(57) **CLAIM**

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image in a sequence of a display screen with an animated graphical user interface, showing our new design;
FIG. 2 is a second image thereof;
FIG. 3 is a third image thereof;
FIG. 4 is a fourth image thereof;
FIG. 5 is a fifth image thereof;
FIG. 6 is a sixth image thereof;
FIG. 7 is a seventh image thereof;
FIG. 8 is an eighth image thereof;
FIG. 9 is a ninth image thereof;
FIG. 10 is a tenth image thereof; and,
FIG. 11 is an eleventh image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-11. The process or period in which one image transitions to another image forms no part of the claimed design. The large circular broken line illustrates both a boundary and a display screen, the broken lines surrounding the large circular broken line illustrates an electronic device, and the remainder of the broken lines illustrate portions of the animated graphical user interface. None of the broken lines form part of the claimed design.

1 Claim, 11 Drawing Sheets
