(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface for image navigation and selection, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image of a display screen with transitional graphical user interface for image navigation and selection; FIG. 2 is a front view of a second image thereof; FIG. 3 is a front view of a third image thereof; and, FIG. 4 is a front view of a fourth image thereof. The outer circle in broken lines is included to show a display screen and forms no part of the claimed design. The portions of the transitional user interface shown in broken lines form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design.
