(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

**DESCRIPTION**

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

A portion of the disclosure of this patent document contains material to which a claim for copyright and trademark is made. The copyright and trademark owner has no objection to the reproduction of the patent document of the patent disclosure, as it appears in the U.S. Patent Office records, but reserves all other copyright and trademark rights whatsoever.

FIG. 1 is a front elevational view of a first embodiment of a display screen or portion thereof with graphical user interface; and,

FIG. 2 is a front elevational view of a second embodiment of a display screen or portion thereof with graphical user interface.

The broken lines showing a display screen or portion thereof illustrate portions of the article and form no part of the claimed design. The broken line circles within the graphical user interface illustrate boundaries of the claim, where the interior portions of these circles showing silhouettes forms no part of the claimed design.
