(57) **CLAIM**

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

DESCRIPTION

The patent file contains at least one drawing executed in color. Copies of this patent with a color drawing will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first image in a sequence of a display screen with an animated graphical user interface showing our new design; and

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof; and,

FIG. 4 is a fourth image thereof.

The subject matter of this patent or application includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design. The broken line showing of text elements form no part of the claimed design. The broken line showing of a display screen or portion thereof forms no part of the claimed design. The broken lines crossing over the color showing of the claimed design are defined as environment therefore the surface that lies beneath the broken lines is part of the claimed design.
