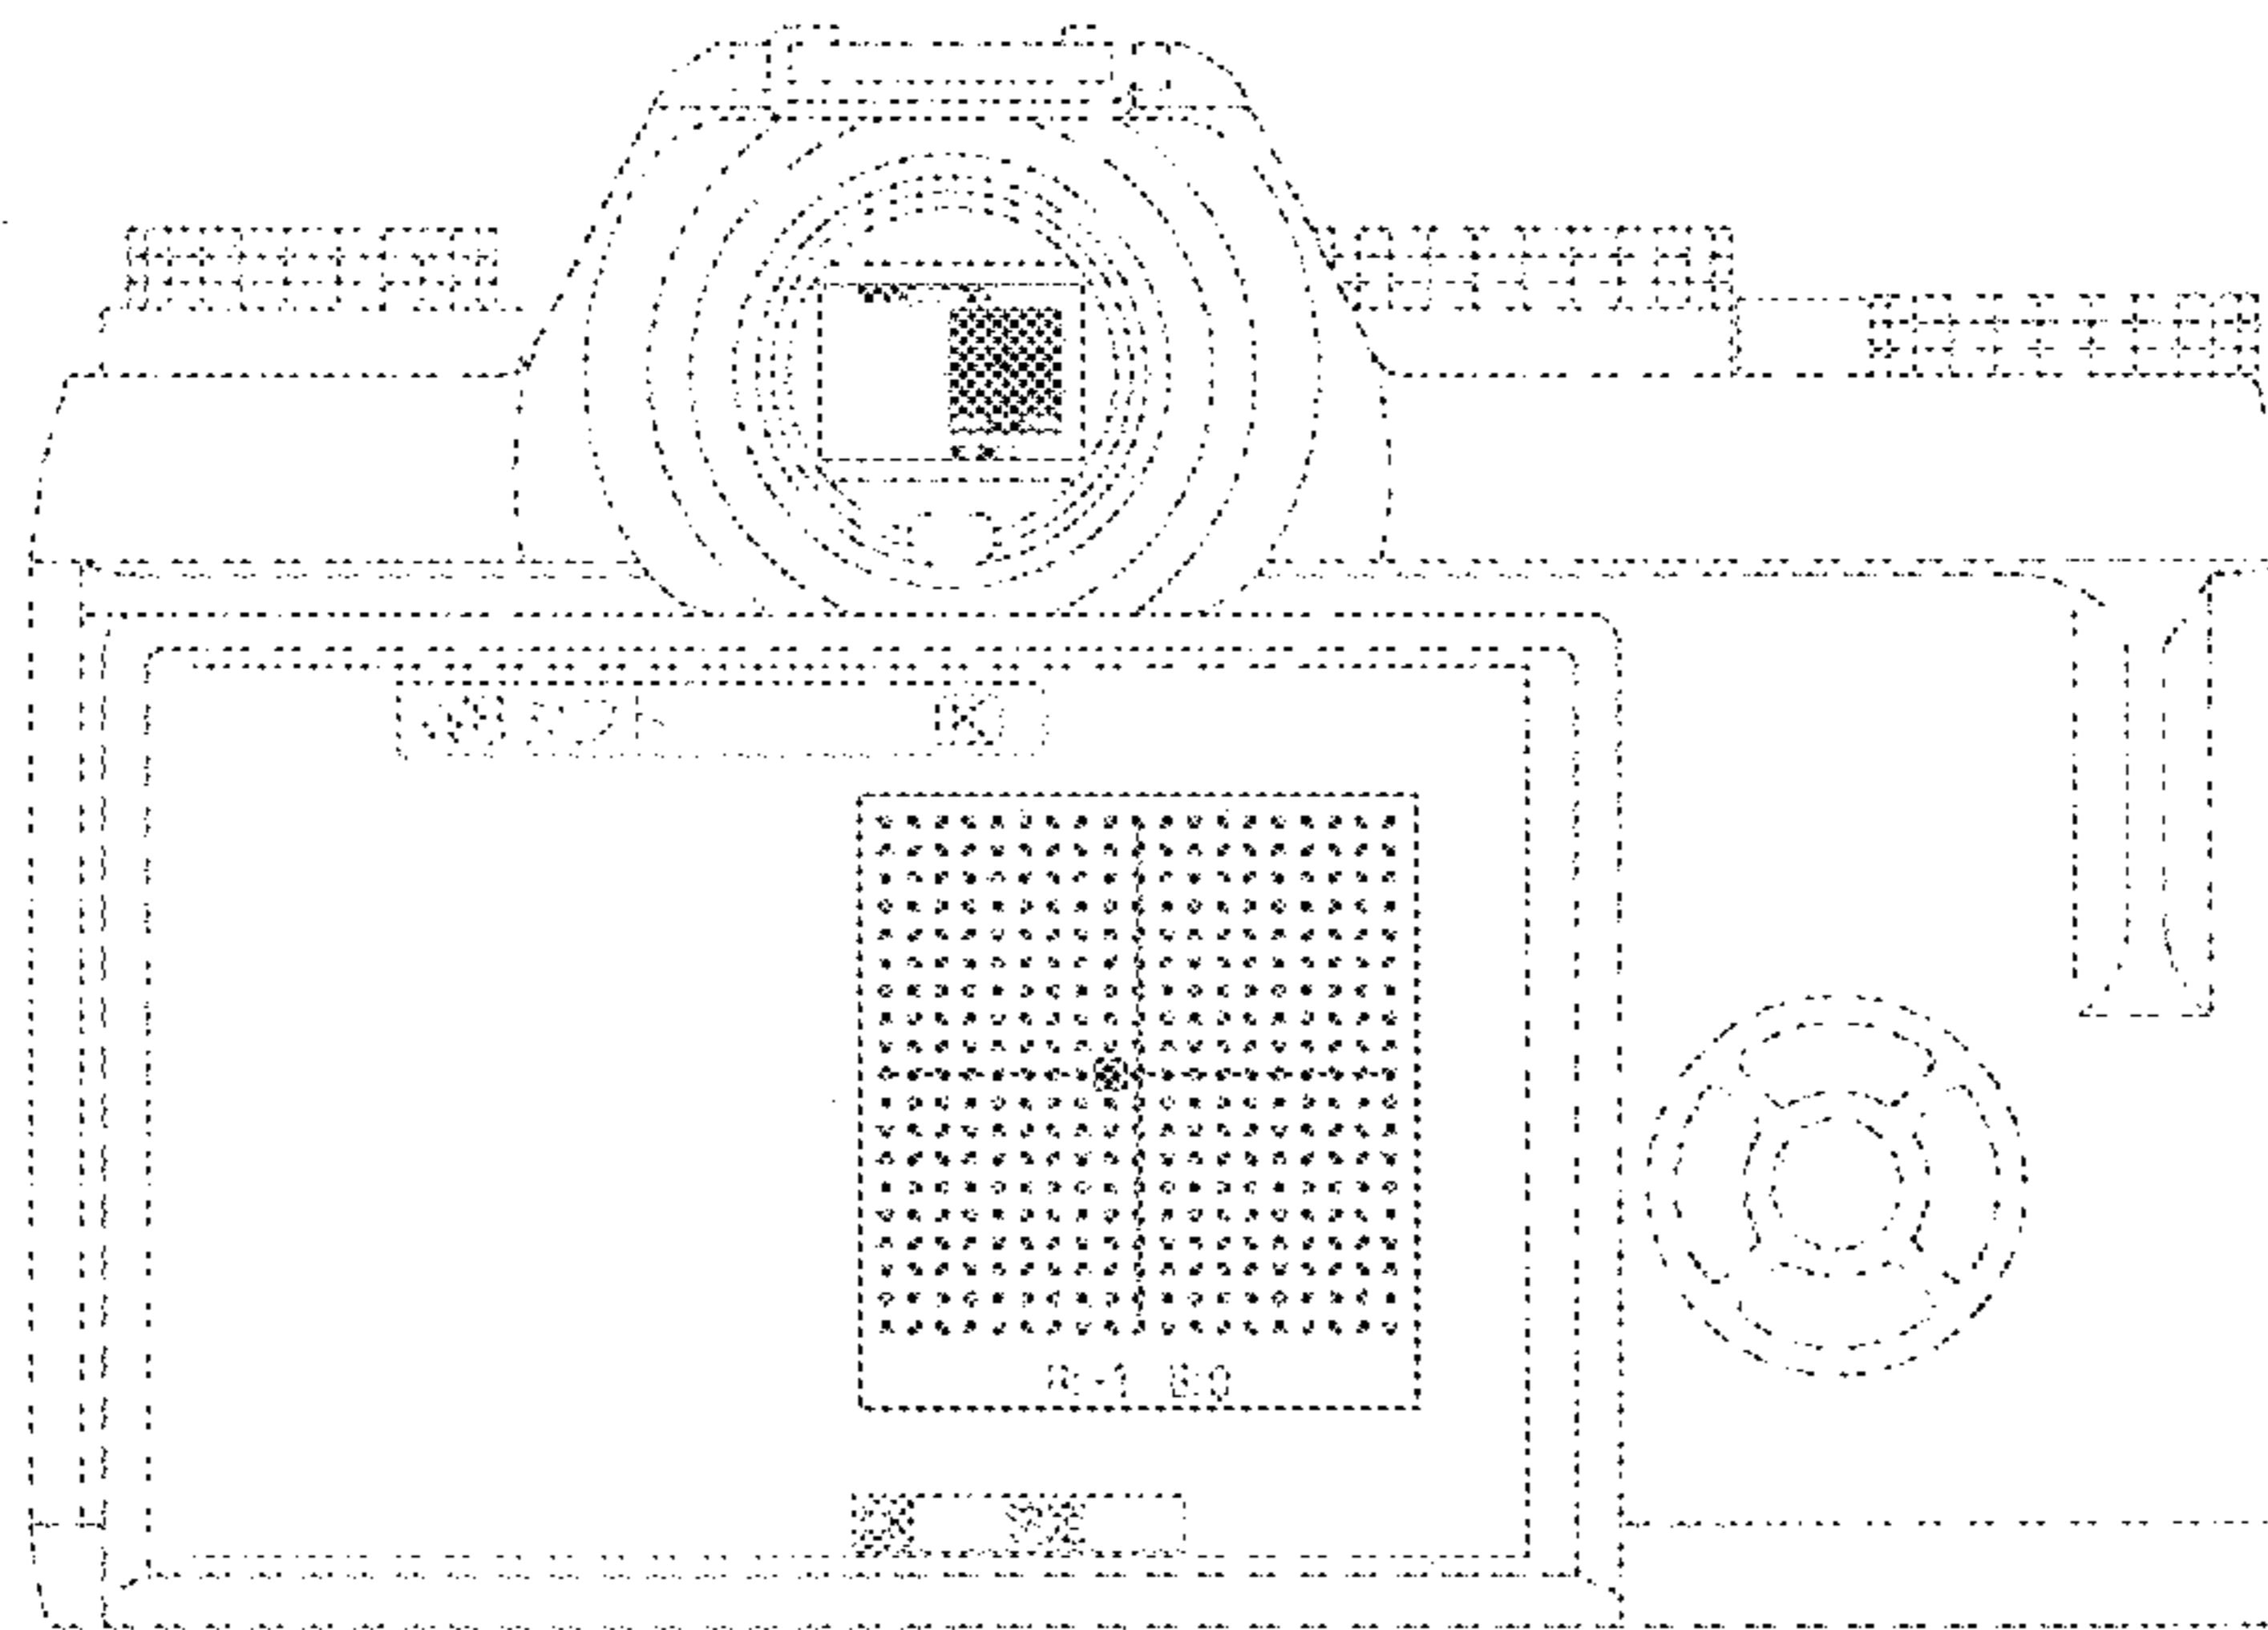

FIG. 13 is an annotated, enlarged detail view of the camera body display screen of FIG. 11, shown separately for clarity of illustration;

FIG. 14 is an enlarged detail view of the area defined by lines XIV-XIV of FIG. 13; and,

FIG. 15 is a rear elevational view of a fourth embodiment of the digital camera with display screens having graphical user interfaces, in which the graphical user interface described in FIG. 13 is displayed on the camera body display screen and on the viewfinder display screen.

The broken line showing of the digital camera, display screens and remaining areas of the graphical user interfaces forms no part of the claimed design.
