CLAIM

(57) What is claimed is the ornamental design for a display screen with a graphical user interface, as shown and described.

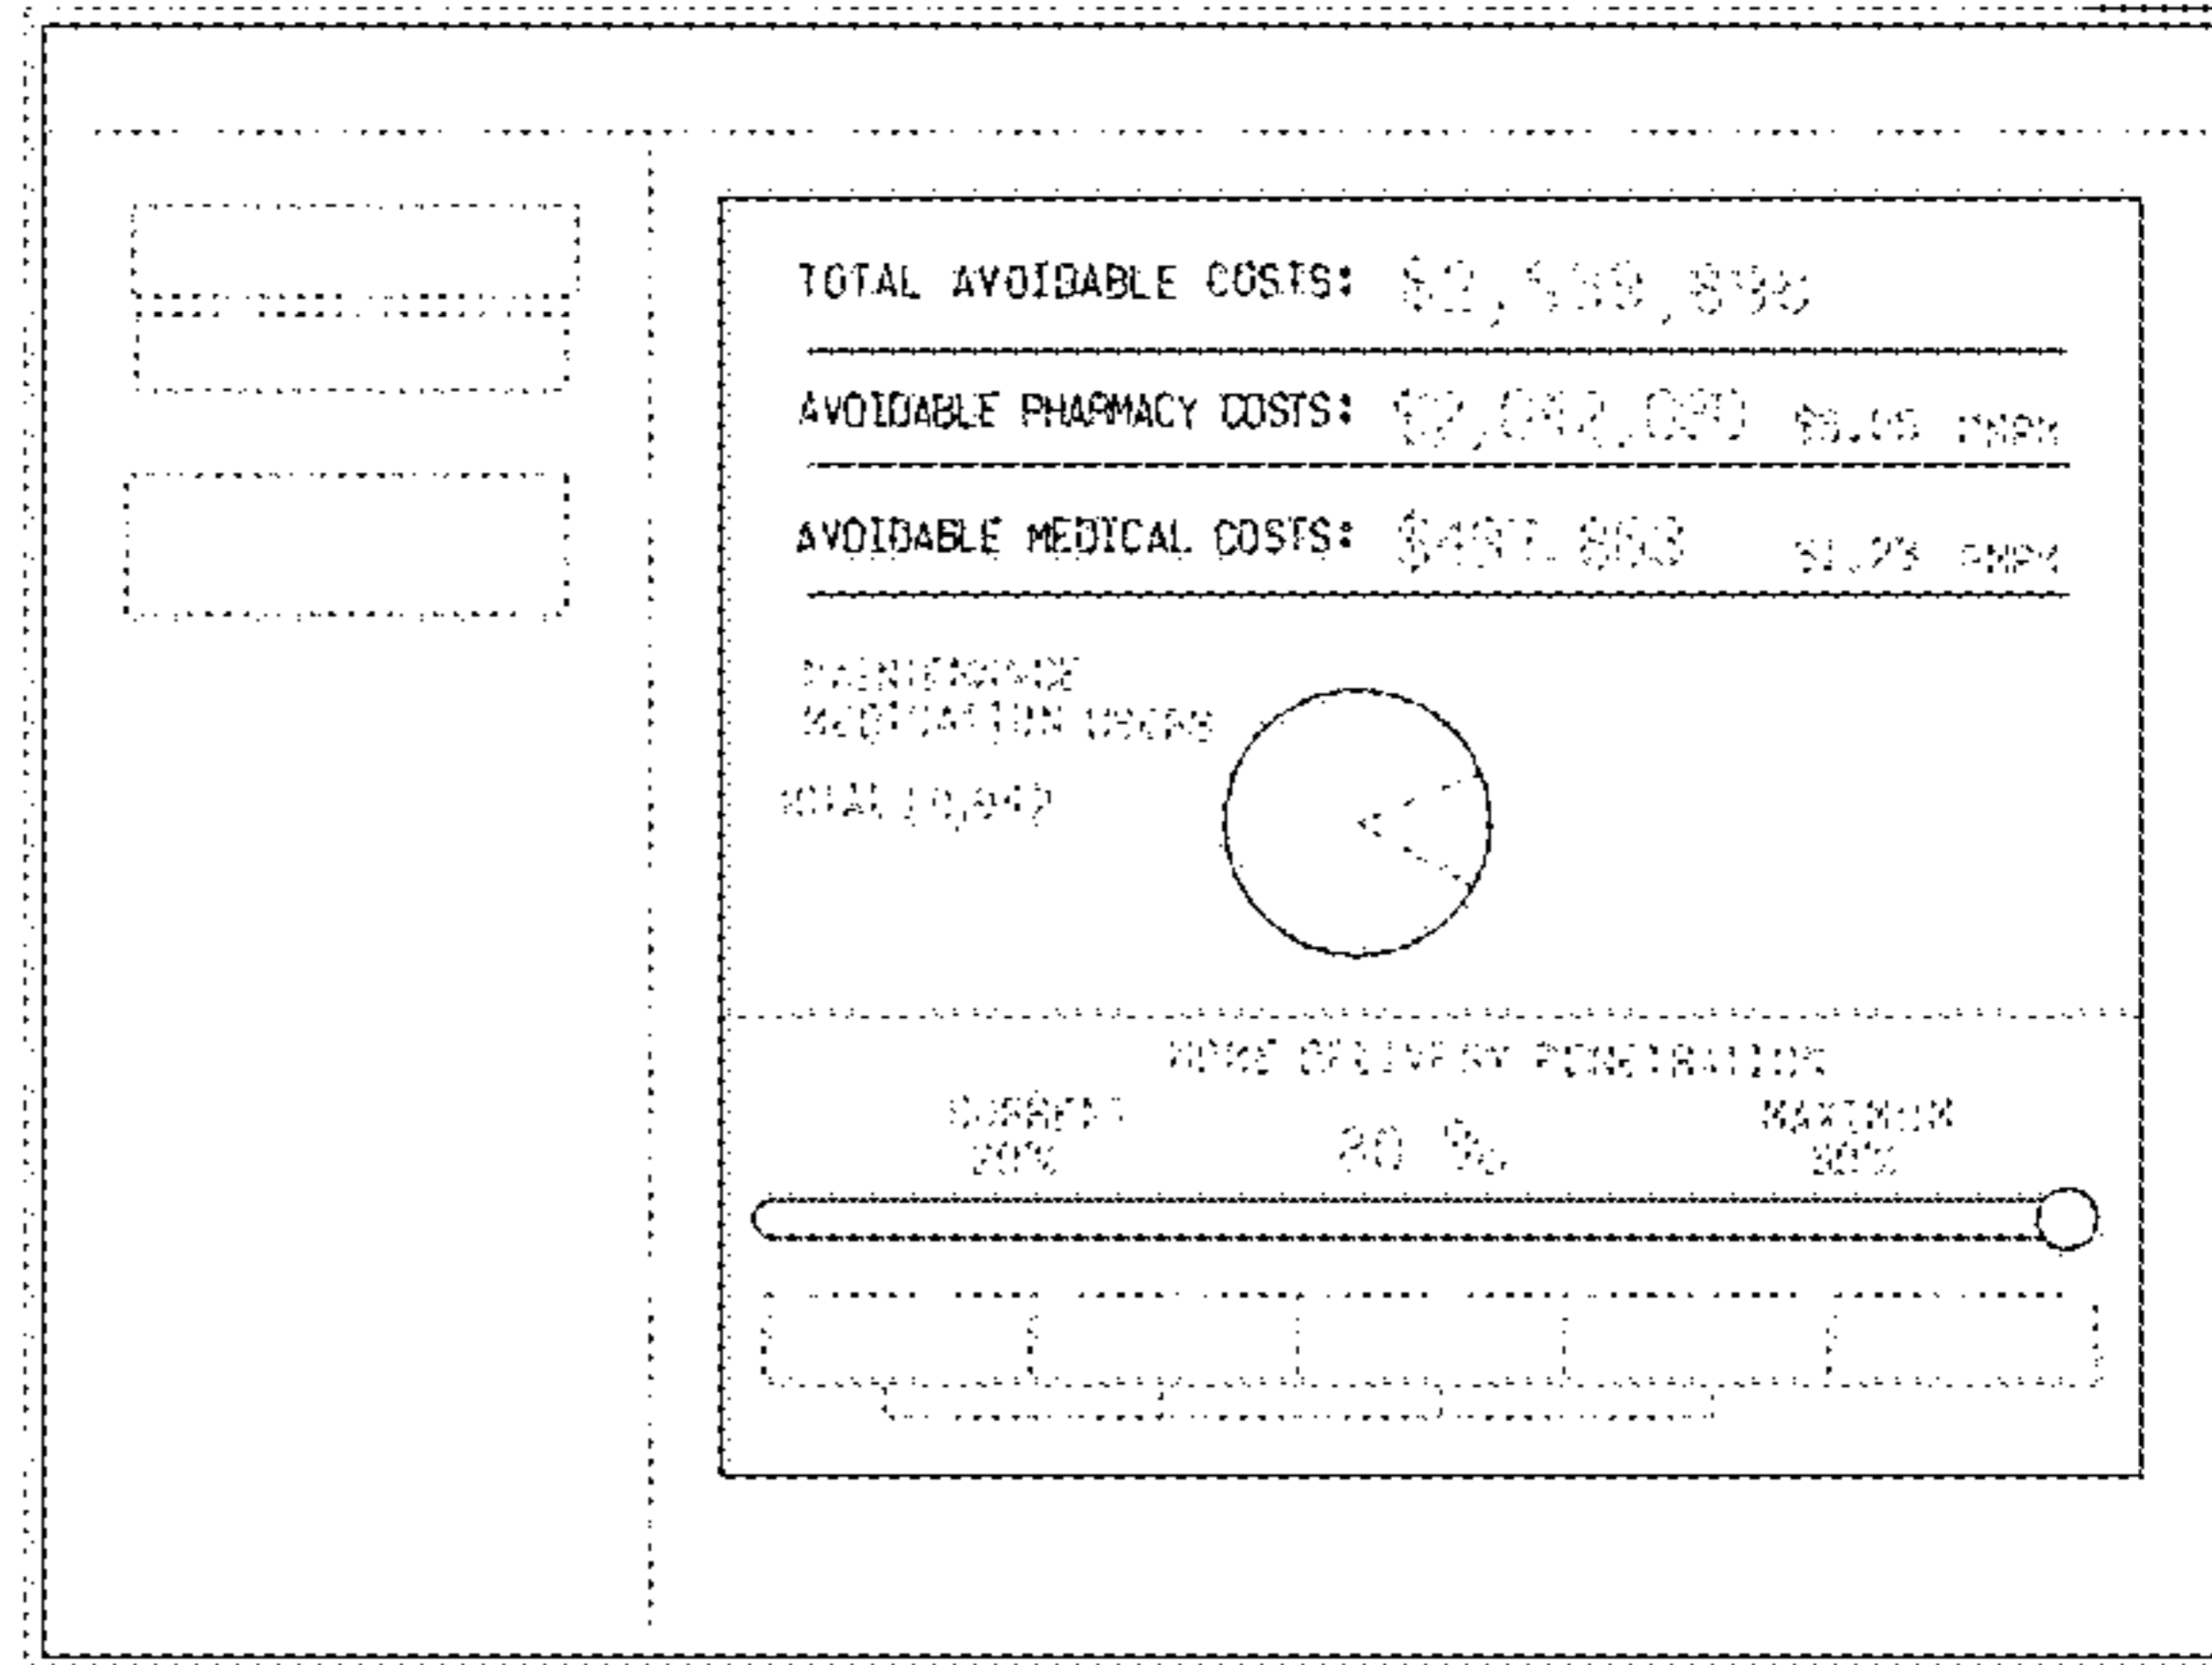

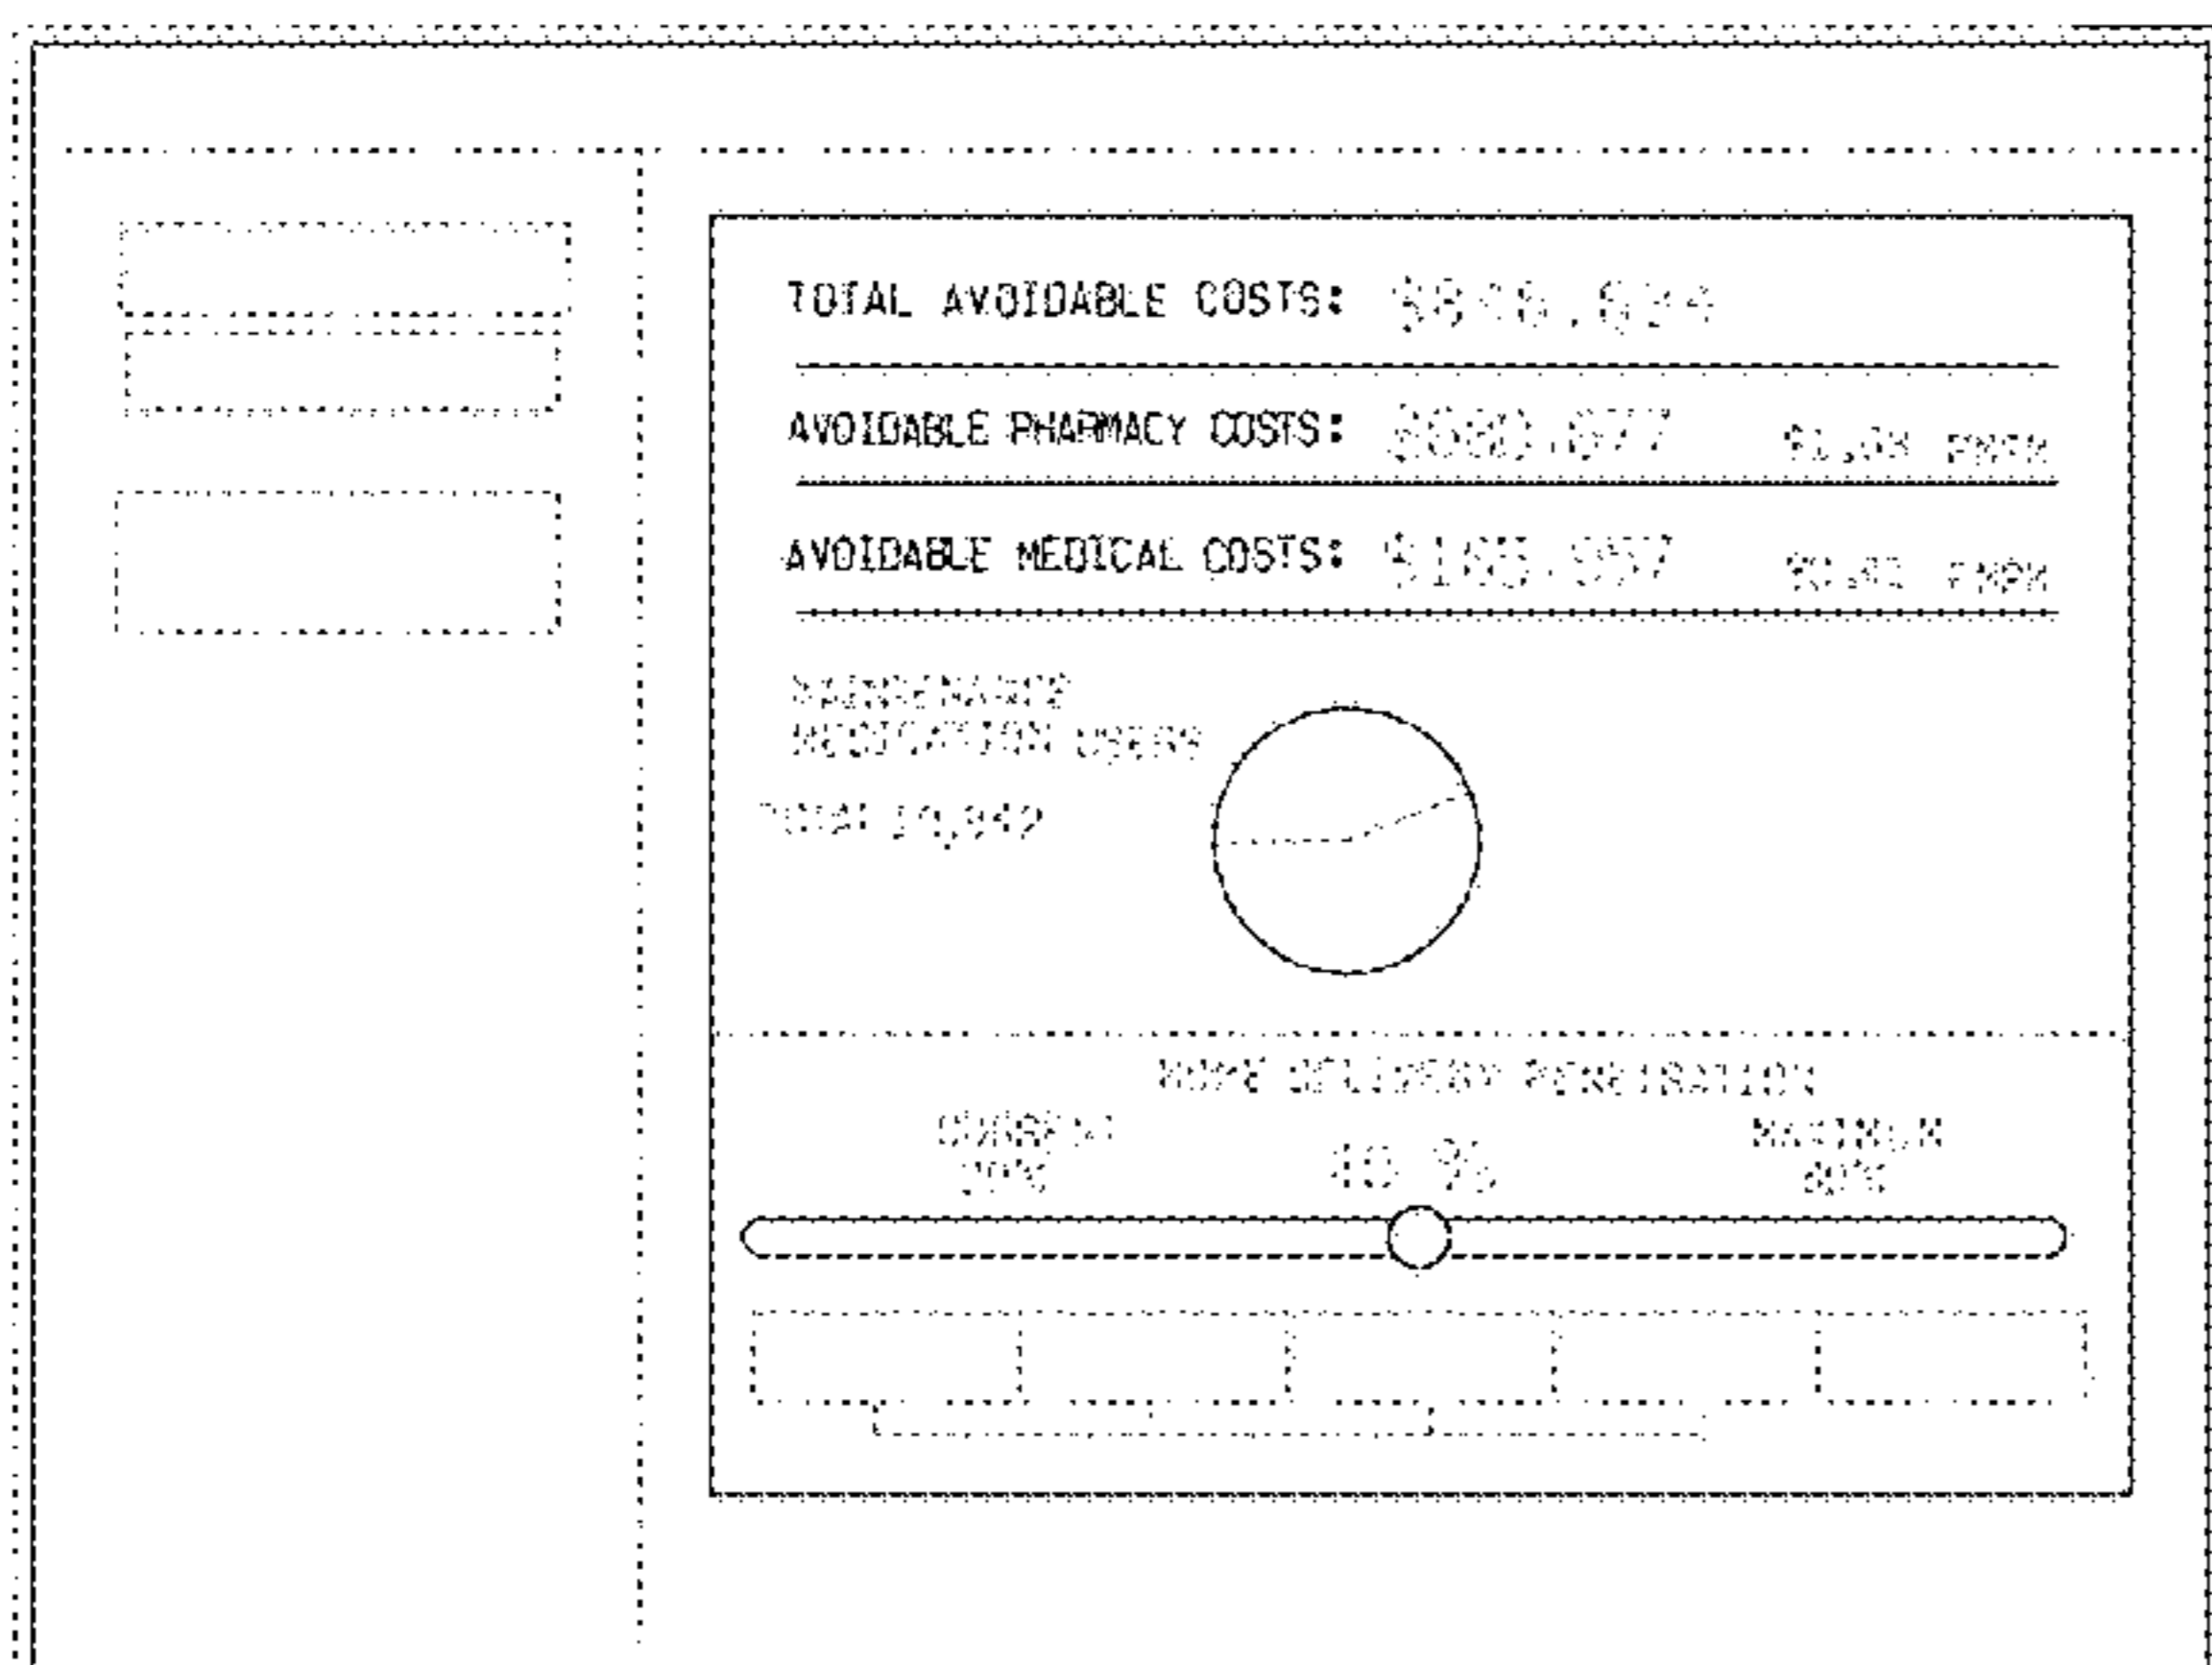

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen with a graphical user interface; and, FIG. 2 is a front view of a second image in the sequence for a display screen with a graphical user interface.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 and 2. The process or period in which one image transitions to another image forms no part of the claimed design.

The outer broken line rectangle showing portions of a display screen and all other broken lines showing portions of a graphical user interface are included for the purpose of illustrating portions of the article and form no part of the claimed design.
