(57) **CLAIM**
The ornamental design for a “drawstring trash bag,” as shown and described.

DESCRIPTION

The FIGURE is a front elevation view of the drawstring trash bag showing my new design, the back view being identical. The stippling and line shading shown in the upper sections of the drawstring trash bag disclose contrasting surfaces in relation to each other and the un-shaded bag body. The broken lines shown form no part of the claimed design.
The drawstring trash bag has no appreciable thickness.
