(57) **CLAIM**

The ornamental design for a folding table, as shown and described.

DESCRIPTION

1. Folding table
1.1 is a perspective view with the table top released from the supporting frame.
1.2 is a perspective view with the table top attached to the supporting frame with the rotating arms in the open position.
1.3 is a perspective view with the table top attached to the supporting frame with the rotating arms in the closed position.
1.4 is an enlarged fragmentary perspective view of the rear left leg showing table top released from the supporting frame.
1.5 is an enlarged fragmentary perspective view of the rear left leg showing table top attached to the supporting frame with the rotating arm in the open position.
1.6 is an enlarged fragmentary perspective view the rear left leg showing table top attached to the supporting frame with the rotating arm in the closed position.
1.7 is an enlarged fragmentary perspective view of the two left legs of the supporting frame in a folded position with the rotating arms in a closed position and table top removed.
1.8 is an enlarged fragmentary perspective view of the two left legs of the supporting frame in a folded position with the rotating arms in an open position and table top removed.
1.9 is an enlarged fragmentary perspective view of the two left legs of the supporting frame in a partially folded position with the rotating arms in an open position and table top removed.
