(57) **CLAIM**

The ornamental design for the vehicle indicator lamp, as shown and described.

**DESCRIPTION**

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front and top perspective view of a new ornamental design for a vehicle indicator lamp with a display screen or a portion thereof in a non-illuminated condition;

FIG. 2 is front view thereof;

FIG. 3 is the vehicle indicator lamp of FIG. 2 shown in complete darkness with the display screen or portion thereof displayed with a first image to indicate a first illuminated condition; and,

FIG. 4 is the vehicle indicator lamp of FIG. 2 shown in complete darkness with the display screen or portion thereof displayed with a second image to indicate a second illuminated condition.

The broken lines shown in FIGS. 1-4 are included for the purpose of illustrating environmental structure and these broken lines form no part of the claimed design.

The appearance of the images shown in FIGS. 3-4 transitions non-sequentially from the appearance of the non-illuminated condition shown in FIG. 2. The process or period in which an image transitions to another forms no part of the claimed design.

The color of the images shown in FIGS. 3 and 4 forms no part of the claimed design and according to the claimed design may be of any color or combination of colors.
