See application file for complete search history.

**DESCRIPTION**

FIG. 1 is a perspective view showing a top, a front, and a left side of a videoconferencing unit according to our new design shown in the position for use with a camera extended from a central stand;

FIG. 2 is another perspective view showing the top, the front, and the left side of the videoconferencing unit with the camera retracted in the central stand;

FIG. 3 is an elevational view of the front of the unit shown in the position for use seen in FIG. 1;

FIG. 4 is an elevational view of a right side of the unit thereof;

FIG. 5 is an elevational view of the left side of the unit thereof;

FIG. 6 is an elevational view of a back of the unit thereof; and

FIG. 7 is a plan view of the top of the unit; and,

FIG. 8 is a plan view of a bottom of the unit.

The broken lines showing in FIGS. 1, 3-6, and 8 are for illustrative purposes only and depict parts of the videoconferencing unit that form no part of the claimed design. The oblique line shading seen in the drawings represent a reflective surface.
