(57) **CLAIM**

The ornamental design for a beverage dispenser, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a beverage dispenser incorporating the design of the present invention; FIG. 2 is a bottom perspective view of the beverage dispenser of FIG. 1; FIG. 3 is a front view of the beverage dispenser of FIG. 1; FIG. 4 is a left side view of the beverage dispenser of FIG. 1; FIG. 5 is a right side view of the beverage dispenser of FIG. 1; and, FIG. 6 is a top view of the beverage dispenser of FIG. 1. The rear surface of the beverage dispenser in FIG. 1 is flat (with the exception of ports shown protruding out of the beverage dispenser in the left side, right side, and top views and which are not part of the claimed design) and unornamented. Furthermore, the rear surface of the beverage dispenser in FIG. 1 is not visible during normal use. The broken lines in the drawings depict portions of the beverage dispenser that form no part of the claimed design.
