(57) **CLAIM**

The ornamental design for a trailer with side-shift positions,
as shown and described.

DESCRIPTION

FIG. 1 is a front left perspective view with a trailer with
side-shift positions in a transport position;

FIG. 2 is a rear left perspective view with the trailer in a
transport position;

FIG. 3 is a left side view with the trailer in a transport
position;

FIG. 4 is a right side view with the trailer in a transport
position;

FIG. 5 is a left side perspective view with the trailer in a full
lift position;

FIG. 6 is a left side perspective view with the trailer in a
lowered position;

FIG. 7 is a rear perspective view with the trailer in a position
between the transport and full lift positions, with the forks
in a non-side-shifted position;

FIG. 8 is a rear perspective view with the trailer in a position
between the transport and full lift positions, with the forks
in a left side-shifted position;

FIG. 9 is a rear perspective view with the trailer in a position
between the transport and full lift positions, with the forks
in a right side-shifted position;

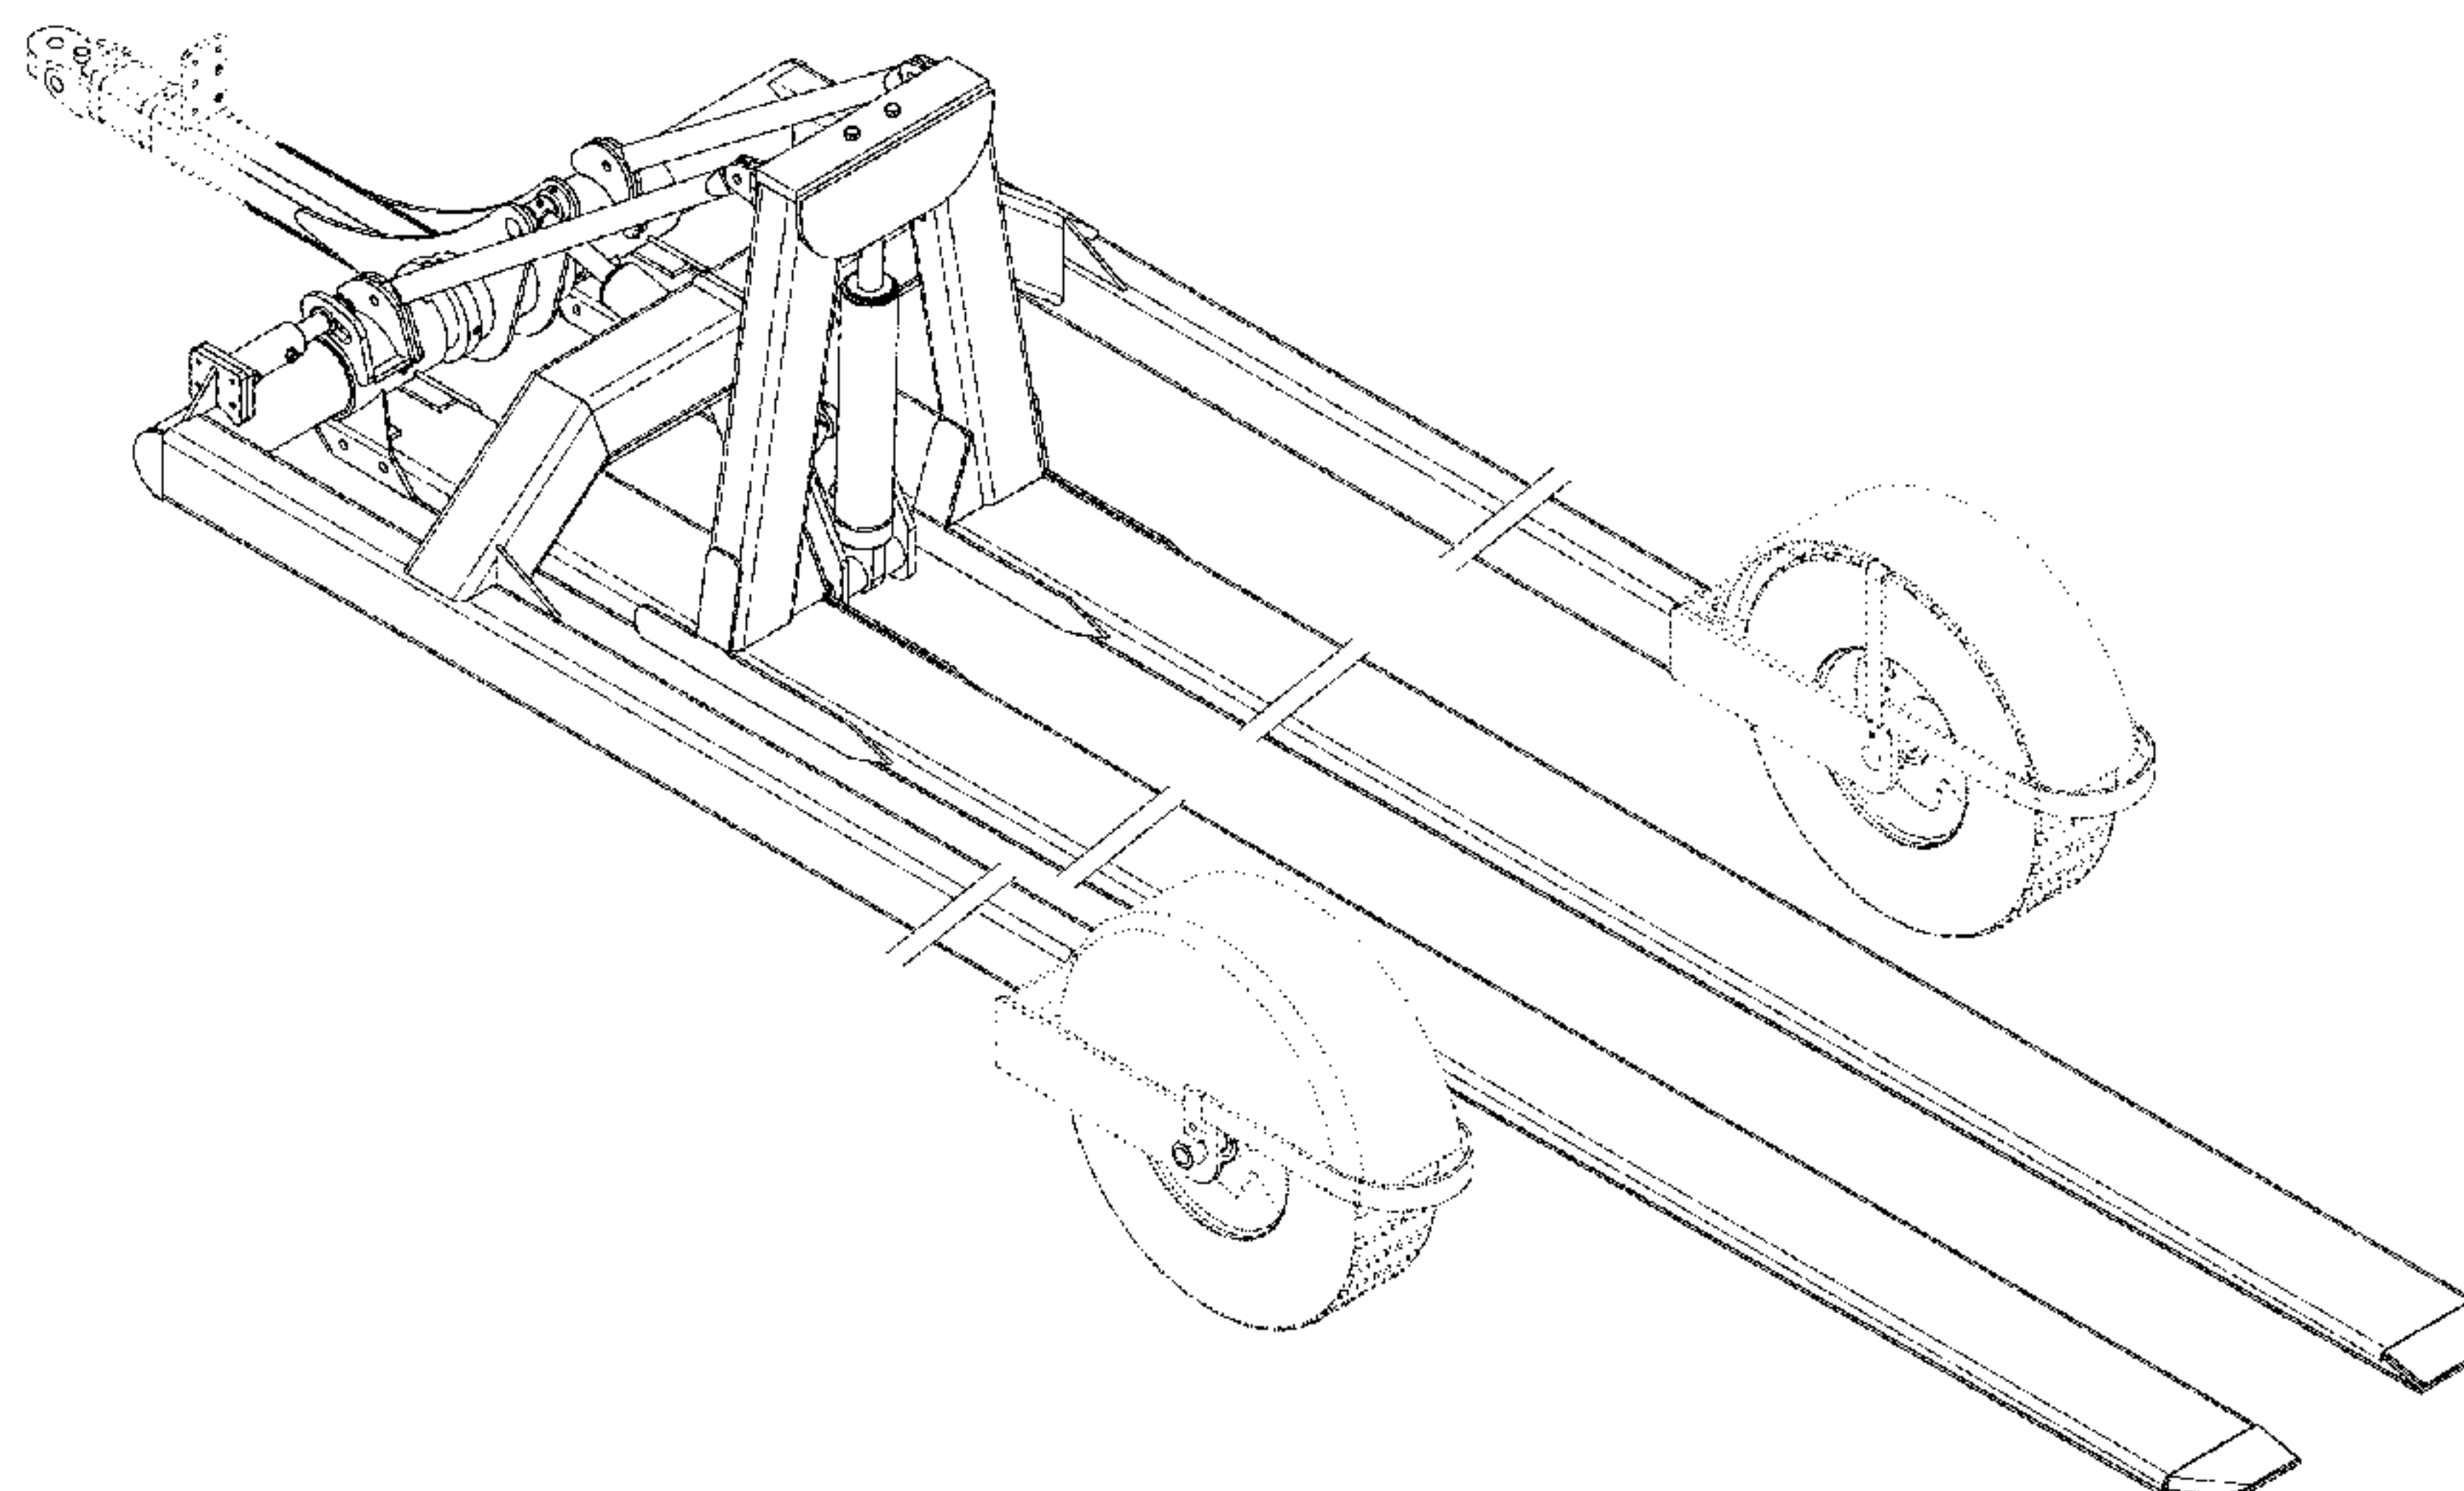

FIG. 10 is a top view with the trailer in a transport position,
with the forks in a left side-shifted position;

FIG. 11 is a top view with the trailer in a transport position,
with forks in a non-side-shifted position; and,

FIG. 12 is a top view with the trailer in a transport position,
with the forks in a right side-shifted position.

The breaks in the drawing figures show no specific length.
In the drawings, the broken lines depict portions of the
article that form no part of the claimed design.

1 Claim, 12 Drawing Sheets
