(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a display screen with animated graphical user interface, showing our new design. FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.

The dot-dash broken lines in the drawing illustrate a display screen while the even broken lines illustrate portions of the graphical user interface. No subject matter shown in any of the aforementioned styles of broken lines form part of the claimed design.
