(57) **CLAIM**

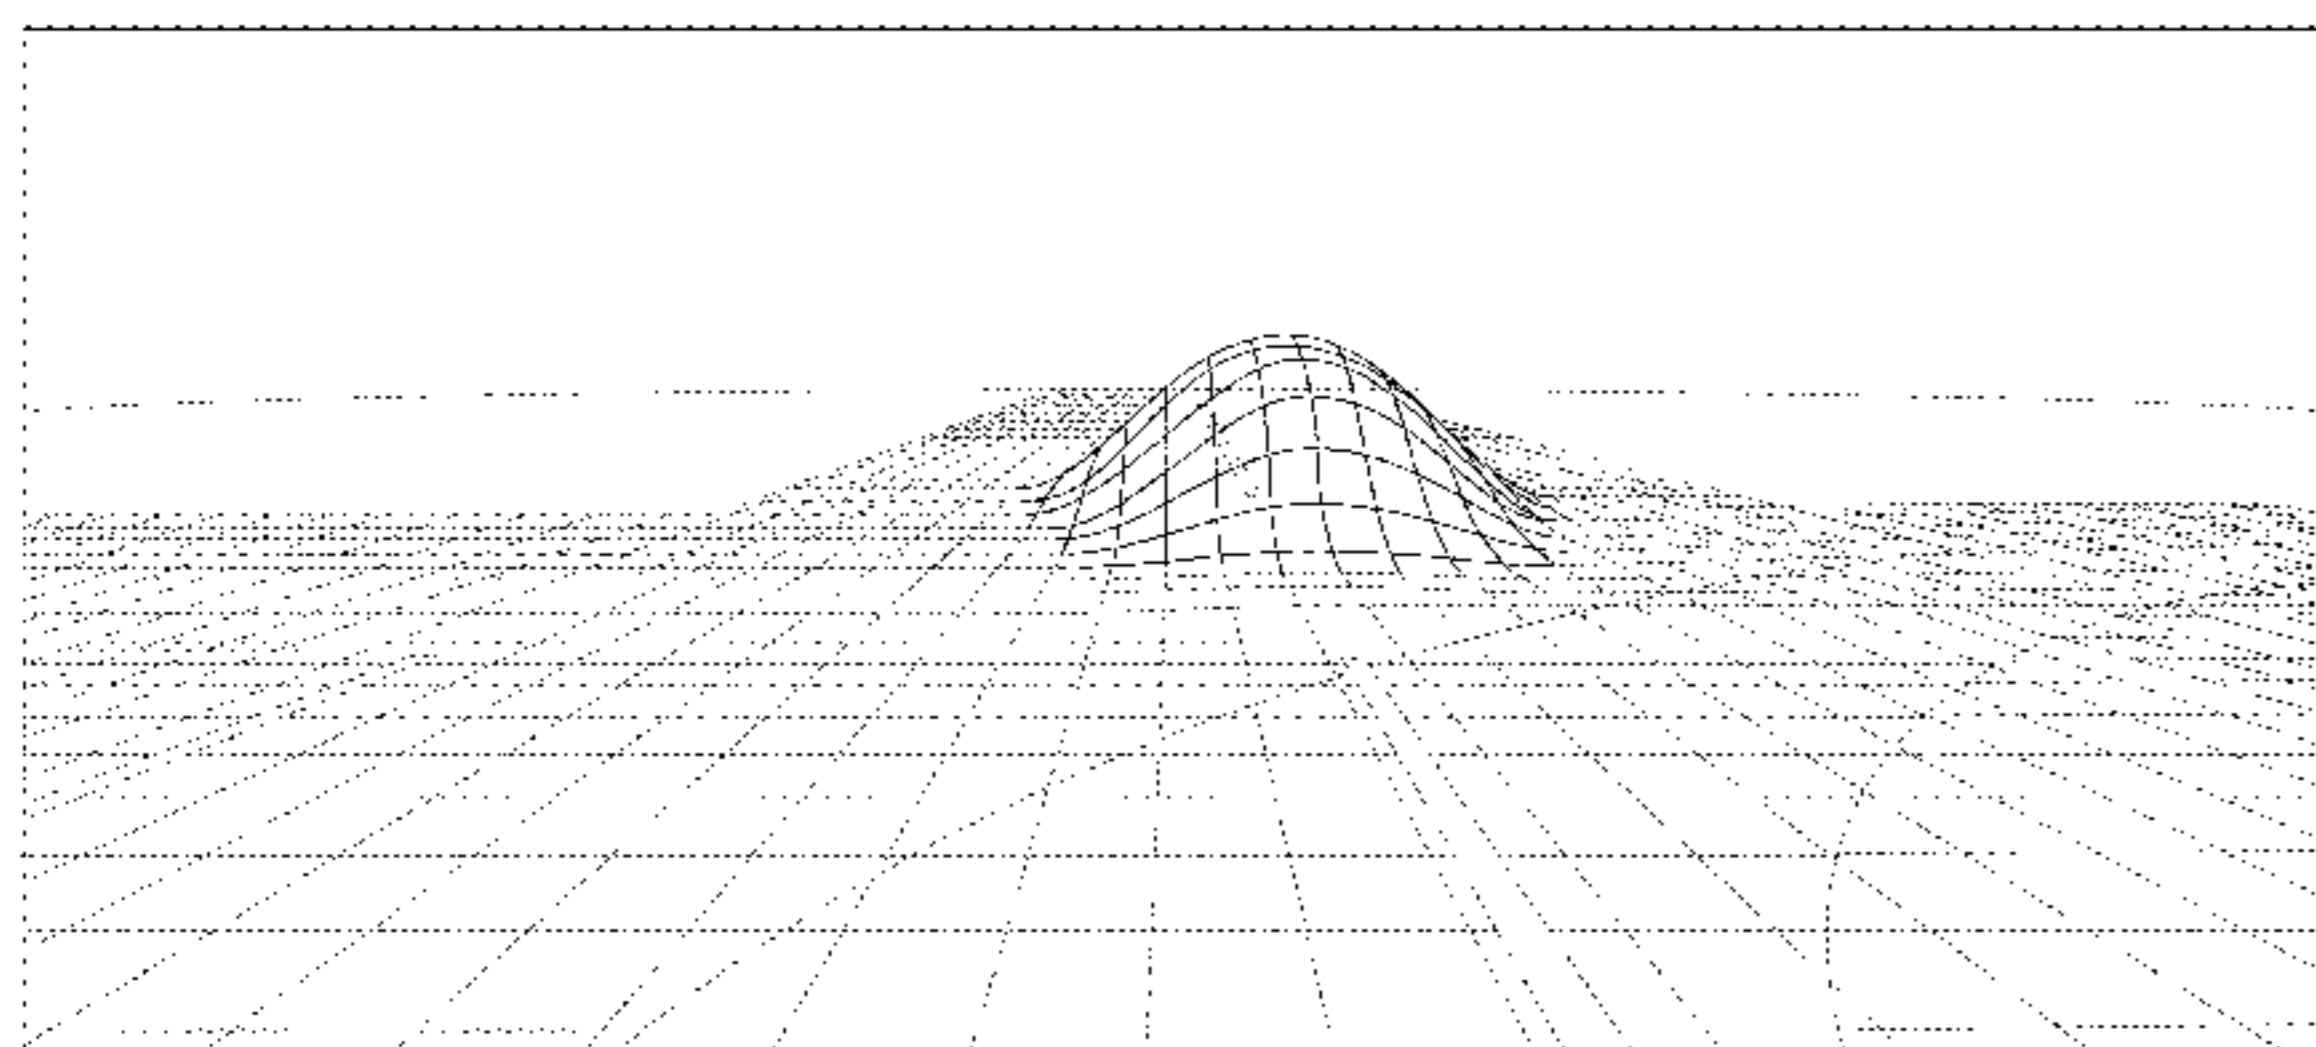

The ornamental design for the display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is the first image of a display screen with graphical user interface showing our new design; FIG. 2 is the second image thereof; FIG. 3 is the third image thereof; and, FIG. 4 is the fourth image thereof.

The claim is directed toward the solid line showing of the display screen and the area of the protrusion in each figure. All other lines are broken. The broken lines illustrate portions of the graphical user interface which form no part of the claimed design. The subject matter in the patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
