(57) **CLAIM**

The ornamental design for a wrench, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a wrench according to an embodiment of the invention. The view from the opposite side being a mirror image thereof.

FIG. 2 is a right-side view of the wrench depicted in FIG. 1.

FIG. 3 is a left-side view of the wrench depicted in FIG. 1.

FIG. 4 is a top view of the wrench depicted in FIG. 1.

FIG. 5 is a bottom view of the wrench depicted in FIG. 1.

FIG. 6 is a front view of the wrench depicted in FIG. 1.

FIG. 7 is a rear view of the wrench depicted in FIG. 1.

FIG. 8 is a perspective view of a wrench according to another embodiment of the invention. The view from the opposite side being a mirror image thereof.

FIG. 9 is a right-side view of the wrench depicted in FIG. 8.

FIG. 10 is a left-side view of the wrench depicted in FIG. 8.

FIG. 11 is a top view of the wrench depicted in FIG. 8.

FIG. 12 is a bottom view of the wrench depicted in FIG. 8.

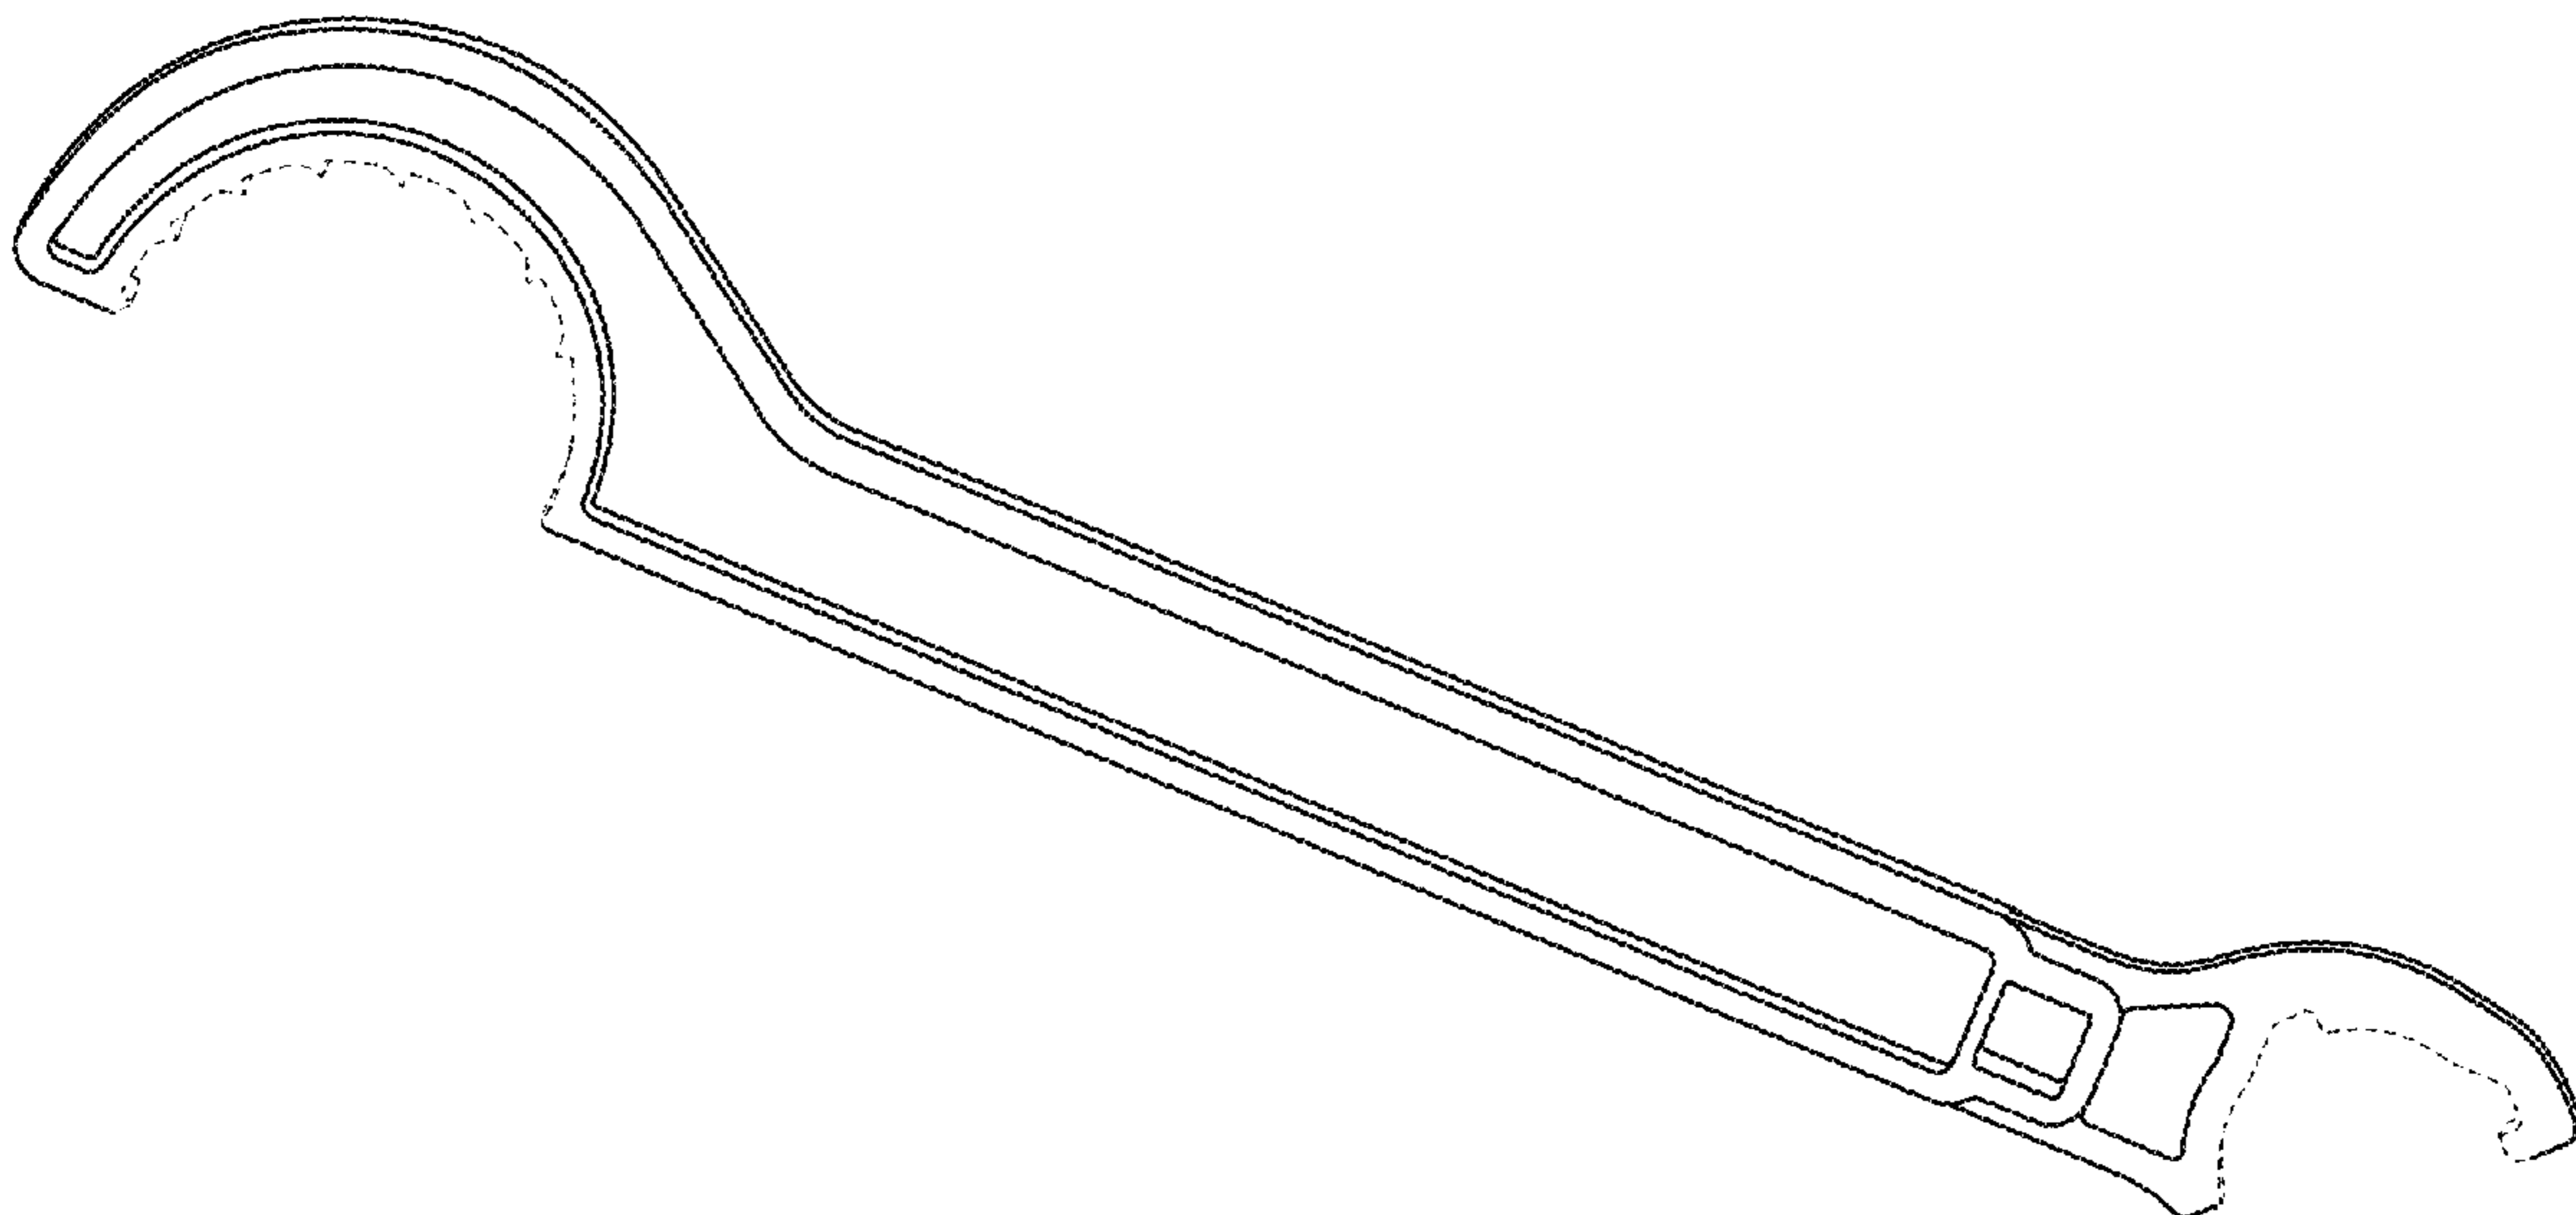

FIG. 13 is a front view of the wrench depicted in FIG. 8; and,

FIG. 14 is a rear view of the wrench depicted in FIG. 8.

The portions shown in dashed lines, including the inside surfaces of the heads on either end of the wrench, are not part of the claimed design.

The claim extends to, but does not include, the broken lines.

1 Claim, 12 Drawing Sheets
