The FIGURE is a front view of a display screen or portion thereof with a graphical user interface showing my new design with environmental structure in shown in broken lines.

The broken lines outside the solid line rectangle showing the electronic device are included for the purpose of illustrating environmental structure and form no part of the claimed design. All dashed lines inside the solid line rectangle, including the large, bold horizontal line below the sewing machine, the fine, jagged line to the left of the sewing machine, and the small, bold line above the sewing machine, are portions of the claimed design. The outermost, solid line rectangle represents the display screen which forms part of the claimed design.
