(57) **CLAIM**

The ornamental design for a display panel or screen with transitional graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first image of a first embodiment of a display panel or screen with transitional graphical user interface showing our new design;

FIG. 2 is a second image thereof; and

FIG. 3 is a third image thereof.

FIG. 4 is a front view of a first image of a second embodiment of a display panel or screen with transitional graphical user interface showing our new design;

FIG. 5 is a second image thereof; and

FIG. 6 is a third image thereof.

FIG. 7 is a front view of a first image of a third embodiment of a display panel or screen with transitional graphical user interface showing our new design;

FIG. 8 is a second image thereof; and,

FIG. 9 is a third image thereof.

The even-dash broken lines represent the display panel or screen and form no part of the claimed design. The dot-dash broken lines represent boundaries which form no part of the claimed design. The reminder of the graphical user interface inside and outside of the dot-dash line boundaries is claimed subject matter.

The appearance of the transitional image transitions between the images shown in FIGS. 1-3, FIGS. 4-6 and FIGS. 7-9 respectively. The process or period in which an image transitions to another forms no part of the claimed design.

1 Claim, 9 Drawing Sheets
