(57) CLAIM

The ornamental design for a display screen with a graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with a graphical user interface showing a new design.

The perimeters of the portion of the underlying portion of a display screen and the graphical user interface are understood to be flush. The broken lines shown in the drawing illustrates portions of the display screen with a graphical user interface that form no part of the claimed design.
