(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image in a series of images for a display screen with animated graphical user interface showing our new design;

FIG. 2 is a second image in a series of images for a display screen with animated graphical user interface showing our new design; and,

FIG. 3 is a third image in a series of images for a display screen with animated graphical user interface showing our new design.

The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design. The outermost broken line rectangle illustrates a display screen. The remaining broken lines illustrate portions of a graphical user interface. The broken lines form no part of the claimed design.
