(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a display screen with graphical user interface showing a first image in a sequence; FIG. 2 is a front view of a display screen with graphical user interface showing a second image in a sequence; and, FIG. 3 is a front view of a display screen with a graphical user interface showing a third image in a sequence. The broken line showing of a display screen and graphical user interface is for the purpose of illustrating portions of the article and forms no part of the claimed design. The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
