(57) **CLAIM**  
The ornamental design for a magnetic boutonniere appliance, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a magnetic boutonniere appliance, showing my new design in a disassembled state; FIG. 2 is another perspective view thereof, showing the magnetic boutonniere appliance in a disassembled state; FIG. 3 is another perspective view thereof, showing the magnetic boutonniere appliance in an assembled state; FIG. 4 is a front elevation view of the magnetic boutonniere appliance, showing the elongated element separately for clarity of illustration; FIG. 5 is a rear elevation view of the magnetic boutonniere appliance, showing the elongated element separately for clarity of illustration; FIG. 6 is a side elevation view of the magnetic boutonniere appliance, showing the elongated element separately for clarity of illustration; FIG. 7 is a top plan view of the magnetic boutonniere appliance, showing the elongated element separately for clarity of illustration; FIG. 8 is a bottom plan view of the magnetic boutonniere appliance, showing the elongated element separately for clarity of illustration; FIG. 9 is a rear elevation view of the magnetic boutonniere appliance, showing the shorter element separately for clarity of illustration; FIG. 10 is a front elevation view of the magnetic boutonniere appliance, showing the shorter element separately for clarity of illustration; FIG. 11 is a side elevation view of the magnetic boutonniere appliance, showing the shorter element separately for clarity of illustration; FIG. 12 is a top plan view of the magnetic boutonniere appliance, showing the shorter element separately for clarity of illustration; and, FIG. 13 is a bottom plan view of the magnetic boutonniere appliance, showing the shorter element separately for clarity of illustration.  
The broken lines in FIG. 1 showing a flower portion and a portion of a garment represent environmental subject matter only and form no part of the claimed design. The other broken lines illustrate portions of the magnetic boutonniere appliance that form no part of the claimed design.

**1 Claim, 4 Drawing Sheets**
